Breathing Fire Jaime Lowe,2021-07-27 A dramatic revelatory account of the female inmate firefighters who battle California wildfires Shawna was overcome by the claustrophobia the heat the smoke the fire all just down the canyon and up the ravine She was feeling the adrenaline but also the terror of doing something for the first time She knew how to run with a backpack they had trained her physically But that s not training for flames That s not live fire California s fire season gets hotter longer and more extreme every year fire season is now year round Of the thousands of firefighters who battle California s blazes every year roughly 30 percent of the on the ground wildland crews are inmates earning a dollar an hour Approximately 200 of those firefighters are women serving on all female crews In Breathing Fire Jaime Lowe expands on her revelatory work for The New York Times Magazine She has spent years getting to know dozens of women who have participated in the fire camp program and spoken to captains family and friends correctional officers and camp commanders The result is a rare illuminating look at how the fire camps actually operate a story that encompasses California s underlying catastrophes of climate change economic disparity and historical injustice but also draws on deeply personal histories relationships desires frustrations and the emotional and physical intensity of firefighting Lowe s reporting is a groundbreaking investigation of the prison system and an intimate portrayal of the women of California s Correctional Camps who put their lives on the line while imprisoned to save a state in peril

Basic Defense and Safety Fundamentals for Pool and Pocket Billiards Allan P. Sand,2015-10-01 There are two classes of pool players in the world The serious shooter is dedicated to finding ways to gain better control how the cue ball rolls around the table Most players enjoy pool because well it s fun This book is written for you guys This is an introduction to the idea that defensive shooting is just as important as offensive shooting Here is something to remember there are no rules that require you to play stupid shots When you have a table layout with a shot that is too tough you really do not have to figure out some crazy way that the object ball MIGHT maybe get to a designated pocket How about this as a simple solution DON T try to make the shot Instead shoot something that prevents your opponent from winning the game If you do this your opponent has a difficult situation You can let him invent silly reasons to miss You come back to the table with a good chance to win or get closer to a win Let him play all

offense all the time You play a few safeties and let him give you the opportunity to win When this book falls into your hands there is stuff you can use immediately Besides the tips there are techniques exercises and a few tricks that help you win more games Yes you can even use these to beat better shooters Consider this book to be the digest version of the Safety Toolbox A couple of hours of study combined with some practice table time and you are suddenly a tougher shooter Let your opponents use the bar banger style of calling fantastic hero shots such as 5 ball four rails off the 7 and into the side pocket This book will add some competitive maturity to your playing style I don t need to wish you good luck This book and some of your time is all you need to begin winning more games And here s a useful benefit from the book you don t have to outshoot your opponent Simply prevent him from winning
