**Glen Segell**

## **George Bush Vs Saddam Hussein:**

George Bush Vs. Saddam Hussein Roger Hilsman, 1992 According to the author the recent Gulf War was brought on not by the clash of national interests but by the intense personal rivalry between George Bush and Saddam Hussein To support his thesis Hilsman examines the history of the Persian Gulf region then traces the events leading to the Iraqi invasion of Kuwait and the U S s decision to send troops to Saudi Arabia *Confronting Saddam Hussein* Melvyn P. Leffler, 2023-01-04 In *Confronting Saddam Hussein* Melvyn P Leffler analyzes why the US went to war in Iraq in 2003 and who was most responsible for the decision Employing a unique set of personal interviews with dozens of top officials and declassified American and British documents Leffler vividly portrays the emotions and anxieties that shaped the thinking of the president after the shocking events of 9 11 As the book unfolds the centrality of Bush s role becomes more and more evident A necessary reassessment of George W Bush s intervention in Iraq *Confronting Saddam Hussein* provides a provocative reinterpretation of the most important international event of the 21st century **Going to War with Iraq** Joseph M. Siracusa, Laurens J. Visser, 2019-12-03 *Going to War with Iraq* A Comparative History of the Bush Presidencies is the account of two United States presidents and their decision to intervene militarily in Iraq examining the comparative domestic and international contexts in which the decisions to go to war were made by George H W Bush and his son George W Bush This book centers specifically on the issue of Saddam Hussein at home and abroad in the lead up to hostilities with Iraq in 1991 and 2003 respectively For George H W Bush in 1991 the threat posed by Saddam came from his perceived capabilities as Iraq s leader whereas for George W Bush in 2003 it was the threat posed by Saddam s perceived intentions as Iraq s leader In both cases the result was war with Iraq **The Sixteen-trillion-dollar Mistake** Bruce S. Jansson, 2001 Jansson documents how presidents from FDR to Clinton have made ill advised choices that squandered trillions of dollars Using Office of Management and Budget projections through 2004 Jansson shows how the madness continues and how an informed electorate can put an end to it Groupthink Versus High-Quality Decision Making in International Relations Mark Schafer, Scott Crichlow, 2010-04-22 Are good and bad outcomes significantly affected by the decision making process itself Indeed they are in that certain decision making techniques and practices limit the ability of policymakers to achieve their goals and advance the national interest The success of policy often turns on the quality of the decision making process Mark Schafer and Scott Crichlow identify the factors that contribute to good and bad policymaking such as the personalities of political leaders the structure of decision making groups and the nature of the exchange between participating individuals Analyzing thirty nine foreign policy cases across nine administrations and incorporating both statistical analyses and case studies including a detailed examination of the decision to invade Iraq in 2003 the authors pinpoint the factors that are likely to lead to successful or failed decision making and they suggest ways to improve the process Schafer and Crichlow show how the staffing of key offices and the structure of central decision making bodies determine the path of an administration even

before topics are introduced. Additionally, they link the psychological characteristics of leaders to the quality of their decision processing. There is no greater work available on understanding and improving the dynamics of contemporary decision making.

The Politics of Intelligence and American Wars with Iraq O. Seliktar, 2008-02-18. Coming at the heels of September 11, Operation Iraqi Freedom has focused the limelight on the way in which the United States predicts and manages political change. The failure to find WMD and more important, the continued violence in Iraq instead of the hoped-for democracy has engendered an acrimonious debate on the motives of the Bush administration and its uses or misuses of intelligence. The question of who got what right or wrong has been fought out along ideological and partisan lines, with supporters claiming that given what was known about Saddam Hussein, the decision to change his regime was justified, and detractors arguing that a group of largely Jewish neoconservatives acting on behalf of Israel manipulated intelligence in order to trick the United States into an unnecessary and costly war. The book provides a systematic and objective analysis of the problems that faced American intelligence in deciphering the behavior of the highly secretive and confusing Iraqi regime and its enigmatic leader.

Overview of the Persian Gulf War, 1990 Earle Rice Jr., 2009-03. In the early hours of August 2, 1990, one hundred thousand mechanized troops of Saddam Hussein's Iraqi army roared and rumbled across the border into Kuwait. By noon of August 4, the tiny oil-rich nation belonged to the Iraqi invaders. When informed of Iraq's unprovoked aggression, U.S. President George H.W. Bush said, "This will not stand in defense of Saudi Arabia and stability in the Middle East." He drew a line in the sand. Operating under the umbrella of the United Nations, President Bush assembled a multinational coalition and prepared for war. Over the next five months, Saddam refused to accept UN diplomatic efforts for Iraq's complete withdrawal from Kuwait. He ignored a UN ultimatum to withdraw by January 15, 1991. On January 17, at approximately 3:00 a.m., Iraqis reaped the lethal consequences of their leader's aggression and defiance. A huge coalition air armada struck Baghdad and ushered in a new era of high-tech warfare.

*Arabs at War* Kenneth Michael Pollack, 2004-01-01. Assesses the military performances of Iraq, Egypt, Jordan, Libya, Saudi Arabia, and Syria from the first military engagements between Egypt and Israel to the 1991 Gulf War.

**The Persian Gulf TV War** Douglas Kellner, 2019-06-26. Douglas Kellner's *Persian Gulf TV War* attacks the myths, disinformation, and propaganda disseminated during the Gulf War. At once a work of social theory, media criticism, and political history, this book demonstrates how television served as a conduit for George Bush's war policies while silencing anti-war voices and foregoing spirited discussion of the complex issues involved. In so doing, the medium failed to assume its democratic responsibilities of adequately informing the American public and debating issues of common concern. Kellner analyzes the dominant frames through which television presented the war and focuses on the propaganda that sold the war to the public, one of the great media spectacles and public relations campaigns of the post-World War II era. In the spirit of Orwell and Marcuse, Kellner studies the language surrounding the Gulf War and the cynical politics of distortion and disinformation that shaped the mainstream media version of the war, how the Bush administration

and Pentagon manipulated the media and why a majority of the American public accepted the war as just and moral

*Congressional Record* United States. Congress,1992      **Bush's Wars** Terry H. Anderson,2011-07 From journalistic accounts like Fiasco and Imperial Life in the Emerald City to insider memoirs like Jawbreaker and Three Cups of Tea the books about America's wars in Iraq and Afghanistan could fill a library But each explores a narrow slice of a whole two wars launched by a single president as part of a single foreign policy Now noted historian Terry H Anderson examines them together in a single comprehensive overview Shortly after the terrorist attacks of September 11 2001 President George W Bush told advisor Karl Rove I am here for a reason and this is how we're going to be judged Anderson provides this judgment in this sweeping authoritative account of Bush's War on Terror and his twin interventions He begins with historical surveys of Iraq and Afghanistan known respectively as the improbable country and the graveyard of empires and he examines U S policies toward those and other nations in the Middle East from the 1970s to 2000 Then Anderson focuses on the Bush Administration carrying us through such events as the terrorist's attacks of 9 11 the invasion of Afghanistan and the siege of Tora Bora the Axis of Evil speech the invasion of Iraq and capture of Baghdad and the eruption of insurgency in Iraq He ranges from RPGs slamming into Abrams tanks to cabinet meetings vividly portraying both soldiers in the field and such policymakers as Dick Cheney and Condoleezza Rice Anderson describes the counter insurgency strategy embodied by the surge in Iraq and the simultaneous revival of the Taliban He concludes with an assessment of the prosecution of the wars in the first years of Barack Obama's presidency Carefully researched and briskly narrated Bush's Wars provides the single volume balanced history that we have been waiting for      **Historical Dictionary of United States-Middle East Relations**

Peter L. Hahn,2016-09-19 U S foreign relations in the Middle East has remained crucial through many decades and the complications facing the United States in the Middle East have become even more acute While the United States downgraded its military operations in Iraq that country failed to achieve a stable democratic footing and instead experienced schism and civil strife Israeli Palestinian disputes over land the status of refugees and control of Jerusalem intensified and international conflicts between Arab states and Israel escalated for the first time since the 1980s The Arab Spring protest movements of 2011 and after ignited political turmoil across the region leading to revolutionary change in several states and triggering persistent unrest and violence in Libya Egypt Tunisia Yemen Syria and Iraq During the recent decade in short the Middle East has become the most unstable dangerous and complicated region of the world and the United States remains near the center of the maelstrom This second edition of Historical Dictionary of United States Middle East Relations contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on national leaders non governmental organizations policy initiatives and armed conflicts as well as entries on such topics as intelligence immigration and weapons of mass destruction This book is an excellent access point for students researchers and anyone wanting to know more about the US and Middle East Relations      *The Media and the Military* P.

Young, P. Jessor, 1997-10-13 The first comprehensive study of the contentious issue of the public's right to know in time of war or limited conflict The book traces the uneasy relations between the military and a generally unprepared and gullible media from the Crimea to the present day It shows how the advent of nuclear warfare has outlawed the nationalistic wars of survival of the past and freed the citizen from his age old obligations in time of war able to make up his or her own mind on the merits of the situation It is here that the battle lies in the struggle for public opinion as a necessary precursor to war This book details how the military discovered the secret of media and public manipulation in the Falklands tested it in Grenada and refined it in Panama before deploying it in all its glory during the Gulf This book is essential reading for every soldier and journalist or any student of military history as it points the way to the future Axis of Evil and Rogue States Glen

Segell, 2005 The legendary spy thriller from bestselling author Robert Littell whose newest book *The Company* is receiving rave reviews and acclaim is finally back in print Fans reviewers and booksellers will cheer This first novel originally published in 1973 established Littell as a master and immediately elevated him to the ranks of John le Carr Len Deighton and Graham Greene *The Defection of A J Lewinter* is a masterpiece of irony and intrigue an unconventional and gripping anatomy of a defection A J Lewinter is an American scientist for years an insignificant cog in America's complex defense machinery While at an academic conference in Tokyo he contacts the KGB station chief and tells him he wants to defect He tantalizes the Russians with U S military secrets he claims to possess but is his defection genuine Neither the Russians nor the Americans are sure and Lewinter is swept up in a terrifying political chess match of deceit and treachery Each side struggles to anticipate its opponent's next move and the superpowers are locked in a deadly contest that exploits friendships destroys loyalties and manipulates human beings as expendable pawns Deft and dazzlingly plotted this is the book that introduced Robert Littell the opening shot of a brilliant career *The Roots and Consequences of 20th-Century Warfare* Spencer C.

Tucker, 2016-09-06 This unique reference book introduces readers to the causes and effects of the 20th century's most significant conflicts and explains how the impact of these conflicts still resonates today *The Roots and Consequences of 20th Century Warfare* Conflicts That Shaped the Modern World introduces students to the causes and effects of the 20th century's most significant conflicts Covering conflicts that occurred in all regions of the world readers will gain knowledge on the causes and consequences of each conflict and become familiar with the historical context needed to understand the roots and consequences of these seminal events The text also identifies key opponents in each conflict and illuminates the reasons why each country or group decided to fight the scope of their involvement in the war and the impact of the war Reference entries on key battles are presented in chronological order supplying engaging details on the events and people who shaped each war The book also supplies maps of the key battles to illuminate the strategic movements of both sides of the conflict A lengthy bibliography offers a wealth of options to readers seeking more sources of information on any of the conflicts

*Parameters*, 1993 **Congress and the Foreign Policy Process** Cecil V. Crabb, Jr., Glenn J. Antizzo, Leila S.

Sarieddine,2000-02-01 In this highly original and thoroughly informed study Cecil V Crabb Jr Glenn Antizzo and Leila S Sarieddine identify and examine recurring modes or patterns of legislative behavior over the span of America s diplomatic experience Although congressional involvement in foreign policy making has received much scholarly attention this work is groundbreaking in that it focuses on those patterns of congressional conduct that have repeated themselves over time and on the basis of experience will probably continue to occur Thus it creates a large predictable framework of legislative activity concerning America s problems abroad to which students of U S foreign policy can relate Congress s actions in any era The authors identify four models of legislative conduct congressional assertiveness and activism in foreign affairs congressional acquiescence in diplomatic leadership by the president a bipartisan approach and a division of labor model in which both the president and Congress play significant but essentially different roles In examining each of these modes the authors explore the circumstances and factors that gave rise to each pattern and evaluate its positive and negative results for the overall foreign policy of the United States Brimming with lively language and invaluable observations Congress and the Foreign Policy Process offers a thought provoking means to understanding a complex and important area in the study of American government

**The Bush Administrations and Saddam Hussein** A. Hybel,J. Kaufman,2006-10-02 The authors present a vital analysis of the foreign policy making processes of the two Bush administrations prior to the attacks on Iraq In a thorough comparison they show how both presidents used historical analogies to evaluate information relied on instinct to formulate decisions and drew on moral language to justify their choices

**The Political Psychology of the Gulf War** Stanley Renshon,2010-06-15 In these original essays widely respected experts analyze the personal psychologies and public belief systems of the individuals and nations involved in the Gulf War from George Bush and Saddam Hussein to the peoples of the United States Israel and Arab countries Approaching the events of 1990 1991 from the perspectives of psychology history mass communications and political science these scholars examine the dynamic relationship of events behavior and perceptions Part I deals with the psychological and political origins of the war part II focuses on George Bush Saddam Hussein and the nature of their leadership and judgement part III discusses the battle for public perceptions and beliefs waged by both sides part IV analyzes the results of that battle as revealed by the understanding of the U S Israeli and Arab publics and part V deals with the war s consequences A postscript by Stanley Renshon covers military actions in the Gulf in late 1992 and early 1993
