completely insignificant within the universe The author's panoramic exploration of how nihilism developed not only in philosophy but also in religion poetry and literature shows what an urgent topic it was for thinkers of all kinds and how it has continued powerfully to shape intellectual debates ever since **Georg Büchner's Dantons Tod** Dorothy James,1982

Georg Büchner A. H. J. Knight,2020-01-30 Originally published in 1951 this full length study gives an account of Büchner's life and personality together with an account of his three plays his unfinished short story his scientific publications and his translations of Hugo **Romanticism and the Sciences** Dr. Andrew Cunningham,Nicholas Jardine,1990-06-28 This book presents a series of essays which focus on the role of Romantic philosophy and ideology in the sciences **Georg Büchner's Woyzeck** David G. Richards,2001 This is the first extensive survey and analysis of the criticism of Woyzeck from the nineteenth century to the present **BOOK JACKET** *Complete Plays, Lenz and Other Writings* Georg Buchner,2006-06-29 Collected in this volume are powerful dramas and psychological fiction by the nineteenth century iconoclast now recognized as a major figure of world literature Also included are selections from Büchner's letters and philosophical writings Encyclopedia of the Romantic Era 1760-1850 Christopher John Murray,2013-05-13 In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century The Encyclopedia provides readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism *Western Art and Jewish Presence in the Work of Paul Celan* Esther Cameron,2014-10-15 *Western Art and Jewish Presence in the Work of Paul Celan* Roots and Ramifications of the Meridian Speech addresses a central problem in the work of a poet who holds a unique position in the intellectual history of the twentieth century On the one hand he was perhaps the last great figure of the Western poetic tradition one who took up the dialogue with its classics and who responded to the questions of his day from a global concern if often cryptically And on the other hand Paul Celan was a witness to and interim survivor of the Holocaust These two identities raise questions that were evidently present for Celan in the very act of poetry This study takes the form of a commentary on Celan's most important statement of his poetics and beliefs The Meridian which is an extraordinarily condensed text packed with allusions and multiple meanings It reflects his early work and anticipates later developments so that the discussion of The Meridian becomes a consideration of his oeuvre as a whole The commentary is an act of listening an attempt to hear what these words meant to the poet to see the landscapes from which they come and the reality they are trying to project and in the light of this to arrive at a clear picture of the relation between Celan's Jewishness and his vocation as a Western writer **The Drama of Revolt** Maurice B. Benn,1976 A comprehensive study of the art and thought of George Büchner **The Text and Its Context** Nigel Harris,Joanne Sayner,2008 This Festschrift for Ronald Speirs Professor of German at the University of

Birmingham contains twenty four original essays by scholars from Great Britain Germany Austria and Norway Between them they encompass the entire modern period from the later eighteenth century onwards and focus on a wide range of German speaking environments Several essays throw new light on authors to whom Professor Speirs himself has devoted particular attention such as Brecht Thomas Mann Nietzsche and Fontane whilst others discuss writers such as Lenz Büchner Bühlau C F Meyer Keyserling Jahn and Huch Above all however the contributions address the complexities of writing in ideologically diverse contexts including the Third Reich and the former German Democratic Republic This interplay between text and context is the cornerstone which links all the essays as it has consistently informed Ronald Speirs's own work which combines a scrupulous attention to textual detail with an acute awareness of the socio political milieu and philosophical influences that shape creative literature
