Goodbye Britain:

Good-bye, Great Britain Kathleen Burk, Professor of Modern and Contemporary History Kathleen Burk, Alec Cairncross, 1992-01-01 In this authoritative and gripping book the first full account of the 1976 International Monetary Fund crisis Kathleen Burk and Alec Cairncross peel back the surface of the most searing economic crisis of postwar Britain to reveal its historical roots and contemporary context During the spring of 1976 the plummeting value of the British pound against the U S dollar triggered a traumatic economic and political crisis International confidence in the pound collapsed an article in the Wall Street Journal headlined Good bye Great Britain urged investors to get out of sterling Refused aid by the London and New York markets the Labour Government under Prime Minister James Callaghan was forced to turn for help to the IMF a highly unusual move for a developed Western economy Fearing that the economic crisis would drive Britain into a left wing siege economy which would endanger NATO and the EEC the United States and Germany used the IMF loan as a means to force Britain to make major domestic policy changes when the IMF mission arrived in London in November 1976 it was announced that the price for the loan included deep cuts in domestic spending Burk and Cairncross uncover the maneuvers of the Labour Government to evade IMF conditions They also examine underlying economic factors the political agenda the rise of monetarist ideas and the Keynesian response Juxtaposing narrative with analysis they provide surprising answers to critical questions and reveal how the breakdown of the post war consensus on the macroeconomic management paved the way for the triumph of Thatcherism **Modern Britain, 1750 to the Present** James Vernon, 2017-04-20 This wide ranging introduction to the history of modern Britain extends from the eighteenth century to the present day James Vernon s distinctive history is weaved around an account of the rise fall and reinvention of liberal ideas of how markets governments and empires should work The history takes seriously the different experiences within the British Isles and the British Empire and offers a global history of Britain Instead of tracing how Britons made the modern world Vernon shows how the world shaped the course of Britain s modern history Richly illustrated with figures and maps the book features textboxes on particular people places and sources further reading guides highlighted key terms and a glossary A supplementary online package includes additional primary sources discussion questions and further reading suggestions including useful links This textbook is an essential resource for introductory courses on the history of modern Britain

When Hollywood Loved Britain Mark Glancy, 1999-08-20 When Hollywood Loved Britain examines the Hollywood British film American feature films that were set in Britain based on British history or literature and included the work of British producers directors writers and actors British films include many of the most popular and memorable films of the 1930s and 1940s yet they have received little individual attention from film historians and even less attention as a body of films While the book is centered on wartime British films it also investigates wider issues the influence of censorship and propaganda agencies during Hollywood's studio era studio finances the isolationist campaign in the United States between 1939 and 1941 and American perceptions of Britain at war

Heritage and the Legacy of the Past in Contemporary Britain Ryan Trimm, 2017-08-24 Bringing together heritage studies and literary studies this book examines heritage as a ubiquitous trope in contemporary Britain a seemingly inescapable figure for relations to the past Inheritance has been an important metaphor for characterizing cultural and political traditions since the 1970s but one criticized for its conservatism and apparent disinheritance of new Britons Engaging with contemporary literary and cinematic texts the book interrogates metaphoric resonances that bestowing past receiving present and transmitted bounty are all singular and unified that transmission between past and present is smooth despite heritage depending on death that the past enjoins the present to conserve its legacy into the future However heritage offers an alternative to modern market driven relations transactions stressing connection only through a momentary exchange for bequest resembles gift giving and connects past to present Consequently heritage contains competing impulses subtexts largely unexplored given the trope's lapse into cliché The volume charts how these resonances developed as well as charting more contemporary aspects of heritage as postmodern image tourist industry historic environment and metaculture These dimensions develop the trope moving it from singular focus on continuity with the past to one more oriented around different lines of relation between past present and future Heritage as a trope is explored through a wide range of texts core accounts of political theory Locke and Burke seminal documents within historic conservation phenomenology and poststructuralism film and television Merchant Ivory Downton Abbey and a broad range of contemporary fiction from novelists including Zadie Smith Julian Barnes Hilary Mantel Sarah Waters Alan Hollinghurst Peter Ackroyd and Helen Oyeyemi

London's 'Big Bang' Moment and its Architectural Conversations Stephen Rosser, 2025-06-30 This book explores the topic of architecture as a component of public discourse focussing on the reception of four high profile developments in the City of London the UK capital's financial district dating from the final years of the twentieth century During this time the City's mode of operation culture and built

environment were all transformed as a result of the market deregulation process labelled Big Bang. It was also a period which saw the subject of architecture attracting public and media attention becoming a prominent feature of national conversation. The book examines the extensive and often contentious discourse generated by the four case study projects. It looks at how these projects were viewed and interpreted retrospectively when they had become part of the City's long and rich history. Topics explored include building and urban form on the eve of the millennium, the place of new development in a setting of unique historic importance, the iconic building and celebrity architect and the role of then Prince Charles as an architectural critic. Also referenced are many of the broader issues of the day including the Thatcher government policies and the preoccupations concerning London's infrastructure, public realm, inner city areas and inequalities. Furthermore, ranging across the discourse is the theme of the relationship between buildings and global finance, foreshadowing later controversies concerning London's post-millennial towers and their impact on the capital's skyline. The book will be of interest to researchers and students of late twentieth century British architecture and urban development, London's history and UK public discourse in the 1980s, a decade of profound political, economic and social change.

[Pedro and Ricky Come Again](#) Jonathan Meades, 2021-03-18 This landmark publication collects three decades of writing from one of the most original, provocative and consistently entertaining voices of our time. Anyone who cares about language and culture should have this book in their life. Thirty years ago Jonathan Meades published a volume of reportorial journalism, essays, criticism, squibs and fictions called *Peter Knows What Dick Likes*. The critic James Wood was moved to write: 'When journalism is like this, journalism and literature become one.' *Pedro and Ricky Come Again* is every bit as rich and catholic as its predecessor. It is bigger, darker, funnier and just as impervious to taste and manners. It bristles with wit and pin-sharp eloquence, whether Meades is contemplating northernness in a German forest or hymning the virtues of slang. From the indefensibility of nationalism and the ubiquitous abuse of the word 'iconic' to John Lennon's shopping lists and the wine they call Black Tower, the work assembled here demonstrates Meades's unparalleled range and erudition with pieces on cities, artists, sex, England, concrete, politics and much, much more.

Proceedings of the International Symposium on Design Review (Routledge Revivals) Wolfgang F. E.

Preiser,Brenda Case Scheer,2017-08-03 First published in 1992 this book collects together the papers presented at the International Symposium on Design Review which was held to address the growing tendency of local governments to institute programs of aesthetic control The editor argues that the widespread adoption of design review processes in the years preceding the conference necessitated thoroughgoing professional criticism and a number of areas of debate are identified and addressed in the subsequent papers Are the difficulties experienced by planners community activists and architects with the process due to its relative youth or inherent flaws in the entire concept How should mechanical problems like time and expense the ease with which the process can be manipulated and general inefficiencies in the system be resolved More intricate problems are also addressed such as who has the power to judge the aesthetic quality of a building whether design review infringes on the rights of the individual especially under the First Amendment whether the design review process is fair and the difficulty for the reviewer of deciding what is right and what is wrong having taken into account factors that can be highly subjective or contradict more practical concerns **Conservation in the Age of**

Consensus John Pendlebury,2008-09-17 This new text on the subject of conservation in the built environment provides a unique holistic view on the understanding of the practice of conservation connecting it with wider societal and political forces UK practice is used as a means along with international examples for bringing together a real understanding of practice with a social science analysis of the issues The author introduces ideas about the meanings and values attached to historic environments and how that translates into public policies of conservation *Conservation and the City* Peter

Larkham,2002-03-11 It is a widely held belief that cities must change or they will wither and die One of the key problems of urbanization is how to cope with these changes while retaining the structures constructed and maintained by previous generations *Conservation and the City* is a study of conservation and change throughout the built environment city centres suburbs and even tiny villages and how the activities of conservation interact with the planning system Using detailed case studies from Britain and the Westernized world the author examines some of the key social economic and psychological ideas

which support conservation as well as studying the urban landscape and the agents of change Conservation and the City seeks to understand urban conservation and in doing so presents possible solutions for managing change in the built environment of the future *Conservation and Planning* Edward Hobson,2004 This book presents original research into how national and local decision makers construct and implement conservation of the built environment *On Roads* Joe Moran,2010-12-09 In this history of roads and what they have meant to the people who have driven them one of Britain's favourite cultural historians reveals how a relatively simple road system turned into a maze like pattern of roundabouts flyovers and spaghetti junctions Using a unique blend of travel writing anthropology history and social observation he explores how Britain's roads have their roots in unexpected places from Napoleon's role in the numbering system to the surprising origin of sat nav Full of quirky nuggets of history such as the day trips organised to see the construction of the M1 and the 2 5m Mills and Boons used to build the M6 Toll Road On Roads also celebrates innovators whose work we take for granted such as the designers of the road sign system On subjects ranging from speed limits to driving on the left and the non places where we stop to the unwritten laws of traffic jams these hidden stories have never been told together until now

Argues against the assertion that there is no alternative to neo liberalism **Trailblazers** David Bret, 2014-02-21

Parsons Drake and Buckley were three young musicians who died before they had made their mark on the musical world yet left behind them a legacy that was as rich as it was beautiful Ex preacher Parsons was outrageous outspoken but impeccably polite He recorded with various bands including The Flying Burrito Brothers The Byrds and very nearly the Rolling Stones His light shone brightly but briefly before his mysterious death and more bizarre cremation at the age of 26 Almost a polar opposite Nick Drake was intensely shy with crippling stage fright who made less than 40 public appearances Handsome yet fragile he composed beautiful melodies He sank into depression in the family home before overdosing on medication whether deliberate or not nobody knows at the age of 26 Jeff Buckley s vocal range spanned an astonishing four octaves He could sing any style from Piaf to Gershwin from scat and jazz to Oum Kalthoum alongside his own superb realist compositions In 1997 on the brink of stardom he never returned from a fully clothed swim in the Mississippi River Only in death was the true potential of these talented young men appreciated their songs still appearing in ads and Buckley had his first number 1 in 2008 With every passing year their legends grow And posthumously they have influenced a whole host of singers who now crowd the charts on both sides of the Atlantic This is their remarkable story David Bret was born in Paris His acclaimed books include biographies of Marlene Dietrich Morrissey Freddie Mercury and Edith Piaf among many others New Labour and the European Union Oliver Daddow, 2013-01-18

This book explores Tony Blair and Gordon Brown s attempt to sell the European ideal to the British people New Labour came to power in 1997 promising to modernize the country and make it fit for the twenty first century In foreign policy Blair and Brown set about rethinking core components of the British national identity especially the country s relationship to its past and its role in the world Rebranding Britain they argued meant helping the British people feel comfortably at home in the European Union What did New Labour achieve and did its European policy succeed How did Blair and Brown try and persuade the British to accept a European future What were the obstacles they faced and the strategies they used to overcome them This timely study of New Labour s effort to build a pro European consensus in Britain argues that the government failed to live up to its early promises Based on evidence from well over one hundred of Blair and Brown s foreign policy speeches supplemented by interviews with policy makers advisers and speech writers from the time the book is sympathetic to the challenge New Labour set itself but also critical of the rhetorical techniques it used to advance the Europeanist cause Trapped between a broadly hostile media and an apathetic public Blair and Brown failed to provide the necessary leadership to see Britain to a European future Theoretically informed empirically

robust and methodologically innovative this novel book will appeal to anyone interested in contemporary British foreign policy the New Labour project and Euroscepticism in Britain
