

SEQUENCING OF ANTIBIOTIC THERAPY

Initial periodontal therapy should include thorough mechanical root debridement followed by surgical access if needed.

Antibiotics may be prescribed on the basis of the clinical need for further treatment, findings of microbiological testing, and the medical status and current medications of the patient.

The clinical response should be evaluated 1-3 months after completion of the mechanical therapy.

If periodontal inflammation does not resolve, a microbiological examination of the subgingival microbiota may help determine the presence and amount of remaining putative periodontal pathogens.

**13th International Conference on Electrical Bioimpedance and 8th Conference on Electrical Impedance
Tomography 2007** Hermann Scharfetter,Robert Merwa,2007-10-27 These proceedings continue the series edited in the
framework of the traditional triennial International Conference on El trical Bio Impedance ICEBI the most important platform
for presenting recent scientific achievements in the area of el th nd trical bio impedance The XIII ICEBI was held from Aug
29 Sept 02 2007 at the Graz University of Technology in Graz Austria The organizers received 285 abstracts 264 of which
were accepted for presentation The authors of these pers came from 34 different nations Due to the kind support by the
International Federation for Biomedical Engineering IFMBE the proceedings were p lished by Springer in the proceedings
series of the IFMBE The editors would like to thank the IFMBE for this kind of s vice which makes the results of the
bioimpedance community visible on a very important publishing platform According to the quality requirements of the
IFMBE each paper had to pass a thorough two stage review by two independent members of the scientific board As a result
204 papers were selected for being printed in this issue As already in previous years the ICEBI was held together with the
Conference on Electrical Impedance Tomography the annual meeting for biomedical impedance imaging Consequently the
proceedings also contain many contributions from this very important and challenging branch of bioimpedance research
