Multilateral Banks and the Development Process Vinod Thomas,2017-07-05 A chain is only as strong as its weakest link When the links in the chain represent development projects if individual projects fail to achieve their purpose the development program s effectiveness is compromised When the chain s links are strong and well connected the results are improved for the sector country and region The role of multilateral banks is crucial they inform the impact of development operations and support policymakers in decision making This volume emphasizes that some crucial links in development tend to be systematically overlooked In these matters preoccupation with the immediate exigencies seems to come at the expense of attention to enduring problems at a great cost to society Development practitioners should apply policies that have produced results over time ensuring that the links in the chain are strong but too often they overlook those links because of myopia complexity tradition or special interests This book will help policy makers and practitioners focus on the links that measure progress apply lessons and matter for lasting results Diverging Paths of Development in Central Asia Gül Berna Özcan,2018-11-09 Newly gained sovereignty uneven penetration of neo liberal ideals and the growth of disparate capitalist markets have elicited varied responses in Central Asia What does development mean for the political class and for ordinary citizens What are the effects of new capitalist institutions and markets What impact did western development blueprints and external donor engagement leave in the region This book illuminates the diverse realities of post Soviet development in Central Asia through a multidisciplinary prism The contributing articles are grounded in a range of social science disciplines including architecture anthropology and geography The analyses demonstrate how a synthesis of specialist knowledge from area studies and individual disciplinary methodologies can provide well grounded critical positions on development The book highlights the complexities of everyday routines of dispossession and coping strategies in the face of natural and manmade disasters These experiences create deep moral anxieties under the debilitating effects of monetisation and marketisation of ordinary livelihoods social ties and environmental resources This book was originally published as a special issue of Central Asian Survey **From Schooling Access to Learning Outcomes, an Unfinished Agenda** ,2006 This document is an evaluation of World Bank support to primary education It has two objectives The first is to assess World Bank assistance to countries in their efforts to improve their basic knowledge and skills base through the provision of quality primary education

World Bank Engagement at the State Level World Bank,2010-04-21 This report is a pilot cross country study that summarizes 10 years 1998 2008 of the World Bank's engagement at the state level in selected large federal countries and combines elements of a country assistance evaluation and a thematic review It looks at several strategic and operational questions posed by state level engagement among them the selection of states the scope and the modalities of engagement According to the report two tendencies often in tension featured in most approaches for selection of states for direct engagement One was to support better performing reformist states while the other was to support the poorest states as a more direct route to reducing poverty Overall the study confirms the desirability of continued selective lending in a few focus states Among other findings the Bank's engagement with progressive reformist states has added value and has been highly appreciated but in order to enhance the poverty impact of state level interventions greater weight should be given to the needs of poorest states by balancing states propensity to reform and the concentration of poverty within them continued focus on public finance management appears sound irrespective of whether engagement is confined to this area or serves as an entry point for broader engagement there is considerable scope for greater impact from knowledge transfer between states and countries and expanded knowledge services to the state level clients
