## Efectos De Agenda:

*Efectos de agenda* Eliseo Verón,1999

### **Los efectos de los medios de comunicación de masas**

Hernández-Santaolalla, Víctor,2019-04-01 La influencia de los mass media es uno de los temas que mayor interés y preocupación ha provocado a lo largo de la historia de la comunicación y cobra hoy en día por el contexto mediático y de recepción actuales una nueva relevancia. Que los medios de comunicación provocan efectos sobre el público es una cuestión ampliamente aceptada pero el consenso es menor cuando se habla de cuáles son y cómo se producen dichas consecuencias. En esta línea el volumen repasa las teorías planteadas por diferentes autores y escuelas con el objetivo de analizar la evolución y situación actual del campo de estudio.

### **Elementos de semiótica agentiva** Douglas Niño Ochoa,2015-08-01

Se puede decir que la pregunta central de cualquier propuesta semiótica del estructuralismo europeo a la semiótica peirceana del culturalismo lotmaniano al cognitivismo de la Escuela de ríos es en qué consiste la significación y cada una de ellas con variaciones de muy diverso grado ofrece una respuesta a dicha pregunta. En este libro queremos proponer un enfoque alternativo que hemos denominado agentivo: aquella significación se establece o más precisamente emerge en la relación entre agente y agenda; es decir, la relación entre un ente que hace y el tipo de resultado al que apunta dicho agente mediante su acción. A partir de esta tesis general la propuesta agentiva lleva a una serie de tesis diferenciales: primero, la significación propiamente dicha es una actividad que realiza un agente y, en consecuencia, segundo, la significación no es algo que pueda encontrarse en eso que se ha llamado enunciados lingüísticos visuales, etc., u objetos de diseño o no los signos y los objetos no significan nada porque significar es una actividad y, por tanto, tercero, si se pudiese hablar de la significación de los enunciados o de los objetos, esto sería legítimo sólo en un sentido derivado o ampliado; y, asimismo, cuarto, la reflexión sobre los signos es un punto de llegada y no de partida para la reflexión semiótica. Por el contrario, el punto de partida está vinculado a las preguntas sobre quiénes son los agentes y las agendas como se constituyen y en qué condiciones el despliegue de la capacidad para actuar agencia permite la circulación de sentido.

### **MediaMorfosis** José Luis Exeni R.,2005

*Comunicación electoral y formación de la opinión pública* Guillermo López García,2004 Este libro analiza el proceso de formación de la opinión pública en una campaña electoral a la luz de las diversas estrategias discursivas de los principales diarios de referencia españoles en las Elecciones Generales del año 2000. Tras realizar una amplia revisión de las principales teorías de la opinión pública y de los efectos de los medios de comunicación de masas sobre el público, el análisis intenta determinar en qué medida los medios de comunicación son independientes del poder político en su narración de los principales acontecimientos de la campaña electoral para, a partir de ahí, preguntarnos de qué manera puede influir su ideología en el voto ciudadano.

### **Comunicación de crisis, redes sociales y reputación corporativa.**

Costa, Carlos Victor,2019-10-09 La comunicación corporativa como función gerencial en las organizaciones tiene como uno de sus objetivos principales facilitar las relaciones y los intercambios simbólicos con los grupos de interés de una empresa y, por ende, establecer y mantener reputaciones favorables. Cada vez más está

función es estratégica dentro de las organizaciones en la medida que contribuye a convertir una organización en un actor cuya reputación legitima a la organización misma entre sus grupos de interés. Sin embargo, el uso de Internet por los movimientos sociales y por los individuos con agendas antagonistas en las redes sociales puede ofrecer resistencia a los discursos corporativos y a la organización como un todo con la posibilidad de aparecer de riesgos y crisis de reputación. Observamos en los recientes la aparición del concepto de paracrisis las crisis con origen o amplificadas por las redes sociales en el marco de la evolución de una sociedad vigilante pero en este caso participativa y empoderada por las redes sociales que desconfía de la retórica corporativa y pone en entredicho la coherencia entre el comportamiento organizacional y su discurso. A través de sus acciones en Internet esta nueva forma de actuar de la sociedad en red puede aumentar la vulnerabilidad de las empresas como actores sociales en la medida que contribuye a poner de relieve las contradicciones de sus discursos corporativos y crear representaciones deslegitimadoras a través de encuadres contrarios al de los intereses organizacionales. Esta investigación aborda un caso de estudio paradigmático ocurrido con una gran institución financiera española, Bankia, y una gran campaña de publicidad emitida en plena crisis financiera mundial. A través del análisis de contenido de los comentarios de los usuarios de Twitter, la investigación obtiene evidencias empíricas bastante claras que verifican cómo el discurso corporativo puede ser deconstruido en el ámbito de los medios sociales cuando la empresa no toma en consideración el capital cognitivo compartido de los receptores de sus mensajes y el contexto social en que ella actúa. Por el análisis de caso y del contexto de los cambios históricos de los últimos 10 años, llegamos a la conclusión general de que el punto de partida de la creación de la agenda pública dejó de ser una atribución exclusiva de los medios de comunicación de masas de modo que los efectos pueden ser fecundadores en dos sentidos con origen en los medios de comunicación de masas hacia los medios sociales de Internet y viceversa y por otra parte que está claro que el paradigma de la comunicación de las marcas sigue basado en la fuerza unidireccional de los medios de comunicación de masas y en el control centralizado del mensaje ha dejado de ser el paradigma único.

**Internet, sociedad y poder. Democracia digital: comunicación política en la era de la hipermediación** Gerardo L. Dorantes y Aguilar, 2023-04-12 En la obra Internet Sociedad y Poder. Democracia digital, comunicación política en la era de la hipermediación se elabora un recuento de los procesos comunicativos desde y hacia el poder sustentados en las tecnologías en línea partiendo del supuesto de que las Tecnologías de la Información y Comunicación (TIC) han modificado las maneras de indagar, enseñar, comunicar y hacer política. Se analizan el alcance y el efecto real de los medios digitales de comunicación en las opiniones, actitudes y conductas de sus auditórios así como las formas en que Internet, sociedad y política articulan sus procesos comunicativos y sus consecuencias sociales.

**Los efectos de los medios de comunicación** Jennings Bryant, Dolf Zillmann (comp), 1996 A pesar de su creciente importancia, nadie que se enfrente seriamente al estudio de los efectos de los medios de comunicación puede decir que el terreno adolece de una excesiva placidez o de inactividad. Nuevos y todos de investigación nuevas teorías e incluso nuevos terrenos casi inexplorados son los

elementos que est n fomentando una verdadera revoluci n desde dentro aunque no todos estos cambios se generen internamente Con frecuencia son los cr ticos desde fuera quienes modifican la investigaci n de modo que sus provocadoras observaciones hacen que se replanteen algunas aseveraciones que se reexaminen hallazgos y se reformulen teor as A partir de esta situaci n los investigadores reunidos en este volumen conforman una de las mejores representaciones imaginables dentro de la tradici n acad mica que aborda los efectos de los medios de comunicaci n Tomando como base Perspectives on Media Effects todo un cl sico debido a los mismos compiladores se conservan algunos cap tulos se mantienen temas y se aaden nuevas perspectivas con el fin de demostrar que la investigaci n sobre los impactos sociales y psicol gicos de la comunicaci n mediatizada ha variado notablemente en estos ltimos a os Y por encima de todo se deja bien claro que se trata de un campo en continua evoluci n a la vez una disciplina acad mica siempre renovadora y una materia de gran fecundidad intelectual

*Setting the Agenda* Maxwell McCombs,2004-11-12 Setting the Agenda describes the

mass media s significant and sometimes controversial role in determining which topics are at the centre of public attention and action Although Walter Lippman captured the essence of the media s powerful influence early in the last century with his phrase the world outside and the pictures in our heads a detailed empirical elaboration of this agenda setting role of the mass media did not begin until the final quarter of the 20th century In this comprehensive book Maxwell McCombs one of the founding fathers of agenda setting tradition of research synthesizes the hundreds of scientific studies carried out on this central role of the mass media in the shaping of public opinion Across the world the mass media strongly influences what the pictures of public affairs in our heads are about The mass media also influences the very details of those pictures In addition to describing this media influence on what we think about and how we think about it Setting the Agenda also discusses the sources of these media agendas the psychological explanation for their impact on the public agenda and the subsequent

consequences for attitudes opinions and behaviour This important and perspicacious new book will prove invaluable to students of media communications and politics as well as those interested in the role of mass media in shaping and directing public opinion   **El Género en la agenda pública dominicana** Denise Paiewonsky,2002   **Journalism** Tim P.
