characters have entertained media audiences for almost a century outliving the human stars who were once their contemporaries in studio era Hollywood In *Animated Personalities* David McGowan asserts that iconic American theatrical short cartoon characters should be legitimately regarded as stars equal to their live action counterparts not only because they have enjoyed long careers but also because their star personas have been created and marketed in ways also used for cinematic celebrities Drawing on detailed archival research McGowan analyzes how Hollywood studios constructed and manipulated the star personas of the animated characters they owned He shows how cartoon actors frequently kept pace with their human counterparts granting interviews allowing candid photographs endorsing products and generally behaving as actual actors did for example Donald Duck served his country during World War II and Mickey Mouse was even embroiled in scandal Challenging the notion that studios needed actors with physical bodies and real off screen lives to create stars McGowan demonstrates that media texts have successfully articulated an off screen existence for animated characters
