Good Lawyer Bad Lawyer:

The Lawyer's Myth Walter Bennett, 2010-02-15 Lawyers today are in a moral crisis The popular perception of the lawyer both within the legal community and beyond is no longer the Abe Lincoln of American mythology but is often a greedy cynical manipulator of access and power In *The Lawyer's Myth* Walter Bennett goes beyond the caricatures to explore the deeper causes of why lawyers are losing their profession and what it will take to bring it back Bennett draws on his experience as a lawyer judge and law teacher as well as upon oral histories of lawyers and judges in his exploration of how and why the legal profession has lost its ennobling mythology Effectively using examples from history philosophy psychology mythology and literature Bennett shows that the loss of professionalism is more than merely the emergence of win at all cost strategies and a scramble for personal wealth It is something more profound a loss of professional community and soul Bennett identifies the old heroic myths of American lawyers and shows how they informed the values of professionalism through the middle of the last century He shows why in our more diverse society those myths are inadequate guides for today's lawyers And he also discusses the profession's agony over its trickster image and demonstrates how that archetype is not only a psychological reality but a necessary component of a vibrant professional mythology for lawyers At the heart of Bennett's eloquently written book is a call to reinvigorate the legal professional community To do this lawyers must revive their creative capacities and develop a meaningful professional mythology one based on a deeper understanding of professionalism and a broader more compassionate ideal of justice

Procedure in EU Competition Cases Before the English and Dutch Courts George Cumming,Mirjam Freudenthal,2010-01-01 For decades it seemed clear that EC competition law was enforceable effectively at the national level and ECJ case law has continued to bear this out In recent years however the Commission has been proposing harmonization of national rules of procedure in competition cases implying that procedural autonomy is insufficient on its own to produce an effective enforcement system in this area As the authors of this book clearly demonstrate this suggests a binary system governing the enforcement of EC Articles 81 and 82 namely that led by the Commission through directives and eventual regulations and that built on ECJ principles in areas not dealt with by such Community instruments This book describes and analyzes not only the specific Commission recommendations but also the manner and extent to which these recommendations are or may be implemented in civil procedure In particular the authors consider changes which may be required if these recommendations are incorporated into Dutch and English rules of civil procedure Also addressed are elements of procedure not mentioned by the Commission but which might usefully be considered in the context of ECJ principles of effectiveness equivalence and effective judicial protection of rights At the heart of the study is a detailed analysis of the Commission White Paper on Damages Actions and the Commission Staff Working Paper both issued early in 2009 The in depth analysis ranges over procedural aspects of such elements as the following and standing and disclosure and access to evidence and burden of proof and fault no fault and costs of damages actions and injunctions and civil versus administrative enforcement and limitations and leniency programmes and collective actions and confidentiality and forms of compensation Anticipating as it does a looming impasse in European competition law this remarkable book sheds defining light on the real implications of EC competition law for parties to damages actions not only in the national systems studied but for all Member States For practitioners and jurists it offers a particularly useful approach to the handling of cases involving European competition law and also serves as a guide to current trends and as a clarification of doctrine *The*
