George Washington Children Of History Vol 1:

Profiles from History Volume 1 Ashley M. Wiggers, 2009 Profiles from History takes a fresh look at familiar faces. Along with beautiful illustrations and fascinating stories, this book encourages children to think about the motivations of twenty historical figures. Activities and discussion questions help students recognize the effect these individuals have had on history. The profiles include Marco Polo, Johannes Gutenberg, William Bradford, Squanto, Galileo, Christopher Columbus, John Smith, Leonardo da Vinci, Pocahontas, William Shakespeare, Michelangelo, James Cook, George Frideric Handel, Benjamin Franklin, Meriwether Lewis, William Clark, Thomas Jefferson, Sacagawea, Mozart, Zebulon Pike, Francois Millet, and Jesse Applegate. Did you know Benjamin Franklin had such an impact that nearly 20,000 people attended his funeral? Johannes Gutenberg invented the printing press to make the written word available to all, not just the wealthy. Pocahontas bravely risked her life on more than one occasion to save others. Francois Millet was one of the first to paint common people with honor and dignity. Jesse Applegate blazed a safer trail out west so that others would never have to experience his pain. Profiles include a variety of fun activities such as crossword puzzles, word scrambles, and sequencing. Timeline figures add depth and perspective. Make learning personal and memorable with Profiles from History.

Washington's End Jonathan Horn, 2021-02-09 Popular historian and former White House speechwriter Jonathan Horn provides a captivating and enlightening look at George Washington's post-presidential life and the politically divided country that was part of his legacy. New York Journal of Books Beginning where most biographies of George Washington leave off, Washington's End opens with the first president exiting office after eight years and entering what would become the most bewildering stage of his life. Embittered by partisan criticism and eager to return to his farm, Washington assumed a role for which there was no precedent at a time when the kings across the ocean yielded their crowns only upon losing their heads. In a different sense, Washington would lose his head too. In this riveting read, bestselling author Jonathan Horn reveals that the quest to surrender power proved more difficult than Washington imagined and brought his life to an end he never expected. The statesman who had staked his legacy on withdrawing from public life would feud with his successors and find himself drawn back into military command. The patriarch who had dedicated his life to uniting his country would leave his name to a new capital city destined to become synonymous with political divisions. A movable feast of
