

The background of the book cover is a photograph of a snowy mountain slope under a clear blue sky. Four skiers are visible at the bottom of the frame, leaving behind a series of parallel, wavy tracks in the snow. The overall scene is bright and clean, with the white snow contrasting sharply with the blue sky and the dark tracks.

Governance and Sustainability David Crowther, Shahla Seifi, 2020-08-19 This book explores the concepts of sustainability and governance in relation to the governance of corporations hence the ubiquity of the term corporate governance and other bodies It examines how these concepts are regularly used by politicians and by the media The two concepts are however largely treated as being separate and discrete and given equal coverage The argument in this book is that the two concepts are inter related and that good governance is a prerequisite for sustainability The focus of the book therefore is different from most as it seeks to integrate these two important issues The approach used in this book is based on the tradition of the Social Responsibility Research Network a worldwide body of scholars that over its 20 year history has sought to broaden the discourse and to treat all research as inter related and business relevant The book examines diverse aspects of the changes to corporate and institutional behaviour that have recently manifested by focusing on these two aspects of sustainable development Thus the authors explore engagement and partnership between organisations in order to consider the extent to which the focus has changed so much that we need to think about new approaches to our understanding of sustainability and differing effects in practice The international mix of authors makes this an original contribution sharing some of the best ideas from around the world **Management Communication** Thomas Klikauer, 2008-06-25 As managerial work regimes move continuously towards post industrialism forms of communication change with it and work relationships are increasingly becoming communicative relationships This book seeks to end communicative distortions by establishing a new model of communication that will set up practical and workable communication forums

International Scientific Conference
Energy Management of Municipal Transportation Facilities and Transport EMMFT 2017 Vera Murgul, Zdenka

Popovic,2017-12-19 This book includes the proceedings of the 19th International Scientific Conference Energy Management of Municipal Transportation Facilities and Transport EMMFT 2017 which was held in Khabarovsk Russia on 10-13 April 2017. The book presents the research findings of scientists working at universities in the Far Eastern Siberian and Ural Federal Districts of Russia and of Serbia which are unique regions notable for sustainably operating complex transport infrastructures in severe climatic and geographic environments. It also offers practical insights into transportation operation under such conditions. The book discusses the experiences of colleagues from Slovenia, Ukraine and Latvia in the development of transport infrastructure and construction of transport facilities and features and includes the results of a wide range of studies such as managing multimodal transportation, improving the efficiency of locomotives, electric locomotives, traction substations, electrical substations, relay protection and automation devices and power factor correction units. It addresses topics like renewable energy sources, problems of the mathematical and simulation modelling of electromagnetic processes of electrical power objects and systems, aspects of cost reduction for fuel and power resources, theoretical aspects of energy management, development of transport infrastructure, modern organizational and technological solutions in construction, new approaches in the field of management analysis and monitoring in transport sector. Comprising 142 high quality articles covering a wide range of topics, these proceedings are of interest to anyone engaged in transport engineering, electric power systems, energy management, construction and operation of transport infrastructure, buildings and facilities.

Handbook of Qualitative Research Methods in Entrepreneurship Helle Neergaard, John P. Ulhøi, 2007. The Handbook of Qualitative Research Methods in Entrepreneurship is an important contribution to the field and should be referenced in any paper using qualitative methodologies to investigate the entrepreneurial phenomenon. Craig S. Galbraith, Journal of Enterprising Communities. There is no hiding behind the ramparts of dry scholarship here. The credibility of the theory being spoken of is not the stuff of constructed proofs but alignments of critical insight and utility. This is where qualitative work can make a difference to the field and where this book makes its mark. Robin Holt, International Journal of Entrepreneurial Behaviour and Research. The Handbook of Qualitative Research Methods in Entrepreneurship is an unusually solid and multifaceted book on what qualitative methods have done, are doing and will do in entrepreneurship research. Every serious entrepreneurship scholar should read it. It points at the future. Björn Bjerke, University of Kalmar, Sweden. I would warmly recommend this unique collection of qualitative methods of entrepreneurship research to both mature and beginning researchers as a menu to choose from for their planned empirical studies. For those who try to get away from only quantitative studies in both business practice and academic research, this book is their chance to find a rich inspiration in reflecting on entrepreneurship as a lived experience using grounded theory and ethnographic discourse and narrative approaches. It might convince editors of top journals of entrepreneurship research to welcome qualitative research submissions as an indispensable complement to quantitative only submissions. This domain is not physics. In bringing together

such a variety of experts from so many nationalities in this Handbook our Danish colleagues are making entrepreneurship research a realistic global venture Jan Ulijn Eindhoven University of Technology The Netherlands Helle Neergaard and John Parm Ulh i have compiled a remarkable collection of work that both represents the range of methods and demonstrates the depth of insight that can be achieved through qualitative approaches This book is not simply a handbook of qualitative research methods though it well achieves this aim it is also an important contribution towards the field of entrepreneurship research From the Foreword by Sara Carter This expansive and practical Handbook introduces the methods currently used to increase the understanding of the usefulness and versatility of a systematic approach to qualitative research in entrepreneurship It fills a crucial gap in the literature on entrepreneurship theory and just as importantly illustrates how these principles and techniques can be appropriately and fruitfully employed The Handbook is underpinned by the belief that qualitative research has the potential to charter hitherto unexplored waters in the field of entrepreneurship and thus contribute significantly to its further advancement The contributors seek to assist entrepreneurship researchers in making more informed choices and designing more rigorous and sophisticated studies They achieve this by providing concrete examples of research experiences and tangible how to advice By clarifying what these research methods entail how they are currently being used and how they can be evaluated this Handbook constitutes a comprehensive and highly accessible methodological toolbox Dealing with both well accepted qualitative approaches and lesser known rarer and more novel approaches to the study of entrepreneurship this Handbook will be invaluable to those studying researching and teaching entrepreneurship

Collaborative Wisdom Greg Park, 2016-05-23 Why do some corporate superstars collapse dramatically while others survive and prosper over many decades Is the fall primarily caused by technical factors such as poor products and pricing financial management or market choices by self aggrandisement or perhaps by poor leadership attributes and capabilities Greg Park argues that ultimately organisational survival and optimal performance over the long term is dependent upon collaborative wisdom Within the dominant coalition of a successful community or corporation there is an inherited pervasive commonly and collectively held dominant logic comprising leadership principles perspectives and priorities based upon universal values which are understood and accepted as satisfying the requirements and aspirations of each stakeholder This collaborative wisdom ensures cohesive and consistent behaviour across and within every function of a complex fast moving organization Its practical application is reflected in the daily operational decisions of leaders within the organisation be they divisional departmental heads or supervisors Without collaborative wisdom organisational collapse is the inevitable result primarily through the disintegration of belief confidence motivation cohesion advocacy and energy within and between key stakeholder groups Collaborative Wisdom examines the nature and criticality of wisdom as a

leadership attribute how effective operational leadership is not just about knowledge and experience but more fundamentally about a cognitive mental process which considers and consistently applies fundamental values principles perspectives and priorities in an analytical and affective manner This ensures effective operational leadership and optimal organisational performance over the long term informed by experience instinct intuition but also by insight judgment and ultimately wisdom
