Baltic Iron in the Atlantic World in the Eighteenth Century Chris Evans, Göran Rydén, 2007-08-31 The eighteenth century is often viewed as the heroic age of the British iron industry a time of triumphant technological progress In fact it was an age of thwarted ambition when the take up of new technologies proved frustratingly slow The eighteenth century was more accurately the age of Baltic iron Swedish and

Russian iron surged onto the British market meeting the demand that British ironmasters could not satisfy This was of epochal importance Swedish iron allowed British steel makers and hardware manufacturers to dominate Atlantic markets In turn the rhythms of Atlantic commerce resounded through peasant communities in Sweden Baltic iron in the Atlantic world captures this moment In doing so it internationalises Swedish history in a radical way and presses an oceanic perspective on the traditionally insular view of the rise of heavy industry in Britain *The Oxford Handbook of the History of Crime and Criminal Justice* Paul Knepper, Anja Johansen, 2016 The Oxford Handbook of the History of Crime and Criminal Justice provides a systematic and comprehensive examination of recent developments across criminology and criminal justice Chapters examine methodological and theoretical approaches to criminology on going debates and controversies and contemporary issues such as drug trafficking terrorism and the intersections of gender race and class in the context of crime and punishment

Crime, Police, and Penal Policy Clive Emsley, 2007-07-05 How did ideas about crime and criminals change in Europe from around 1750 to 1940 How did European states respond to these changes with the development of police and penal institutions Clive Emsley addresses these questions using recent research on the history of crime and criminal justice in Europe Exploring the subject chronologically he addresses the forms of offending the changing interpretations and understandings of that offending at both elite and popular levels and how the emerging nation states of the period responded to criminal activity by the development of police forces and the refinement of forms of punishment The book focuses on the comparative nature in which different states studied each other and their institutions and the ways in which different reformers exchanged ideas and investigated policing and penal experiments in other countries It also explores the theoretical issues underpinning recent research emphasising that the changes in ideas on crime and criminals were neither linear nor circular and demonstrating clearly that many ideas hailed as new by contemporary politicians and in current debate on crime and its solutions have a very long and illustrious history

A Merciless Place: The Lost Story of Britain's Convict Disaster in Africa Emma Christopher, 2011-08-11 This is a story lost to history for over two hundred years a dirty secret of failure fatal misjudgement and desperate measures which the British Empire chose to forget almost as soon as it was over In the wake of its most crushing defeat the America War of Independence the British Government began shipping its criminals to West Africa Some were transported aboard ships going to pick up their other human cargo African slaves When they arrived at their destination soldiers and even convicts were forced to work in the region s slave trading forts guarding the human merchandise In a few short years the scheme brought death wholesale desertions mutiny piracy and even murder Some of the most egregious crimes were not committed by the exported criminals but by those sent out to guard them Acts of wanton desperation added to rash transgressions as those whom society had already thrown out realised that they had nothing left to lose As jail and prison hulks overflowed and as every other alternative settlement proved unsuitable the British Government gambled and decided to send its criminals as far away as possible to the great south land sighted years before by Captain

James Cook Out of the embers of the African debacle came the modern nation of Australia The extraordinary tale is now being told for the first time how a small band of good for nothing members of the British Empire spanned the world from America to Africa and on to Australia profoundly if utterly unwittingly changing history

Wicked Ladies Gregory J. Durston, 2014-08-11 In recent years much has been published on women crime and justice in English history However for a variety of reasons particularly the ready availability of source material for the capital such research has tended to have an overwhelmingly Metropolitan focus This book aims to redress the balance for the long eighteenth century by concentrating on women from outside the London area Although vitally important to the wider country the Metropolis always contained a small minority of the country's female offenders and defendants albeit a significantly higher percentage of the latter than its share of the national population The capital also had a rather different criminal justice and policing system to that found in the rest of the country at this time The book focuses on women's experiences in provincial England as both the perpetrators of various crimes and as suspects or defendants in the country's criminal justice system The areas considered range from the West Country to the Scottish Border and the offences examined include all of the major crimes such as murder and theft as well as some more arcane forms of deviance including arson and coining The factors that prompted women to offend their likelihood of exposure when they did so and their treatment before the courts and in the penal system are all considered in detail In particular the book examines the gendered differences found in female crime when compared to that of their male counterparts and how women's experiences of the era's justice system differed from those of men It also compares provincial women to those found in the Metropolis in these respects Extensive use is made of primary sources in portraying the lives of female criminals from Kent to Cumberland while comparison is also made with women from other parts of the British Isles and beyond so that the respective roles of structural determinants and national culture in crime and justice can be considered
