Edward Everett, Orator and Statesman Paul Revere Frothingham, 1925 *Edward Everett* Paul Revere Frothingham, 2013-10 This is a new release of the original 1925 edition *Edward Everett, Orator and Statesman* /by Paul Revere Frothingham ; with Illustrations Paul Revere Frothingham, 1971 **Gettysburg Oration** Edward Everett, 2021-04-11 Edward Everett's Gettysburg Oration serves as a poignant reflection on the human cost of the American Civil War delivered on November 19 1863 This eloquent speech marked by its rhetorical grandeur engages with themes of sacrifice unity and national identity Everett's literary style blends classical allusions with passionate appeals expertly contextualizing the significance of the Battle of Gettysburg within the broader narrative of American democracy His oration often overshadowed by Lincoln's brief yet profound Gettysburg Address employs a structured argument encouraging listeners to contemplate the future implications of the sacrifices borne on the battlefield As a prominent politician historian and orator of his time Edward Everett was deeply entrenched in the intellectual and cultural currents of 19th century America His experiences including serving as a U S senator and governor of Massachusetts informed his understanding of the national landscape Moreover his background in classic studies and public speaking cultivated a unique voice that resonated with his audience allowing him to articulate the gravity of the moment and the enduring ideals of liberty and nationalism I highly recommend Gettysburg Oration to those interested in the complexities of American history and rhetoric Everett's eloquence not only illuminates the values of his era but also beckons contemporary readers to reflect on the lessons of sacrifice and unity that remain relevant today This text is essential for anyone wishing to explore the enduring power of oratory in shaping history *Edward Everett!!* W. E. Demill, 1859 *Dissenting Voices in America's Rise to Power* David Mayers, 2007-02-15 This book offers a major rereading of US foreign policy from Thomas Jefferson's purchase of Louisiana expanse to the Korean War This period of one hundred and fifty years saw the expansion of the United States from fragile republic to transcontinental giant David Mayers explores the dissenting voices which accompanied this dramatic ascent focusing on dissenters within the political and military establishment and on the recurrent patterns of dissent that have transcended particular policies and crises The most stubborn of these sprang from anxiety over the material and political costs of empire while other strands of dissent have been rooted in ideas of exigent justice realpolitik and moral duties existing beyond borders Such dissent is evident again in the contemporary world when the US occupies the position of preeminent global power Professor Mayers's study reminds us that America's path to power was not as straightforward as it might now seem *A Critical Study of the Oratory of Edward Everett* Ronald Forrest Reid, 1954 **American and Muslim Worlds before 1900** John Ghazvinian, Arthur Mitchell Fraas, 2020-02-06 American and Muslim Worlds before 1900 challenges the prevailing assumption that when we talk about American and Muslim worlds we are talking about two conflicting entities that came into contact with each other in the 20th century Instead this book shows there is a long and deep seam of history between the two which provides an important

context for contemporary events and is also important in its own right Some of the earliest American Muslims were the African slaves working in the plantations of the Carolinas and Latin America Thomas Jefferson a slaveholder himself was frequently called an infidel and suspected of hidden Muslim sympathies by his opponents Whether it was the sale of American commodities in Central Asia Ottoman consuls in Washington orientalist themes in American fiction the uprisings of enslaved Muslims in Brazil or the travels of American missionaries in the Middle East there was no shortage of opportunities for Muslims and inhabitants of the Americas to meet interact and shape one another from an early period

Bonner, 2009-04-27 *Mastering America* recounts efforts of proslavery nationalists to navigate the nineteenth century geopolitics of imperialism federalism and nationalism and to articulate themes of American mission in overtly proslavery terms At the heart of this study are spokesmen of the Southern Master Class who crafted a vision of American destiny that put chattel slavery at its center Looking beyond previous studies of the links between these proslavery nationalists and secession the book sheds new light on the relationship between the conservative Unionism of the 1850s and the key formulations of Confederate nationalism that arose during war in the 1860s Bonner's innovative research charts the crucial role these men and women played in the development of American imperialism constitutionalism evangelicalism and popular patriotism **Christian Register and Boston Observer**, 1925 [The Early Republic and Antebellum America: An Encyclopedia of Social, Political, Cultural, and Economic History](#) Christopher G.
