Eighteenth Day:

The Origins of Value William N. Goetzmann, K. Geert Rouwenhorst, 2005 The analysis of original documents is a means for economists to focus on the primary text to analyze and interpret the object and to move to interpretation and understanding of its relationship to modern financial instruments and markets The result is a collection of interdisciplinary studies of the key innovations in finance from the Old Babylonian loan tablets to the 1953 London Debt Agreement that span regions in Asia Africa North America and Europe

L. Schwartz, 2013-11-21 Volume V deals with the problems of turnover in the nervous system Turnover is defined in different ways and the term is used in different contexts It is used rather broadly in the present volume and intentionally so The turnover of macromolecules is only one aspect here turnover indicates the simultaneous and coordinated formation and breakdown of macromolecular species The complexities of cerebral protein turnover are shown in a separate chapter dealing with the synthesis of proteins in another on breakdown and in still another on the relationship of these two showing how the two halves of turnover are controlled The fact that most likely the two halves of protein turnover synthesis and breakdown are separated spatially and the mechanisms involved are different further emphasizes the complexity of macromolecular turnover Turnover is used in a different context when the turnover of a cycle is discussed but here again a number of complex metabolic reactions have to be interrelated and controlled some such cycles are discussed briefly in this volume additional cycles have been discussed with metabolism and some cycles still await elucidation or discovery
