## **Georg Heym A Reluctant Rebel:**

**Georg Heym** Egbert Krispyn,1968      **Transplantings** Peter Viereck,2017-09-08 On being told that translation is an impossible thing Anatole France replied precisely my friend the recognition of that truth is a necessary preliminary to success in art The task of Transplantings is to add flesh and bones to that familiar quip Indeed Daniel Weissbort notes that Viereck s study represented a sixty five year long project Now it is finally being brought to print in its full form with the completion of the final manuscript shortly before Viereck s death If translation is a special genre in its own right the translation of poetry especially from major foreign languages is a special subset of that genre What emerges in the imperfect act of translation is an aesthetic dimension that Viereck considers unique in its own right Transplantings provides new insight into Viereck as a poet of substance but more than that as a public intellectual He is critical in probing the work of the major figures such as Stefan George and Georg Heym To round out this monumental new look at German poetical history Viereck reviews Goethe Novalis and Rilke among others For Viereck the difference between the poetical and the political is critical The quality of poetry is not measured by politics nor can the worth of political action be defined by commitment to the poetical The experience of German thought as well as French and Italian efforts reveals a divide that can be narrowed but hardly bridged by rhetoric Transplantings does not simplify the task of the reader Rather it shows without doubt that the passion of great poetry is part of a national tradition Efforts at translation indicate how such poetry becomes part of an international culture This is a major work by one of the great thinkers of the twentieth century It merits reading and then re reading      *Georg Heym* Hermann Korte,2016-12-13      Expressionist Poetry and Its Critics Christopher Waller,1986

**Ernst Toller and German Society** Robert Ellis,2013-10-10 During the years of Weimar and the Third Reich Toller was one of the more active of the other Germany s left wing intellectuals A leader of the Bavarian Soviet of 1919 he had in addition won the Kleist prize and was recognized as one of Germany s best playwrights Indeed during the years of the Weimar Republic the popularity of his works was unquestioned His first play *Die Wandlung* was soon sold out and required a second edition his dramatic works and poems were translated into twenty seven languages During the 1920 s it was said that he dominated the German and Russian theatre and that he was the most spectacular personality in modern German literature It was common for contemporaries to classify him as one of the foremost German writers of the Weimar era During the 1930s as an exile he popularized to foreign audiences the idea of the other Germany and became a leading spokesman against Hitler However it is Toller the social critic rather than Toller the dramatist with which thisbook is concerned his ideas his visions for Germany and Europe as transmitted in his works of fiction and prose The book reflects on the responsibility an intellectual critic has when writing about a democratic society the Weimar Republic that is unsuccessfully balancing between survival and annihilation Toller was furthermore a Jewish intellectual How did his religious traditions shape his views He was also German and this raises a whole host of specifically Germanic patterns of looking at the world He was also a left wing

intellectual and Toller is set in the broader context of left wing intellectuals in Weimar and the Nazi era A related reflection is to ask so what What difference did it make How much of an influence do intellectuals have in the development of society What is the relationship between intellectuals and their readers in a troubled society *Encyclopedia of Literary Modernism* Paul Poplawski, 2003-12-30 Modernism is still widely acknowledged as perhaps the most important and influential artistic and cultural phenomenon of the 20th century Written by expert scholars from around the world and covering hundreds of different topics in a clear incisive and critical manner this reference maps the complex field of modernism in a fresh and original way The principal focus of the book is on English language literary modernism and the period 1890 1939 yet many entries extend beyond those parameters to include important precursors and successors of the movement The book also covers the crucial European and interdisciplinary dimensions of modernism and provides complementary comparative perspectives from countries and regions not usually included in traditional accounts of the subject Entries cite works for further reading and the volume closes with a selected general bibliography **Poet of Expressionist Berlin** Patrick Bridgwater, 1991 Holderlin Buchner Shelley Keats Baudelaire Van Gogh and Munch Bridgwater ends his study with a discussion of Heym's place in the general topography of neo romanticism and German Expressionism and cautions against too strict a confinement within Expressionist categories of the work of one of the major voices of early twentieth century German literature Mental Processes and Narrative Possibilities in the German Novelle, 1890-1940 David Turner, 2005 Although it concentrates on a particular historical period and although it examines a variety of individual works many of them acknowledged Novellen this study is neither an historical survey nor a collection of interpretations Its distinctive approach is taxonomical and comparative Taking as its starting point the surge of interest in the human mind as the nineteenth century drew to a close it examines the kinds of shorter narrative that were generated by that interest On the other hand therefore it investigates how by focusing on particular aspects of the mind writers were led to adopt certain narrative patterns or structures and on the other hand building on the work of Dorrit Cohn but extending her range considerably it explores and evaluates the different modes of presentation which writers exploited as they sought to give life to the inner workings of their characters According to some psychology and the Novelle are incompatible Although the investigation concludes that there is no inherent incompatibility between psychological interest and the aims of the Novelle it also demonstrates that psychological interest in shorter narratives does not always lead to Novellen it explores other narrative structures that may arise when particular models of the mind form their basis **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1972 O pré-expressionismo na literatura alemã Ludwig Scheidl, 1985 **The University of Dayton Review** University of Dayton, 1976 *The Poet in the City* Kristiaan Versluys, 1987 **Erzählte Kriminalität** Jörg Schönert, 2012-01-02 Keine ausführliche Beschreibung für Erzählte Kriminalität verfügbar *The Publishers' Trade List Annual*, 1982 **New German Studies**, 1975 *German Language and Literature: Seven*
