George Horace Lorimer The Saturday Eve:

Creating America Jan Cohn, 2010-11-23 Before movies radio and television challenged the hegemony of the printed word the Saturday Evening Post was the preeminent vehicle of mass culture in the United States And to the extent that a mass medium can be the expression of a single individual this magazine with a peak circulation of almost three million copies a week was the expression of its editor George Horace Lorimer Cohn shows how Lorimer made the Post into a uniquely powerful magazine that both celebrated and helped form the values of the time **Letters from a Self-Made Merchant to His Son** George Horace Lorimer, 2014-10-01 Buy this newly revised version of the American classic and get the Kindle edition free George Horace Lorimer was an American journalist and author He is best known as the editor of The Saturday Evening Post His Letters From A Self Made Merchant To His Son is a timeless collection of Gilded Age aphorisms from a rich man a prosperous pork packer in Chicago to his son Pierrepont whom he affectionately calls Piggy The writing is subtle and brilliant One of the under rated masterpieces of early American literature F R Brown **The Romance of Regionalism in the Work of F. Scott and Zelda Fitzgerald** Kirk Curnutt, Sara A. Kosiba, 2022-09-07 The Romance of Regionalism in the Work of F Scott and Zelda Fitzgerald The South Side of Paradise explores resonances of Southernness in works by American culture s leading literary couple At the height of their fame F Scott and Zelda Fitzgerald dramatized their relationship as a romance of regionalism as the charming tale of a Northern man wooing a Southern belle Their writing exposes deeper sectional conflicts however from the seemingly unexorcisable fixation with the Civil War and the historical revisionism of the Lost Cause to popular culture s depiction of the South as an artistically deprived economically broken backwater the couple challenged early twentieth century stereotypes of life below the Mason Dixon line From their most famous efforts The Great Gatsby and Save Me the Waltz to their more overlooked and obscure Scott s 1932 story Family in the Wind Zelda s The Iceberg published in 1918 before she even met her husband Scott and Zelda returned obsessively to the challenges of defining Southern identity in a country in which going south meant decay and dissolution Contributors to this volume tackle a range of Southern topics including belle culture the picturesque and the Gothic Confederate commemoration and race relations and regional reconciliation As the collection demonstrates the Fitzgeralds fortuitous meeting in Montgomery Alabama in 1918 sparked a Southern renaissance in miniature *David Graham Phillips* Abe C. Ravitz, 1966 [White Collar Fictions](#) Christopher P. Wilson, 2010-08-01 In White Collar Fictions Christopher P Wilson explores how turn of the century literary representations of white collar Americans the middle social strata H L Mencken dismissed as boobus Americanus were actually part and parcel of a new social class coming to terms with its own power authority and contradictions An innovative study that integrates literary analysis with social history research the book reexamines the life and work of Sherwood Anderson and Sinclair Lewis as well as such nearly forgotten authors as O Henry Edna Ferber Robert Grant and Elmer Rice Between 1885 and 1925 America underwent fundamental social changes The family business faded with the rise

of the modern corporation mid level clerical work grew rapidly the white collar ranks sales clerks accountants lawyers advertisers middle managers and professionals expanded between capital and labor During this same period Wilson shows white collar characters took on greater prominence within American literature and popular culture Magazines like the Saturday Evening Post idolized average Americans while writers such as Sherwood Anderson and Sinclair Lewis produced portraits of middle America in Winesburg Ohio and Babbitt By investigating the material experience and social vocabularies within white collar life itself Wilson uncovers the ways in which writers helped create a new cultural vocabulary Babbitt the little people the Average American That served to redefine power authority and commonality in American society

The Pulse of Politics James David Barber, 2017-09-29 Every four years journalists propel a presidential campaign into the national consciousness New candidates and issues become features of the political landscape while familiar rituals are reshaped by the unpredictability of personalities and events Underlying this apparent process of change however is a recurrent cycle of political themes and social attitudes a pulse of politics that locks the process of choosing a president into a predictable pattern In this bold and brilliant examination of modern presidential politics James David Barber reveals the dynamics of this cycle and shows how the pattern of drift and reaction may be broken in this most critical of political choices Barber probes beneath the surface of campaigns to detect a steady rhythm of major political motifs The theory he advances in colorful narrative chapters is that three dominant themes conflict conscience conciliation recur in foreseeable twelve year cycles A combative campaign Truman vs Dewey in 1948 is followed four years later by a moral crusade Eisenhower vs Stevenson in 1952 which in turn is succeeded by a contest to unify the nation the Eisenhower Stevenson rematch in 1956 The pattern is then renewed the fierce combat between Kennedy and Nixon in 1960 was followed in 1964 by the contest of principle between Johnson and Goldwater In 1968 Richard Nixon defeated Hubert Humphrey by promising to bring the nation together Monitoring shifting national political moods is a new elite the journalists Barber makes the case that the party system increasingly clumsy and inflexible can no longer pick up the beat of politics Instead it is through newspapers magazines and television that the main themes of a campaign are sounded created and destroyed This new edition of *The Pulse of Politics* provides a timely guide to the themes of the 1992 presidential campaign and to future elections It will be of special interest to political scientists historians media analysts and journalists

National Identities and Post-Americanist Narratives Donald E. Pease, 1994 National narratives create imaginary relations within imagined communities called national peoples But in the American narrative alongside the nexus of belonging established for the national community the national narrative has represented other peoples women blacks foreigners the homeless from whom the property of nationness has been removed altogether and upon whose differences from them the national people depended for the construction of their norms Dismantling this opposition has become the task of post national Post Americanist narratives bent on changing the assumptions that found the national identity This volume originally published as a special issue of *boundary 2* focuses on the

process of assembling and dismantling the American national narrative sketching its inception and demolition The contributors examine various cultural political and historical sources colonial literature mass movements epidemics of disease mass spectacle transnational corporations super weapons popular magazines literary texts out of which this narrative was constructed and propose different understandings of nationality and identity following in its wake Contributors Jonathan Arac Lauren Berlant Robert J Corber Elizabeth Freeman Kathryn V Lingberg Jack Matthews Alan Nadel Patrick O Donnell Daniel O Hara Donald E Pease Ross Posnock John Carlos Rowe Rob Wilson *The Great Depression in America* William H. culture public image and esteem within U S society evolved Folse demonstrates that the American people measured the Marines usefulness not only in terms of military readiness but also according to standards of manliness set by popular culture and by Marines themselves The Marines claimed to recruit the finest specimens of American manhood and make them even better strong brave and morally upright They claimed the Marine would be a man with a wealth of travel and experience behind him He would be a proud and worthy citizen who had earned respect through his years of service training and struggle in the Marine Corps Becoming a Marine benefited the man and the new Marine benefited the nation As men became manlier the country did too *Media Today* Joseph Turow,2008-09-25 Media Today puts students at the center of profound changes in the twenty first century media world from digital convergence to media ownership and gives them the skills to think critically about what these changes mean for the role of media in their lives American Education in Popular Media S.
