George Gemistos Plethon The Last Of The Hellenes:

George Gemistos Plethon Christopher Montague Woodhouse,1986 This study of the Byzantine philosopher George Gemistos Plethon includes the first complete translation of his treatise On the Differences of Aristotle from Plato and summarizes all his other works Woodhouse emphasizes Plethon s controversy with George Scholarios on the respective merits of Plato and Aristotle and his important impact on the Italian humanists during the Council of Union at Ferrara and Florence in 1438 9 Though Plethon s ambition to create a new religion based on Neoplatonism was never realized his ideas had a significant influence on the western Renaissance The Last Centuries of Byzantium, 1261-1453 Donald M.

Nicol,1993-10-14 The Byzantine Empire fragmented and enfeebled by the Fourth Crusade in 1204 never again recovered its former extent power and influence Its greatest revival came when the Byzantines in exile reclaimed their capital city of Constantinople in 1261 and this book narrates the history of this restored empire from 1261 to its conquest by the Ottoman Turks in 1453 First published in 1972 the book has been completely revised amended and in part rewritten with its source references and bibliography updated to take account of scholarly research on this last period of Byzantine history carried out over the past twenty years **The Oxford Handbook of Dionysius the Areopagite** Mark Edwards,Dimitrios

Pallis,Georgios Steiris,2022-02-25 This Handbook contains forty essays by an international team of experts on the antecedents the content and the reception of the Dionysian corpus a body of writings falsely ascribed to Dionysius the Areopagite a convert of St Paul but actually written about 500 AD The first section contains discussions of the genesis of the corpus its Christian antecedents and its Neoplatonic influences In the second section studies on the Syriac reception the relation of the Syriac to the original Greek and the editing of the Greek by John of Scythopolis are followed by contributions on the use of the corpus in such Byzantine authors as Maximus the Confessor John of Damascus Theodore the Studite Niketas Stethatos Gregory Palamas and Gemistus Pletho In the third section attention turns to the Western tradition represented first by the translators John Scotus Eriugena John Sarracenus and Robert Grosseteste and then by such readers as the Victorines the early Franciscans Albert the Great Aquinas Bonaventure Dante the English mystics Nicholas of Cusa and Marsilio Ficino The contributors to the final section survey the effect on Western readers of Lorenzo Valla s proof of the inauthenticity of the corpus and the subsequent exposure of its dependence on Proclus by Koch and Stiglmayr The authors studied in this section include Erasmus Luther and his followers Vladimir Lossky Hans Urs von Balthasar and Jacques Derrida as well as modern thinkers of the Greek Church Essays on Dionysius as a mystic and a political theologian conclude the volume **Creating East and West** Nancy Bisaha,2010-12-01 As the Ottoman Empire advanced westward from the

fourteenth to the sixteenth centuries humanists responded on a grand scale leaving behind a large body of fascinating yet understudied works These compositions included Crusade orations and histories ethnographic historical and religious studies of the Turks epic poetry and even tracts on converting the Turks to Christianity Most scholars have seen this vast literature

as atypical of Renaissance humanism Nancy Bisaha now offers an in depth look at the body of Renaissance humanist works that focus not on classical or contemporary Italian subjects but on the Ottoman Empire Islam and the Crusades Throughout Bisaha probes these texts to reveal the significant role Renaissance writers played in shaping Western views of self and other Medieval concepts of Islam were generally informed and constrained by religious attitudes and rhetoric in which Muslims were depicted as enemies of the faith While humanist thinkers of the Renaissance did not move entirely beyond this stance Creating East and West argues that their understanding was considerably more complex in that it addressed secular and cultural issues marking a watershed between the medieval and modern Taking a close look at a number of texts Bisaha expands current notions of Renaissance humanism and of the history of cross cultural perceptions Engaging both traditional methods of intellectual history and more recent methods of cross cultural studies she demonstrates that modern attitudes of Western societies toward other cultures emerged not during the later period of expansion and domination but rather as a defensive intellectual reaction to a sophisticated and threatening power to the East

Greek Scholars between East and West in the Fifteenth Century John Monfasani, 2023-05-31 Although the immense importance for the Renaissance of Greek migr s to fifteenth century Italy has long been recognized much basic research on the phenomenon remains to be done This new volume by John Monfasani gathers together fourteen studies filling in some of the gaps in our knowledge The philosophers George Gemistus Pletho and George Amiroutzes the great churchman Cardinal Bessarion and the famous humanists George of Trebizond and Theodore Gaza are the subjects of some of the articles Other articles treat the migr s as a group within the wider frame of contemporary issues such as humanism the theological debate between the Orthodox and Roman Catholics and the process of translating Greek texts into Latin Furthermore some notable Latin figures also enter into several of the articles in a detailed way specifically Nicholas of Cusa Niccol Perotti and Pietro Balbi

divide between science and religion has its roots in the early modern period In the first part the popular talk of oracles of reason is traced back to the ancient oracles published in the 15th century and it is shown how this led to the emergence of a natural theology that does without revelation so that eventually reference to a divine creator seems superfluous In the second part using the concept of the cosmos it is shown that mathematics especially geometry has been part of the theological interpretation of Creation since the Middle Ages From this developed the concept of transcendence as rooted in human thought Therefore cosmos creation and humanity which are mutually exclusive form a unity of complementary elements *Marsilio Ficino* Michael Allen,Valery Rees,2002-01-01 This volume consists of 21 essays on Marsilio Ficino 1433 99 the great Florentine scholar philosopher and priest who was the architect of Renaissance Platonism and whose long lasting influence on philosophy love and music theory medicine and magic extended across Europe Grouped into three sections they cover such topics as priesthood the influence of Hermetic monism Plotinus and Augustine Jewish transmission of the prisca theologia the 15th c Plato Aristotle controversy the soul and its afterlife the primacy of the will theriac and
