Geopolitical Relations And Regional Cooperation A Study Of South Asia:

Geopolitical Relations and Regional Cooperation Krishan Gopal,1996 **South Asia and China** Adluri

Subramanyam Raju,2021-10-05 This book brings together new perspectives on China's engagement with South Asian countries. It examines emerging trends in the ties between China and South Asia in the geo-political, geo-strategic and geo-economics context and looks at opportunities for collaboration and connectivity between them. Drawing on extensive case studies, this volume discusses issues such as China's overarching Belt Road Initiative (BRI), regional responses and alternatives to BRI, the new politico-economic drivers in the region, India's China puzzle, the Wuhan informal summit, Nepal and its security dilemma in the region, and China's role in peace and stability in Afghanistan. It presents analysis, debates and the way forward for a comprehensive South Asian regional understanding in the wake of the advancing Chinese presence in South Asia. An important contribution in the study of the developing pan-China South Asia vision, this book will be of interest to scholars and researchers of international relations, Chinese studies, Asian studies, defence and strategic studies, regional cooperation, foreign policy, geopolitics, comparative politics and political studies.

Strengthening Regional Trade Integration in South Asia Owais Hasan Khan,2021-03-05 This book brings forth the philosophical, conceptual and practical contours of the trade regionalism provisions under the GATT/WTO. It analyses SAARC as the regional integration organisation of South Asia along with identifying major challenges and bottlenecks faced by it in the process of achieving regional integration. It presents ways and methods through which SAARC can be made a more effective regional organisation. The book predominantly focuses on trade regionalism. However, other areas of integration which have impacts on the trade regionalism are also examined, like social and political integrations etc. The book takes off from the premise that trade regionalism under SAARC has failed and has been marred by political and security concerns among its member nations. It has failed to achieve its objective on all the three counts which are promoting peace, development and economic cooperation. However, with the developing countries as members, SAARC has great potential for trade integration. Certain structural, normative and organisational alteration along with favourable ideation can still make SAARC achieve its full potential. The book also deals with the comparative analysis of SAARC regional integration with the regional integration under European Union and ASEAN. Regarding comparative regionalism, the discussion has been confined only to the EU and ASEAN. The EU has been chosen because it is comparatively established as one of the most successful regional organisations in the contemporary world. Whereas ASEAN has been chosen because of its similarity to the SAARC's economy, society and political structure. The analysis presented in the book is from the perspectives of international law and international relations theories and practice. This book thus is of particular relevance to the students, researchers, academicians, policymakers and practitioners of international trade law, international relations and South Asian studies.

The Futures of Borders and Geopolitics in South Asia Amena Mohsin, ASM Ali Ashraf, Niloy Ranjan Biswas, Mohammad Atique Rahman,2024-11-18 This book offers a theory-driven and evidence-based

Rumley, 2001-06-30 The origins of this book go back 30 years to the stimulation and interest generated by the political geography seminars led by John House at the University of Newcastle Upon Tyne I was very fortunate to graduate among its extremely capable sporty and enthusiastic class of 68 from where several academic geographers emerged Equally fortunately some of them and their predecessors had already blazed a trail to undertake graduate studies in Canada At the University of British Columbia I was supervised at different times by Julian Minghi and Victor Prescott both of whom are not only extremely capable academics but are also very fine people owe an enormous debt to John Julian and Victor and to the British and Canadian taxpayers who provided financial support for my University studies In 1974 I began an academic career at the University of Western Australia where I have been ever since save for a two year period from 1991-3 as Professor of Australian Studies in the Department of International Relations at the University of Tokyo Viewing Australia and the Asia Pacific region from this different perspective within an extremely supportive Japanese environment had a profound impact I am especially grateful for the support provided by so many Japanese academic colleagues and friends beginning as early as 1976 Three individuals deserve special mention for their help guidance and enduring friendship George Ohshima Hiroshi Tanabe and Akihiro Kinda **The Geopolitics of Energy**

Framing Asian Studies Albert Tzeng, William L Richter, Ekaterina Koldunova, 2018-01-12 This book explores the interconnection between geopolitical context and the ways this context frames our knowledge about Asia highlighting previously neglected cause effect relations It also examines how various knowledge institutions promote and shape Asian Studies The authors seek to explain why Asian Studies and its subfields developed in the way they did and what the implications of these transformations might be on intellectual and political understandings of Asia The book not only builds on the current debates on the decolonization and de imperialization of knowledge about Asia it also proposes a more multifaceted view rather than just examining the impact of the West on the framing of Asian Studies
