**Rights for Victims of Crime** Irvin Waller, 2010-12-16 When the victims of injustice lose faith in their justice system the crime they've endured cuts only deeper adding insult to injury The time has come to face the truth that most victims of crime will not have their needs met and often won't experience our systems of justice as just This short book makes its readers experts in advocating rights for victims of crime It empowers taxpayers voters and potential victims of crime to make the case to rebalance justice and support victims Written for the millions of victims of crime and their friends and families it helps to transform an antiquated system of criminal and civil justice into a modern system that is just and fair shifting from neglect to respect and support While some laws in the USA and elsewhere do support victims by providing assistance compensation and protection from the accused this book also sheds a harsh light upon their inadequate implementation Police services must catch crooks but make victims their client Courts must balance rights for defendants and victims Services for women children and elderly victims must be adequately funded Restitution from offenders must be ordered and collected not overlooked Fair compensation from the state must change from a secret to a given The prevention of victimization must be the budget priority not mass incarceration Despite the speeches and the United Nations norms governments still leave most victims of crime without basic information support and assistance let alone respect and

remedies in courts If you are not yet one of those victims of crime social responsibility requires you to ensure that your country's systems of justice are fair to those who are and for them this book provides an answer 'Hate crime' and the city Paul Iganski,2008-07-09 The impression often conveyed by the media about hate crime offenders is that they are hate fuelled individuals who in acting out their extremely bigoted views target their victims in premeditated violent attacks Scholarly research on the perpetrators of hate crime has begun to provide a more nuanced picture But the preoccupation of researchers with convicted offenders neglects the vast majority of hate crime offenders that do not come into contact with the criminal justice system This book from a leading author in the field widens understanding of hate crime by demonstrating that many offenders are ordinary people who offend in the context of their everyday lives Written in a lively and accessible style the book takes a victim centred approach to explore and analyse hate crime as a social problem providing an empirically informed and scholarly perspective Aimed at academics and students of criminology sociology and socio legal studies the book draws out the connections between the individual agency of offenders and the background structural context for their actions It adds a new dimension to the debate about criminalising hate in light of concerns about the rise of punitive and expressive justice scrutinizing the balance struck by hate crime laws between the rights of offenders and the rights of victims

*SOCIAL WORK IN JUVENILE AND CRIMINAL JUSTICE SYSTEMS (4th Ed.)* David W. Springer, Albert R. Roberts, 2017-05-16

*Social Work in Juvenile and Criminal Justice Systems* sets the standard of care for mental health treatment and the delivery of social services to crime victims, juvenile and adult offenders and their families. The chapters, all authored by experts in the field and all committed to the mission of social justice, are written with the clear understanding that we cannot study criminal justice in a vacuum. Therefore, a major focus of the book is on the renewed, growing sense of the profession's obligation to social justice. Each chapter interconnects with the various components of juvenile and criminal justice. Another prominent aspect of the book is that it is strength based. It views those involved in the criminal and juvenile justice systems as individuals rather than inmates or criminals, each with unique positive talents and abilities. The book is divided into four sections. The first section discusses forensic social work, including crime and delinquency theories, trends and ethical issues. The second section prepares social workers for practice in correctional institutions and explores crisis intervention with victims of violence, reentry of adult offenders in society and aging in prison. The third section covers assessment and intervention in child sexual abuse, mental health and substance abuse, interpersonal violence and prevention, child welfare and juvenile justice. The final section presents an overview on social work in the twenty first century, which includes restorative justice and the justice system, new ways of delivering justice, domestic violence, neighborhood revitalization, race and ethnicity and social work practice with LGBTQ offenders. This book will be the best single source on social work in criminal justice settings and will prove to be an invaluable resource for the many professionals who have responsibility for formulating and carrying out the mandates of the criminal justice system.
