Egypt Before the Pharaohs Michael A. Hoffman,1980 *Egypt Before the Pharaohs* Michael A. Hoffman,1984

Before the Pharaohs Edward F. Malkowski,2005-12-20 Presents conclusive evidence that ancient Egypt was originally the remnant of an earlier highly sophisticated civilization Supports earlier speculations based on myth and esoteric sources with scientific proof from the fields of genetics engineering and geology Provides further proof of the connection between the Mayans and ancient Egyptians Links the mystery of Cro Magnon man to the rise and fall of this ancient civilization In the late nineteenth century French explorer Augustus Le Plongeon after years of research in Mexico s Yucat n Peninsula concluded that the Mayan and Egyptian civilizations were related as remnants of a once greater and highly sophisticated culture The discoveries of modern researchers over the last two decades now support this once derided speculation with evidence revealing that the Sphinx is thousands of years older than Egyptologists have claimed that the pyramids were not tombs but geomechanical power plants and that the megaliths of the Nabta Playa reveal complex astronomical star maps that existed 4 000 years before conventional historians deemed such knowledge possible Much of the past support for prehistoric civilization has relied on esoteric traditions and mythic narrative Using hard scientific evidence from the fields of archaeology genetics engineering and geology as well as sacred and religious texts Malkowski shows that these mythic narratives are based on actual events and that a highly sophisticated civilization did once exist prior to those of Egypt and Sumer Tying its cataclysmic fall to the mysterious disappearance of Cro Magnon culture Before the Pharaohs offers a compelling new view of humanity s past

Ancient Egypt 39,000 BCE Edward F. Malkowski, 2010-05-14 A view into the sophisticated and highly advanced civilization that preceded the world of the pharaohs Presents historical evidence of the civilization ruled by the gods that the Egyptians claimed preceded their own Explains who these prehistoric people were what happened to them and why they built a series of pyramids along the west bank of the Nile River Traditional Egyptologists have long resisted the notion that the architectural achievements of the Ancient Egyptians required the existence of a much more sophisticated technology than would have existed at that time Yet no records exist explaining how why or who built Egypt's megalithic monuments and statues The ancient Egyptians did however record that their civilization resided in the shadow of a kingdom of gods whose reign ended many thousands of years before their first dynasty What was this Civilization X that antiquity's most accomplished people revered as gods The recent discovery of a large stone at one of Egypt's oldest ruins presents physical evidence that clearly and distinctly shows the markings of a machining process far beyond the capabilities of the Ancient Egyptians Likewise experimental modeling of the Great Pyramid's subterranean chambers and passageways gives scientific evidence to further support the theory that the civilization responsible for such magnificent monuments is much older than presently believed Ancient Egypt 39 000 BCE examines this evidence from historical and technical points of view explaining who these prehistoric people were what happened to them why they built their civilization out of granite and why they built a series of pyramids along the west bank of the Nile River

Before the Pharaohs Julian Maxwell Heath,2021-08-04 An examination of the Paleolithic and Neolithic communities that inhabited not only the Nile Valley and Delta but also the Western and Eastern Deserts The remarkable archaeology of pharaonic Egypt continues to captivate countless people worldwide but evidence for Egypt s prehistoric or Stone Age past has been relatively neglected This is perhaps understandable as the archaeology of Stone Age Egypt often seems crude in comparison and the number of works published on the subject is diminutive compared to those dealing with the revered ancient civilization that emerged in the Nile Valley some five thousand years ago However although less spectacular the numerous remnants of prehistoric life found throughout Egypt represent an important chapter in the story of humanity s distant past They also cast compelling light on the shadowy Stone Age peoples who lived in the Nile Valley and surrounding deserts long before the mighty monuments of the pharaohs ever existed This book examines the fascinating archaeology of Stone Age Egypt from its very beginnings when early members of the human species arrived in Egypt from sub Saharan Africa to its end when the impressive Naqada Culture emerged setting in motion the processes that led to the formation of one of the world s greatest ancient civilizations
