George Vancouver:

Madness, Betrayal and the Lash Stephen R. Bown, 2008 From 1792 to 1795 George Vancouver sailed the Pacific as the captain of his own expedition and as an agent of imperial ambition To map a place is to control it and Britain had its eyes on America s Pacific coast And map it Vancouver did His voyage was one of history s greatest feats of maritime daring discovery and diplomacy and his marine survey of Hawaii and the Pacific coast was at its time the most comprehensive ever undertaken But just two years after returning to Britain the 40 year old Vancouver hounded by critics shamed by public humiliation at the fists of an aristocratic sailor he had flogged and blacklisted because of a perceived failure to follow the Admiralty s directives died in poverty nearly forgotten In this riveting and perceptive biography historian Stephen Bown delves into the events that destroyed Vancouver s reputation and restores his position as one of the greatest explorers of the Age of Discovery

The Last Days Of George Vancouver, RN Ron Palmer, 2015-07-02 Britain s interest in the Northwest coast of America had been enlivened during the late eighteenth century showing little regard to Spain s blanket claim for the whole coast from Cape Horn to the very north of America Britain was determined to establish as their own claim to the fur trade and whaling industry Tensions arose between the two countries and Britain mobilised her fleet in preparation of hostilities breaking out this became known as the Spanish Armament Tensions eased by negotiation and Britain gained equal trading rights and posts on the Northwest Coast north of any Spanish settlements this became known as the Nootka Sound Agreement An expedition was prepared with two ships fitting out George Vancouver was given command his professionalism in chart and surveying work during his time in the West Indies noted by the Admiralty The expedition sailed on all Fools day 1791 and returned 17th September 1795 Although Vancouver suffered from acute ill health a thorough survey of the Southwest coast of Australia and the whole west coast of America from just north of San Francisco to the Aleutian Islands was undertaken He carried out the diplomatic meeting with the Spanish commissioner on the terms of the Nootka Sound Agreement and negotiation with the Hawaiian chiefs for the islands to become a protectorate of Great Britain Alas for all these credible achievements he was never recognised until long after his death Book reviews online PublishedBestsellers website

Barnett, 2017-07 Two of the Northwest Coast's largest cities and its most prominent island are named after the British explorer George Vancouver who is largely unknown despite his unprecedented five year voyage during 1791-95 probably the longest voyage in European history Sailing in the wake of his mentor Captain James Cook Vancouver investigated much of the North Pacific confirming once and for all that the rumored Northwest Passage did not exist His extraordinary expedition was the first to map Puget Sound and named nearly four hundred geographic features from Alaska's Cook Inlet to coastal Oregon He named Point Campbell Point MacKenzie and Point Woronzof in Anchorage as well as Knight and LaTouche Islands Passage Canal and Wells Passage in Prince William Sound In Southeast Alaska he specified Lynn Canal Admiralty and Douglas Islands Berners Bay and Revillagigedo Island In the Pacific Northwest he named Mt Rainier Mt Baker Mt St Helens Mt Hood Port Townsend Bellingham Bay **The Voyage of George Vancouver, 1791-1795** W.Kaye Lamb, 2017-07-05 Four of the greatest maritime exploring expeditions were crammed into two decades late in the 18th century Cook's third voyage the French expedition commanded by La Perouse the Malaspina expedition sent out by Spain and George Vancouver's Voyage of Discovery All four visited the northwest coast of North America but weather and circumstances prevented Cook from making more than what Beaglehole calls a magnificent epoch making reconnaissance La Perouse only touched the coast in a significant way at Yakutat Bay and Lituya Bay and Malaspina's memorable visits were to Yakutat Bay and Nootka Sound Vancouver by contrast surveyed the enormous extent of coast from Lower California to Cook Inlet and his meticulous survey literally set out on the map of the world the intricacies of Puget Sound and the western coast of mainland Canada It was an achievement that places him with his mentor Cook in the first rank of marine surveyors As a midshipman Vancouver had been with Cook when he discovered the Sandwich Hawaiian Islands in 1778 They attracted his interest and the attention he devoted to the islands their inhabitants and their political future when he twice later wintered there will surprise many This is the first annotated edition of Vancouver's journal as he revised it for publication in 1798 The original manuscript has disappeared but fortunately no fewer than 25 partial or complete logs or journals by other members of the expedition have survived These supplement Vancouver's narrative at many points It has been possible to identify virtually all the host of islands channels and inlets that Vancouver encountered and the provenance of most of the approximately 400 place names he bestowed nine out of ten of which are still in use is indicated This volume in the set includes the remainder of Book 3 all Book 4 part of Book 5 of a new and annotated edition of *A Voyage of Discovery London 1798* The main pagination of this the *The Voyage of George Vancouver, 1791-1795* W.Kaye Lamb, 2017-07-05 Four of the greatest maritime exploring expeditions were crammed into two decades late in the 18th century Cook's third voyage the French expedition commanded by La Perouse the Malaspina expedition sent out by Spain and George Vancouver's Voyage of Discovery All four visited the northwest coast of North America but weather and

circumstances prevented Cook from making more than what Beaglehole calls a magnificent and epoch making reconnaissance. La Perouse only touched the coast in a significant way at Yakutat Bay and Lituya Bay and Malaspina's memorable visits were to Yakutat Bay and Nootka Sound. Vancouver by contrast surveyed the enormous extent of coast from Lower California to Cook Inlet and his meticulous survey literally set out on the map of the world the intricacies of Puget Sound and the western coast of mainland Canada. This is the first annotated edition of Vancouver's journal as he revised it for publication in 1798. The original manuscript has disappeared but fortunately no fewer than 25 partial or complete logs or journals by other members of the expedition have survived. These supplement Vancouver's narrative at many points. It has been possible to identify virtually all the host of islands, channels and inlets that Vancouver encountered and the provenance of most of the approximately 400 place names he bestowed, nine out of ten of which are still in use is indicated. Vancouver's Vengeance Barry Deane Stewart, 2013-07-03. In 1791 Captain George Vancouver is given a great opportunity to gain fame and fortune, sail to the Pacific coast of North America and explore the coastline for the long sought Northwest Passage back across the continent while taking possession of the vast territories of northwest America from the Spanish. Four years later he returns home to dismissal and ridicule. He dies three years later at the age of forty, a sickly impoverished man desperately trying to complete the publication of his journals. What happened? Now there are two large collections of rare books related to the early exploration of northwestern America coming to auction, a major event in the modern world of antiquarian books. Many dealers and individual collectors are positioning themselves to be the successful bidders. The centerpiece of the auctions is a heretofore unknown, astonishing copy of the journals of George Vancouver, printed over two hundred years ago. How much will it sell for? Is this in some way a vindication of Vancouver, maybe even his vengeance? The emergence of the special copy of Vancouver's journals causes President Ray Cartwright to re-examine the unique Sir Francis Drake document he bought years ago. Is it really legitimate? How can he find out? What should he do if it's a fake?

Navigating by the Southern Cross Kenneth Morgan, 2021-01-28. In this comprehensive study Kenneth Morgan provides an authoritative account of European exploration and discovery in Australia. The book presents a detailed chronological overview of European interests in the Australian continent from initial speculations about the Great Southern Land to the major hydrographic expeditions of the 19th century. In particular, he analyses the early crossings of the Dutch in the 17th century, the exploits of English buccaneer adventurer William Dampier, the famous voyages of James Cook and Matthew Flinders and the little known French annexation of Australia in 1772. Introducing new findings and drawing on the

latest in historiographical research this book situates developments in navigation nautical astronomy and cartography within the broader contexts of imperial colonial and maritime history Vancouver in California, 1792-1794 George Vancouver,1953 **Report of the Provincial Archivist** Provincial Archives of British Columbia,1914 **Vancouver in California, 1792-1794** George Vancouver,1954 *The Northwest Coast* Barry M. Gough,2011-11-01 The voyages of Cook and Vancouver heralded a vast influx of irrepressible Europeans fur traders whalers administrators visitors missionaries miners botanists and sailors people of every class and distinction They came to conquer the Pacific its islands and its continents for God gold and glory They brought with them their morals ideologies knowledge technology plants and animals They also brought diseases rum and guns They brought with them powers to build and powers to destroy from the Epilogue The Northwest Coast was irrevocably changed the day that Captain James Cook sailed into Nootka Sound in 1778 Cook s discovery of the sea otter population along the coast initiated the maritime fur trade which in turn led to feverish competition among several nations especially Britain Russia and the United States as well as the celebrated rivalry between Spain and Britain for control of Nootka By 1812 a toe hold of British empire was established and the aboriginal way of life was shattered The Northwest Coast documents Britain s rise to pre eminence in this far flung corner of the empire It shows how the relentless activities of its commercial interests the adroit use of its naval power and the steely resolve of its diplomats secured British claims to dominion and rights to trade along the Northwest Coast Written by a leading maritime scholar and based on fresh research into known manuscripts and printed works on Pacific trade and exploration this book incorporates new interpretations on exploration and commercial activity in this area It documents the interaction often violent between British sailors and aboriginal people depicts many of the rivalries among British mariners and examines various claims to the discovery of the Northwest Passage The Northwest Coast significantly expands and updates the author s award winning book *Distant Dominion* Gough s compelling narrative combined with his extensive use of quotations from the journals and correspondence of explorers and merchant traders provide insights into the motives and attitudes of these early pioneers of the empire
