

The eighteenth Century thought itself to be  
the age of reason; the nineteenth century  
thought itself to be the age of common sense  
while the twentieth century can only think of  
itself as the age of uncommon nonsense.

**Handel's Oratorios and Eighteenth-Century Thought** Ruth Smith, 1995-05-04 In this wide ranging and challenging book Ruth Smith claims that the words to Handel's oratorios reflect the events and ideas of their time and have far greater meaning than has hitherto been realised She explores eighteenth century literature music aesthetics politics and religion to reveal Handel's texts as conduits for the thought and sensibility of their time The book thus enriches our understanding of Handel his times and the close relationship between music and its intellectual contexts History of English Thought in the Eighteenth Century Leslie Stephen, 1876 **History of English Thought in the Eighteenth Century: The philosophical basis ; The starting-point of deism ; Constructive deism ; Critical deism ; Butler's analogy ; David Hume ; William Warburton ; The later theology** Leslie Stephen, 1902 **History of English Thought in the Eighteenth Century: Moral philosophy ; Political theories ; Political economy ; Characteristics** Leslie Stephen, 1902 **The Age of Minerva: Cognitive discontinuities in eighteenth-century thought** Paul Ilie, 1995 **Utopian Imagination and Eighteenth Century Fiction** Christine Rees, 2014-09-19 Utopian fiction was a particularly rich and important genre during the eighteenth century It was during this period that a relatively new phenomenon appeared the merging of utopian writing per se with other fictional genres such as the increasingly dominant novel However while early modern and nineteenth and twentieth century utopias have been the focus of much attention the eighteenth century has largely been neglected Utopian Imagination and Eighteenth Century Fiction combines these major areas of interest interpreting some of the most fascinating and innovative fictions of the period and locating them in a continuing tradition of utopian writing which stretches back through the Renaissance to the Ancient World Beginning with a survey of the recurrent topics in utopian writing power structures in the state money food sex the role of women birth education and death the book brings together canonical eighteenth century texts containing powerful utopian elements such as Robinson Crusoe Gulliver's Travels and Rasselas and less familiar works to examine the reworking of these topics in a new context The unfamiliar texts including Gaudenzio di Lucca are described in detail to give students an idea of relevant material across a broad area A section is devoted specifically to women writes an area which has become the focus of attention The mixture of texts provides a useful cross reference for students tackling the subject from various perspectives and the comprehensive bibliography provides a valuable tool for those with general or specific interests **The Age of Minerva, Volume 1** Paul Ilie, 2016-11-11 This book is a volume in the Penn Press Anniversary Collection To mark its 125th anniversary in 2015 the University of Pennsylvania Press rereleased more than 1 100 titles from Penn Press's distinguished backlist from 1899 1999 that had fallen out of print Spanning an entire century the Anniversary Collection offers peer reviewed scholarship in a wide range of subject areas The Cambridge History of Eighteenth-century Philosophy Knud Haakonssen, 2006 This two volume set presents a comprehensive and up to date history of eighteenth century philosophy The subject is treated systematically by topic not by

individual thinker school or movement thus enabling a much more historically nuanced picture of the period to be painted

**Russian Modernity** D. Hoffmann, Y. Kotsonis, 2000-07-05 Russian Modernity places Imperial and Soviet Russia in a European context Russia shared in a larger European modernity marked by increased overlap and sometimes merger of realms that had previously been treated as discrete entities the social and the political state and society government and economy and private and public These were attributes of Soviet dictatorship but their origins can be located in a larger European context and in the emergence of modern forms of government in Imperial Russia **Analytical and Classified**

**Solidarity in the Novels of Joseph Conrad** Ursula Lord, 1998-04-17 Ursula Lord explores the manifestations in narrative structure of epistemological relativism textual reflexivity and political inquiry specifically Conrad's critique of colonialism and imperialism and his concern for the relationship between self and society The tension between solitude and solidarity manifests itself as a soul divided against itself an individual torn between engagement and detachment idealism and cynicism a dramatized narrator who himself embodies the contradictions between radical individualism and social cohesion a society that professes the ideal of shared responsibility while isolating the individual guilty of betraying the illusion of cultural or professional solidarity Conrad's complexity and ambiguity his conflicting allegiances to the ideal of solidarity versus the terrible insight of unrelenting solitude his grappling with the dilemma of private versus shared meaning are intrinsic to his political and philosophical thought The metanarrative focus of Conrad's texts intensifies rather than diminishes their philosophical and political concerns Formal experimentation and epistemological exploration inevitably entail ethical and social implications Lord relates these issues with intellectual rigour to the dialectic of individual liberty and collective responsibility that lies at the core of the modern moral and political debate [The New Larned History for Ready Reference.](#)
