Bedingfield The Bayeux Tapestry invisible seams and visible boundaries Gale R Owen Crocker Bibliography **Italian Medieval Sculpture in the Metropolitan Museum of Art and the Cloisters** Metropolitan Museum of Art (New York, N.Y.), Lisbeth Castelnovo-Tedesco, Jack Soltanian, 2010 The collection of Italian medieval sculpture in The Metropolitan Museum of Art and The Cloisters began with the acquisition in 1908 of a Romanesque column statue today the Museum's holdings comprise more than seventy works dating from the ninth to the late fifteenth century The birthplaces of these works range from Sicily to Venice some typify local styles others illustrate the intense artistic exchanges taking place within Italy and between Italy and the wider world Technological advances of the last decades have made it possible to determine more precisely the materials and techniques from which works of art are made the history of their alteration and the mechanisms of their deterioration Using such techniques scholars have been able to ascertain for example that sculptures previously thought to be modern works carved in the medieval manner were in fact completely authentic This innovative volume represents a watershed in the study of sculpture a collaborative dialogue between an art historian and a conservator between art history and art science that deepens our understanding of the object we see while illuminating its elusive enigmatic history From publisher's description [Bibliography of Sources on the Region of Former Yugoslavia Volume III](#) Rusko Matuli?, 1998 **Bibliographie der Buch- und Bibliotheksgeschichte** Horst Meyer, 2004 [Approaches to History](#) Sabyasachi Bhattacharya, 2011 History as a social science is arguably more self reflective than associated disciplines in that family Other social scientists seem to see little reason to look beyond the paradigm they are developing in the present times Historians on the other hand tend to depend on the cumulative process of the development of their craft and the fund of accumulated knowledge Yet while this is acknowledged in the practice of research Historiography in itself as a subject of study has rarely found its place in the syllabi of Indian universities Knowledge of Historiography is taken for granted when a scholar plunges into research In an attempt to address this lacuna the Indian Council of Historical Research ICHR has planned a series of volumes on Historiography comprising articles by subject specialists commissioned by the ICHR The first volume in the series [Approaches to History Essays in Indian Historiography](#) brings to the readers the first fruits of that endeavour While the essays encompass areas of research presently at the frontiers of new research scholars will also find the bibliographies accompanying the essays of significant appeal [Miller's Anesthesia, 2-Volume Set E-Book](#) Michael A. Text/Events in Early Modern England Sandra Logan,2018-01-18 Engaging with a range of events historical moments theatrical performances public presentations and courtly intrigues and the texts that record them this book explores representational practice as a component of Elizabethan political culture Considering the inscriptive production of mediated indirect experience as an authorial challenge to the value of the immediate direct experience of events and conversely recognizing the multi valent impact of theatrical performance and performativity as a reinvigoration of the immediate this study traces the emergence of realness as a textual effect and a mode of political intervention This interactive refractive nexus of experience and inscription comprises what Sandra Logan calls the text event The four primary foci of this investigation the 1558 coronation entry the 1575 entertainments at Kenilworth the 1590s dramatizations of the reign of Richard II and the Essex trial of 1601 serve as exempla of four moments in the reign of Elizabeth I which suggest an increasingly complex interaction between events and texts developing in the last half of the sixteenth century Logan argues that in representing England's recent and distant past a wide range of social subjects engaged in a struggle for intellectual credibility and social viability and in the process generated a contingent public sphere within which history framed as a coherent narrative shaped by causal relationships was brought to bear on the concerns of the Elizabethan present and future Assessing how these chronicles short prose histories and historical dramas each made use of the materials and techniques of the others blurring the distinctions between historiography and poetry as well as between past and present Logan considers the conjunctions between the development of new genres and perceptions about inscription and experience and changing socioeconomic institutions and practices
