**Pictures and Popery** Clare Haynes, 2017-05-15 The part religion played in questions of national identity in early modern England is a familiar historical theme yet little work has been done on how this worked culturally Nowhere is this more visible than in the seeming contradiction of a militantly Protestant nation such as England that had a high regard for Catholic art It is this dichotomy the tensions between art and anti Catholicism that forms the central investigation of this book During the late seventeenth and eighteenth century religious art was closely identified with idolatry and the use of images was one of the most obvious markers of the boundary between Protestantism and Catholicism This manifested itself in an unease about the status of the religious image in English society which was articulated in religious tracts anti Catholic propaganda polemical debate court cases and numerous other places In light of

these attacks upon idolatry the fact that a great deal of Catholic art was so highly regarded and sought after seems puzzling By discussing English attitudes towards the works of Italian painters including Raphael Michelangelo and Domenichino and the ways in which native artists sought appropriately Protestant ways of emulating them this volume offers a fascinating perspective on the dichotomy that existed between English appreciation and disapproval of Catholic culture By taking this cultural and artistic approach and applying it to the broader historical themes a new and invigorating way of understanding religion and national identity is offered

**The Real Jim Hawkins** Roland Pietsch, 2011-03-23 Generations of readers have enjoyed the adventures of Jim Hawkins the young protagonist and narrator in Robert Louis Stevensons Treasure Island but little is known of the real Jim Hawkins and the thousands of poor boys who went to sea in the eighteenth century to man the ships of the Royal Navy This groundbreaking new work is a study of the origins life and culture of the boys of the Georgian navy not of the upper class children training to become officers but of the orphaned delinquent or just plain adventurous youths whose prospects on land were bleak and miserable Many had no adult at all taking care of them others were failed apprentices many were troublesome youths for whom communities could not provide so that the Navy represented a form of floating workhouse Some with restless and roving minds like Defoes Robinson Crusoe saw deep sea life as one of adventure interspersed with raucous periods ashore drinking singing and womanizing The author explains how they were recruited describes the distinctive subculture of the young sailor the dress hair tattoos and language and their life and training as servants of captains and officers More than 5 000 boys were recruited during the Seven Years War alone and without them the Royal Navy could not have fought its wars This is a fascinating tribute to a forgotten band of sailors
