## **Egypt And Nubia Gifts Of The Desert:**

**Egypt and Nubia** Renée F. Friedman, 2002 This book originates in an international colloquium held in the British Museum in 1998 It comprises eighteen papers written by leading scholars each of whom explores an aspect of the use and exploitation of the deserts lying to the east and west of the Nile Valley by the ancient Egyptians and their prehistoric ancestors Dr Renee Friedman is Heagy Research Curator in the Department of Ancient Egypt and Sudan at the British Museum Desert road archaeology in ancient Egypt and beyond Heiko Riemer, 2013-01-01 Egypt and the Desert John Coleman Darnell, 2021-06-10 Deserts the Red Land bracket the narrow strip of alluvial Black Land that borders the Nile Networks of desert roads ascended to the high desert from the Nile Valley providing access to the mineral wealth and Red Sea ports of the Eastern Desert the oasis depressions and trade networks of the Western Desert A historical perspective from the Predynastic through the Roman Periods highlights how developments in the Nile Valley altered the Egyptian administration and exploitation of the deserts For the ancient Egyptians the deserts were a living landscape and at numerous points along the desert roads the ancient Egyptians employed rock art and rock inscriptions to create and mark places Such sites provide considerable evidence for the origin of writing in northeast Africa the religious significance of the desert and expressions of personal piety and the development of the early alphabet **Dakhleh Oasis and the Western Desert of**

**Egypt under the Ptolemies** James C. R. Gill, 2016-07-08 Through an analysis of recently discovered Ptolemaic pottery from Mut al Kharab as well as a reexamination of pottery collected by the Dakhleh Oasis Project during the survey of the oasis from 1978 1987 this book challenges the common perception that Dakhleh Oasis experienced a sudden increase in agricultural exploitation and a dramatic rise in population during the Roman Period It argues that such changes had already begun to take place during the Ptolemaic Period likely as the result of a deliberate strategy directed toward this region by the Ptolemies This book focuses on the ceramic remains in order to determine the extent of Ptolemaic settlement in the oases and to offer new insights into the nature of this settlement It presents a corpus of Ptolemaic pottery and a catalogue of Ptolemaic sites from Dakhleh Oasis It also presents a survey of Ptolemaic evidence from the oases of Kharga Farafra Bahariya and Siwa It thus represents the first major synthesis of Ptolemaic Period activity in the Egyptian Western Desert

*Roads in the Deserts of Roman Egypt* Maciej Paprocki, 2019-07-19 Egypt under the Romans 30 BCE 3rd century CE was a period when local deserts experienced an unprecedented flurry of activity In the Eastern Desert a marked increase in desert traffic came from imperial prospecting quarrying activities and caravans transporting wares to and from the Red Sea ports In the Western Desert resilient camels slowly became primary beasts of burden in desert travel enabling caravaneers to lengthen daily marching distances across previously inhospitable dunes Desert road archaeology has used satellite imaging landscape studies and network analysis to plot desert trail networks with greater accuracy however it is often difficult to date roadside installations and thus assess how these networks evolved in scope and density in reaction to climatic social and

technological change Roads in the Deserts of Roman Egypt examines evidence for desert roads in Roman Egypt and assesses Roman influence on the road density in two select desert areas the central and southern section of the Eastern Desert and the central Marmarican Plateau and discusses geographical and social factors influencing road use in the period demonstrating that Roman overseers of these lands adapted remarkably well to local desert conditions improving roads and developing the trail network Crucially the author reconceptualises desert trails as linear corridor structures that follow expedient routes in the desert landscape passing through at least two functional nodes attracting human traffic be those water sources farmlands mines quarries trade hubs military installations or actual settlements The route of least resistance across the desert varied from period to period according to the available road infrastructure and beasts of burden employed Roman administration in Egypt not only increased the density of local desert node networks but also facilitated internodal connections with camel caravans and transformed the Sahara by establishing new or embellishing existing nodes effectively funnelling desert traffic into discernible corridors Significantly not all desert areas of Egypt are equally suited for anthropogenic development but almost all have been optimised in one way or another with road installations built for added comfort and safety of travellers Accordingly the study of how Romans successfully adapted to desert travel is of wider significance to the study of deserts and ongoing expansion due to global warming

Science in the Study of Ancient Egypt Sonia Zakrzewski, Andrew Shortland, Joanne Rowland, 2015-12-22 Science in the Study of Ancient Egypt demonstrates how to integrate scientific methodologies into Egyptology broadly and in Egyptian archaeology in particular in order to maximise the amount of information that might be obtained within a study of ancient Egypt be it field museum or laboratory based The

authors illustrate the inclusive but varied nature of the scientific archaeology being undertaken revealing that it all falls under the aegis of Egyptology and demonstrating its potential for the elucidation of problems within traditional Egyptology

The History of the Peoples of the Eastern Desert Hans Barnard, Kim Duistermaat, 2012-12-31 The last quarter century has seen extensive research on the ports of the Red Sea coast of Egypt the road systems connecting them to the Nile and the mines and quarries in the region Missing has been a systematic study of the peoples of the Eastern Desert the area between the Red Sea and the Nile Valley in whose territories these ports roads mines and quarries were located The historical overview of the Eastern Desert in the shape of a roughly chronological narrative presented in this book fills that gap The multidisciplinary perspective focuses on the long term history of the region The extensive range of topics addressed includes specific historical periods natural resources nomadic survival strategies ancient textual data and the interaction between Christian hermits and their neighbors The breadth of perspective does not sacrifice depth for all authors deal in some detail with the specifics of their subject matter As a whole this collection provides an outline of the history and sociology of the Eastern Desert unparalleled in any language for its comprehensiveness As such it will be the essential starting point for future research on the Eastern Desert Includes a CD of eleven audio files with music of the Ababda Nomads and six short videos of Ababda culture

Sidebotham,Martin Hense,Hendrikje M. Nouwens,2008 For thousands of years Egypt has crowded the Nile Valley and Delta The Eastern Desert however has also played a crucial though until now little understood role in Egyptian history Ancient inhabitants of the Nile Valley feared the desert which they referred to as the Red Land and were reluctant to venture there yet they exploited the extensive mineral wealth of this region They also profited from the valuable wares conveyed across the desert between the Nile and the Red Sea ports which originated from Arabia Africa India and elsewhere in the east Based on twenty years of archaeological fieldwork conducted in the Eastern Desert The Red Land reveals the cultural and historical richness of this little known and seldom visited area of Egypt A range of important archaeological sites dating from Prehistoric to Byzantine times is explored here in text and illustrations Among these ancient treasures are petroglyphs cemeteries fortified wells gold and emerald mines hard stone quarries roads forts ports and temples With 250 photographs and fascinating artistic reconstructions based on the evidence on the ground along with the latest research and accounts from ancient sources and modern travelers the authors lead the reader into the remotest corners of the hauntingly beautiful Eastern Desert to discover the full story of the area s human history
