Georg Lukacs Modern Masters:

Malign Masters Gentile Heidegger Lukács Wittgenstein Harry Redner, 2016-07-27 A politically oriented study of the thought of the founders of the main schools of contemporary academic philosophy those which dominate nearly all universities throughout the world It concentrates on four key masters Wittgenstein who founded both Logical Positivism and the so called Common Language or Analytic school Heidegger the acknowledged master of Hermeneutic Philosophy or the so called Continental school Lukacs the founder of Hegelian Marxism and the leading Communist philosopher of the Soviet period and finally the now lesser known Gentile the Hegelian Idealist *Georg Lukács* G.H.R. Parkinson, 2023-02-24 First published in 1977 Georg Lukács gives an outline of Lukács views and explains how they are related to the relevant cultural traditions of his epoch The author covers the whole range of Lukács thought from his earliest literary criticism to the posthumous *Ontology of Social Existence* Lukács early writings in particular are frequently obscure in style and impregnated with the language and thought of Hegel Professor Parkinson has elucidated Lukács principal writings in systematic fashion and the book includes a detailed exposition of Lukács influential but difficult book *History and Class Consciousness* This should be an indispensable book for all those who seek a clear comprehensible introduction to the writings of one of the most influential Marxist thinkers of our time Visions and Blueprints Edward Timms, 1988 **Georg Lukács** Ehrhard Bahr, Ruth Goldschmidt Kunzer, 1972 *The 20th Century Go-N* Frank N. Magill, 2014-03-05 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography **György Lukács and the Literary Pretext** Eva L. Corredor, 1987 This volume is an introduction to those works of György Lukács that have established him as a classic authority in literary criticism his pre-Marxist *The History of the Evolution of Modern Drama* 1911 still not available in English which Eva Corredor analyzes in the original Hungarian text and from which she provides extensive quotations in English his Kantian collection of essays *Soul and Form* 1910 his Hegelian *The Theory of the Novel* 1920 and his first Marxist work *History and Class Consciousness* 1923 which best characterizes the Hungarian philosopher's problematic position between East and West Lukács's Marxist theories are studied in the texts written during his exile in Stalinist Russia but published much later *Studies in European Realism* 1950 *The Historical Novel* 1955 and *Realism in Our Time* 1957 The approach to Lukács's work is both selective in the sense that the author chooses to introduce Lukács's literary theories with a focus on his views of French literature but also global in that she integrates these theories in the totality of his intellectual development At each phase the true motive of Lukács's interest in

literature is revealed as a pretext to study reality The detailed biographical data up to date critical bibliography and helpful index contribute to the overall value of this work as a challenging and rewarding source of information on Gyrgy Lukcs theories of literature *Permanent Exiles* Martin Jay,1986 Charts the flight of some of this century s most important thinkers from Nazi Germany to the United States Jay explores the theories of The Frankfurt School among them the work of Theodor Adorno Leo Lowenthal and Herbert Marcuse as well such as George Lichtheim Hannah Arendt and Henry Pachter

Listening for Utopia in Ernst Bloch's Musical Philosophy Benjamin M. Korstvedt,2010-07 Korstvedt explains key concepts from Bloch s musical philosophy making his complex ideas accessible for modern musical scholars *Utopia & Revolution* Melvin Jonah Lasky, The most comprehensive study of ideology and utopia since Karl Mannheim s work of the 1930s Utopia and Revolution can be understood as turning classical political theory on its head or perhaps inside out Instead of the usual summary of how English radical theologies contributed to the revolutionary process Lasky shows how such political theology of the mid seventeenth century became the backbone of the natural history of revolutionary disasters In a remarkable feat of scholarship in intellectual history Lasky charts the course of this historic entanglement over some five turbulent centuries of Western history In so doing he traces the ideological extension of the human personality through the writings of political theorists philosophers poets and historians *Balzac* Michael Tilby,2017-07-28 This canon of French literature Honore de Balzac 1799 1850 is also a major European figure in the development of realism His work is dominated by an inter related sequence of novels and short stories La Comedie Humaine which charts the idiosyncrasies of French society from the beginning of the nineteenth century to the 1840 s Among the most famous of these are Le Pierre Goriot and La Cousine Bette Iin this study Dr Tilby concentrates on the main approaches in practice and discusses some of the earliest responses to Balzac s work His introduction and headnotes set Balzac s work in context This book will be of interest to students of French language and literature and also to those studying French in combined studies or humanities courses

Practical Philosophy H. Odera Oruka,1997 Adorno: A Guide for the Perplexed Alex Thomson,2006-03-23 One of the most influential philosophers and cultural theorists of the twentieth century Theodor Adorno poses a considerable challenge to students His works can often seem obscure and impenetrable particularly for those with little knowledge of the philosophical traditions on which he draws Adorno A Guide for the Perplexed is an engaging and accessible account of his thought that does not patronise or short change the reader Those new to Adorno and those who have struggled to make headway with his work will find this an invaluable resource clearly written comprehensive and specifically focused on just what makes Adorno difficult to read and understand The Growth of Economic Thought Henry William Spiegel,1991 In a new and updated edition of this classic textbook Henry William Spiegel brings his discussion and analysis of economic thought into the 1990s A new introductory chapter offering an overall view of the history of economics and a bibliographic survey of the economic literature of the 1980s and early 1990s have been added Maintaining the link between economics and

the humanities Spiegel's text will continue to introduce students to a wide range of topics in the history of economic thought. From reviews of previous editions: The history of economic thought to end all histories of economic thought Robert D Patton Journal of Economic Literature. The book is in the grand tradition of the history of doctrines. It is a history of economic thought broadly conceived and superbly written to boot. It is not too much to say that Spiegel's book will become and remain a leading text in the field. Warren J Samuels Social Science. The author conveys the essence of an idea simply and clearly yet in a graceful style. William F Kennedy Journal of Economic Literature. *Culture and Politics* Raymond Williams, 2022-01-11. Brand new collection of the essential essays from one of the founders of cultural studies. Raymond Williams. Raymond Williams was a pioneering scholar of cultural and society and one of the outstanding intellectuals of the twentieth century. In this a collection of difficult to find essays some of which are published for the first time. Williams emerges as not only one of the great writers of materialist criticism but also a thoroughly engaged political writer. Published to coincide with the centenary of his birth and showing the full range of his work from his early writings on the novel and society to later work on ecosocialism and the politics of modernism. *Politics and Culture* shows Williams at both his most accessible and his most penetrating. An essential book for all those interested in the politics of culture in the twentieth century and the development of Williams's work. *George Lukács* George Lichtheim, 1973. **Origin of Negative Dialectics** Susan Buck-Morss, 1979-12. Susan Buck-Morss examines and stresses the significance of Critical Theory for young West German intellectuals after World War II. Looking at the differences between German and American situations during this time period. *Origin of Negative Dialectics* convincingly sketches the learning process that ended in antagonism. The *Origin of Negative Dialectics* is by far the best introduction for the American reader to the complex esoteric and illusive structure of thought of one of the most seminal Marxian thinkers of the twentieth century. It belongs on the same shelf as Martin Jay's history of the Frankfurt School. *The Dialectical Imagination* Lewis A Coser State University of New York Stony Brook. **Handbook of Austrian Literature** Frederick Ungar, 1973. **George Lukács** George Lichtheim, 1970. American ed. New York: Viking. Has title: *George Lukács Bibliography* p. 132-134. *Die Musik als Abbild der Realität* Albrecht Riethmüller, 1976. Der Verfasser untersucht die Widerspiegelungstheorie in Verbindung mit der Musik auf ihre begrifflichen und geschichtlichen Voraussetzungen hin. Verschiedene Möglichkeiten eines Abbildcharakters der Musik nämlich Mimesis imitatio Ausdruck und Intonation werden geprüft um den Fundierungszusammenhang von Musik und Realität herzustellen. Sodann wird die marxistische Aneignung und spezielle Ausprägung der Abbildungsproblematik als ästhetische Widerspiegelungstheorie an Hand des Werkes von Georg Lukács entwickelt. Es wird erwogen inwieweit der Widerspiegelungscharakter der Musik am Gegenstand Musik selbst näher konkretisiert werden könnte und welche neuen Wege der Widerspiegelungstheorie über Lukács hinaus erschlossen worden sind. Riethmuellers Verdienst ist es daß er keine ideologische Polemik gegen Lukács dessen Theorien den eigentlichen Schwerpunkt dieser Arbeit bilden führt sondern sich mit seinem nicht gerade leicht lesbaren
