biographies **The China Diary of George H. W. Bush** Jeffrey A. Engel, 2011-05-04 Available in print for the first time this day by day diary of George H W Bush's life in China opens a fascinating window into one of the most formative periods of his career As head of the United States Liaison Office in Beijing from 1974 to 1975 Bush witnessed high level policy deliberations and daily social interactions between the two Cold War superpowers The China Diary of George H W Bush offers an intimate look at this fundamental period of international history marks a monumental contribution to our understanding of U S China relations and sheds light on the ideals of a global president in the making In compelling words Bush reveals a thoughtful and pragmatic realism that would guide him for decades to come He considers the crisis of Vietnam the difficulties of détente and tensions in the Middle East while lamenting the global decline in American power He

formulates views on the importance of international alliances and personal diplomacy as he struggles to form meaningful relationships with China's top leaders. With a critical eye for detail he depicts key political figures including Gerald Ford, Donald Rumsfeld, Deng Xiaoping and the ever difficult Henry Kissinger. Throughout Bush offers impressions of China and its people, describing his explorations of Beijing by bicycle and his experiences with Chinese food, language lessons and Ping Pong. Complete with a preface by George H. W. Bush and an introduction and essay by Jeffrey Engel that place Bush's China experience in the broad context of his public career. *The China Diary of George H. W. Bush* offers an unmediated perspective on American diplomatic history and explores a crucial period's impact on a future commander in chief.

The Presidents Club Nancy Gibbs, Michael Duffy, 2013-02-12 Over the years that followed and to this day the presidents relied on misunderstood, sabotaged and formed alliances with one another that changed history. The world's most exclusive fraternity is a complicated place; its members are bound forever because they sat in the Oval Office and know its secrets, yet they are immortal rivals for history's favour. Some presidents needed their predecessors to keep their secrets; others needed them to disappear. Truman enlisted Hoover to help him save Europe; Kennedy turned to Ike on Cuba; Nixon sought Johnson's advice on getting re-elected but then tried to blackmail him; Ford and Carter couldn't stand each other until they saw what they had in common; Reagan and Clinton relied on Nixon as an emissary to Russia; Bush put Clinton and his father to work and they became like father and son; and Obama and Clinton became quiet rivals for the same crown. The Presidents Club will change the way we think about the presidency for the club itself is an instrument of presidential power.

After the White House Max J. Skidmore, 2015-01-27 What exactly has Bill Clinton been doing since he left office? What can he expect to accomplish? What have his predecessors in his position done? Many presidents have had enormous impacts on the course of history after their terms ended but not until *After the White House* by Max J. Skidmore has their role been examined. Thirty-two completed their terms; four became presidential candidates again; one was even elected; two served in Congress; one abandoned his country to accept election to the Confederate Congress; one became Chief Justice; and one has the unique distinction of having his First Lady become a United States senator. Former presidents almost always remain influential but their post-term activities have received little attention or scrutiny until now.

The Strategist Bartholomew Sparrow, 2015-01-27 Provides an in-depth portrait of a man whose career has been intimately linked to the great transformations in U.S. foreign policy from the last third of the Cold War to September 11, 2001, and up to the present.

Presidents Who Shaped the American West Glenda Riley, Richard W. Etulain, 2018-02-08 Generations of Americans have seen the West as beyond federal control and direction. But the national government's presence in the West dates to before Lewis and Clark and since 1789 a number of U.S. presidents have had a penetrating and long-lasting impact on the region. In *Presidents Who Shaped the American West*, noted historians Glenda Riley and Richard W. Etulain present startling analyses of chief executives and their policies, illuminating the long reach of presidential power. The authors begin each chapter by sketching a particular president's

biography and explaining the political context in which he operated while in office They then consider overarching actions and policies that affected both the nation and the region during the president s administration such as Thomas Jefferson s augmentation of the West via the Louisiana Purchase and Andrew Jackson s removal of American Indians from the Southeast to Indian Country in the West Abraham Lincoln s promotion of the Homestead Act a transcontinental railroad and western territories and states free of slavery marked further extensions of presidential power in the region Theodore Roosevelt s conservation efforts and Jimmy Carter s expansion of earlier policies reflected growing public concern with the West s finite natural resources and fragile natural environment Franklin D Roosevelt s New Deal Dwight D Eisenhower s highway program and Lyndon B Johnson s Great Society funneled federal funding into the West In return for this largesse some argued the West paid the price of increased federal hegemony and Ronald Reagan s presidency arguably curbed that power Riley and Etulain also discuss the most recent presidential terms and the region s growing political power in Congress and the federal bureaucracy With an accessible approach Presidents Who Shaped the American West establishes the crucial and formative nature of the relationship between the White House and the West and will encourage readers to continue examining this relationship

Haunting Legacy Marvin Kalb, Deborah Kalb, 2012-08-22 The United States had never lost a war that is until 1975 when it was forced to flee Saigon in humiliation after losing to what Lyndon Johnson called a raggedy ass little fourth rate country The legacy of this first defeat has haunted every president since especially on the decision of whether to put boots on the ground and commit troops to war In *Haunting Legacy* the father daughter journalist team of Marvin Kalb and Deborah Kalb presents a compelling accessible and hugely important history of presidential decisionmaking on one crucial issue in light of the Vietnam debacle under what circumstances should the United States go to war The sobering lesson of Vietnam is that the United States is not invincible it can lose a war and thus it must be more discriminating about the use of American power Every president has faced the ghosts of Vietnam in his own way though each has been wary of being sucked into another unpopular war Ford during the Mayaguez crisis and both Bushes Persian Gulf Iraq Afghanistan deployed massive force as if to say Vietnam be damned On the other hand Carter Clinton and Reagan to the surprise of many acted with extreme caution mindful of the Vietnam experience Obama has also wrestled with the Vietnam legacy using doses of American firepower in Libya while still engaged in Iraq and Afghanistan The authors spent five years interviewing hundreds of officials from every post war administration and conducting extensive research in presidential libraries and archives and they ve produced insight and information never before published Equal parts taut history revealing biography and cautionary tale *Haunting Legacy* is must reading for anyone trying to understand the power of the past to influence war and peace decisions of the present and of the future

Haunting Legacy Marvin L. Kalb, Deborah Kalb, 2011 In a book that draws on hundreds of interviews with officials from every administration over the past 40 years the authors discuss the lasting impact of America s defeat during the Vietnam War on foreign policy since then

Barbara Bush Myra G.

Gutin,2008 A lively account of the outspoken first lady during her White House years showing how the Silver Fox used her rich experience in politics to master the public relations side of first ladyship with as much skill as any White House spouse

What They Wished For Lawrence J. McAndrews,2014-05-15 As a religious bloc Roman Catholics constitute the most populous religious denomination in the United States comprising one in four Americans With the election of John F Kennedy as president in 1960 they attained a political prominence to match their rapidly ascending socioeconomic and cultural profile From Vietnam to Iraq the civil rights movement to federal funding for faith based initiatives and from birth control to abortion American Catholics have won at least as often as they have lost What They Wished For by Lawrence J McAndrews traces the role of American Catholics in presidential policies and politics from 1960 until 2004 Though divided by race class gender and party Catholics have influenced issues of war and peace social justice and life and death among modern presidents in a profound way starting with the election of President Kennedy and expanding their influence through the intervening years with subsequent presidents McAndrews shows that American Catholics led by their bishops and in some cases their pope have been remarkably successful in shaping the political dialogue and at helping to effect policy outcomes inside and outside of Washington Indeed although they opened this era by helping to elect one of their own Catholic voters have gained so much influence and have become so secure in their socioeconomic status and so confident in their political standing that they closed the era by rejecting one of their own voting for George W Bush over John Kerry in 2004

Presidents and Civil Liberties from Wilson to Obama Samuel Walker,2012-04-16 This book is a history of the civil liberties records of American presidents from Woodrow Wilson to Barack Obama It examines the full range of civil liberties issues First Amendment rights of freedom of speech press and assembly due process equal protection including racial justice women s rights and lesbian and gay rights privacy rights including reproductive freedom and national security issues The book argues that presidents have not protected or advanced civil liberties and that several have perpetrated some of the worst violations Some Democratic presidents Wilson and Roosevelt moreover have violated civil liberties as badly as some Republican presidents Nixon and Bush This is the first book to examine the full civil liberties records of each president thus placing a president s record on civil rights with his record on national security issues and also to compare the performance on particular issues of all the presidents covered

Deadlock and Disillusionment Gary W. Reichard,2016-02-22 Deadlock and Disillusionment American Politics Since 1968 is an insightful consideration of the events people and policy debates that have shaped and continue to influence even control the current political era Rejects conventional wisdom that the dominant force shaping recent American politics in the last half century has been the rise of the Right Considers the achievements and frustrations of each administration from Nixon to Obama in its assessment of contemporary U S politics Features authorship by an expert scholar in the field who takes a thematic rather than a partisan approach to recent American politics Offers a concise comprehensive and thoroughly up to date synthesis of the literature in the field and concludes with a comprehensive

bibliographical essay an aid to student research **Persian Gulf War Encyclopedia** Spencer C. Tucker, 2014-08-20 Ideal for high school and college level readers as well as students attending military academies and general audiences this encyclopedia covers the details of the Persian Gulf War as well as the long term consequences and historical lessons learned from this important 20th century conflict This encyclopedia provides a rich historical account of the Persian Gulf War examining the conflict from a holistic perspective that addresses the details of the military operations as well as the social political economic and cultural aspects of the war The alphabetically arranged entries chart the events of the war provide cross references and sources for additional study and identify the most important individuals and groups associated with the conflict In addition it includes primary source documents that will provide readers with valuable insights and foster their critical thinking and historical reasoning skills The Persian Gulf War served as the first live combat test of much of the United States then new high tech weaponry The war also held many lessons about the play of national interests the process of coalition building the need for effective communication and coordination and the role of individuals in shaping history This book addresses all key battles the nations involved strategies employed by both sides weapon systems used the role of the media the role played by women and environmental and medical issues associated with the conflict *The Conservative Frontier* Jeff Roche, 2025-10-07 How West Texas business and culture molded the rise of conservatism in the United States Much of what we understand as modern American political conservatism was born in West Texas where today it predominates How did the people of such a vast region larger than New England and encompassing big cities like Lubbock and Amarillo as well as tiny towns from Anson to Dalhart develop such a uniform political culture And why and how did it go national Jeff Roche finds answers in the history of what he calls cowboy conservatism Political power players matter in this story but so do football coaches newspaper editors and a breakfast cereal tycoon who founded a capitalist utopia The Conservative Frontier follows these and other figures as they promoted an ideology grounded in the entrepreneurial and proto libertarian attitudes of nineteenth century Texas ranchers including a fierce devotion to both individualism and small town notions of community responsibility This political sensibility was in turn popularized by its association with the mythology and iconography of the cowboy as imagined in twentieth century mass media By the 1970s and the rise of Ronald Reagan Roche shows it was clear that the cowboy conservatism of West Texas had set the stage for the emergence of the New Right the more professionalized and tech savvy operation that dominated national conservative politics for the next quarter century American First Ladies Lewis L. Gould, 2014-02-04 This volume presents thirty nine interpretive biographical essays on all first ladies from Martha Washington to America s newest First Lady Laura Bush This new edition contains updated material on all the living First Ladies and updated bibliographies for each entry as well as a portrait of the newest First Lady Restless Giant James T. Patterson, 2005-09-23 In Restless Giant acclaimed historical author James Patterson provides a crisp concise assessment of the twenty seven years between the resignation of Richard Nixon and the

election of George W Bush in a sweeping narrative that seamlessly weaves together social cultural political economic and international developments We meet the era s many memorable figures and explore the culture wars between liberals and conservatives that appeared to split the country in two Patterson describes how America began facing bewildering developments in places such as Panama Somalia Bosnia and Iraq and discovered that it was far from easy to direct the outcome of global events and at times even harder for political parties to reach a consensus over what attempts should be made At the same time domestic issues such as the persistence of racial tensions high divorce rates alarm over crime and urban decay led many in the media to portray the era as one of decline Patterson offers a more positive perspective arguing that despite our often unmet expectations we were in many ways better off than we thought By 2000 most Americans lived more comfortably than they had in the 1970s and though bigotry and discrimination were far from extinct a powerful rights consciousness insured that these were less pervasive in American life than at any time in the past With insightful analyses and engaging prose *Restless Giant* captures this period of American history in a way that no other book has illuminating the road that the United States traveled from the dismal days of the mid 1970s through the hotly contested election of 2000

The Oxford History of the United States The Oxford History of the United States is the most respected multi volume history of our nation The series includes three Pulitzer Prize winners a New York Times bestseller and winners of the Bancroft and Parkman Prizes The Atlantic Monthly has praised it as the most distinguished series in American historical scholarship a series that synthesizes a generation s worth of historical inquiry and knowledge into one literally state of the art book Conceived under the general editorship of C Vann Woodward and Richard Hofstadter and now under the editorship of David M Kennedy this renowned series blends social political economic cultural diplomatic and military history into coherent and vividly written narrative

Classical Hollywood Comedy Kristine Brunovska Karnick, Henry Jenkins, 1995 Applies the recent return to history in film studies to the genre of classical Hollywood comedy as well as broadening the definition of those works considered central in this field

The Family Kitty Kelley, 2004-09-14 From the First Lady of unauthorized tell all biography this is the first real inside look at the most powerful and secretive family in the world From Senator Prescott Bush s alcoholism to his son George Herbert Walker Bush s infidelities to George Walker Bush s religious conversion shady financial deals and military manipulations Kitty Kelley captures the portrait of a family that has whitewashed its own story almost out of existence
