as Jude the Obscure, Candide and even Don Quixote and gives literary life to the Northern Ontario landscape of the Soo and the demanding muscular life of Lake Superior where giant ore barges make their way over the grave of The Edmund Fitzgerald. Intricately patterned and multi-layered, this is the story of Seignie Torrins, poet and boxer who sets off into the world to make it and whose romantic and professional misadventures take him as far as Egypt before he finds his way back to the Great Lakes. But the classic writerly dream that Seignie pursues turns out in practice to have a different and darker reality than any he had foreseen. A passionate love story, a gripping narrative, *The Shadow Boxer* is also about the power of dreams and regret. It heralds a major new Canadian novelist and a master storyteller. **Photography Books Index III**

Martha Kreisel, 2006. While the Internet is an important source for locating photographic images, there still are hundreds of photography books published each year for whose contents there is no external access. This second supplement to *Photography Books Index* addresses this need by analyzing important photographic anthologies that have been published since 1985. Accessing more than fifty photographic anthologies that are widely held in libraries across the country along with images from two critical annual compilations, *Best of Photojournalism* and *Graphis Annual*, this book identifies photographs that record the history of our times. This reference guide provides an important index to contemporary as well as historical photographers, including those for whom full monographs have not been published. Photographs of important individuals as well as photographic records of cataclysmic events can be located through this index. Extensive descriptions of the individual photographs from the commonplace to the extraordinary are identified in this volume. Organized into three sections: Photographers, Subjects of Photographs and Portraits of Named Individuals, these descriptions provide the researcher with important information on each photograph. An essential volume for all public, special and academic libraries, this index will be an invaluable resource for reporters, historians, academics, students and anyone wishing to research photographs and photographers. **Official Gazette of the United States Patent and Trademark Office**, 2007 **Exhibition of**
