## **Gerencia Social En America Latina:**

**Desafíos de la gerencia social en América Latina** Isabel Licha,2019-05-16 En esta obra se lida pero a la vez refrescante su autora invita a adentrarnos en la temática desde la práctica y la reflexión crítica acerca de la gestión del desarrollo en un contexto como el de América Latina, región caracterizada por distintas agencias de desarrollo y múltiples estudios e informes como la más desigual del mundo. El trabajo se centra en el análisis de los desafíos que enfrenta el enfoque y la práctica de la Gerencia Social en el contexto regional con el propósito de revalorar la pertinencia y relevancia que mantiene dicho paradigma. Los desafíos temáticos y prácticos de la GS en este trabajo son de carácter global y regional planteados y estudiados por tomadores de decisión y académicos destacados que debaten en foros internacionales con base en prácticas y estudios sobre el tema y también validados por un grupo de destacados gerentes sociales en ejercicio y académicos de la región entrevistados para los fines de este estudio. Las cuatro partes que conforman el libro los desafíos de la gerencia social, las voces desde el campo de trabajo, el análisis del debate actual y las conclusiones aportan sugerencias para buscar nuevos caminos subrayando un conjunto de temas estratégicos que contribuyen a reposicionar el enfoque de Gerencia Social en el ámbito de la gestión pública y a incidir en un replanteamiento de la agenda académica sobre el tema en América Latina.

Recogemos nuestra experiencia y desarrollos en este campo y nos esforzamos en su tematización como una categoría fundada en el concepto de valor público trabajado por Mark Moore articulando la Gerencia Social a las dimensiones política social e histórica y en particular a la humana de los sujetos destinatarios de los servicios sociales mediante el respeto de los derechos humanos y su papel como actores sociales dinámicos. Por tratarse de un campo temático práctico se incluyen algunos capítulos dedicados a brindar herramientas metodológicas y técnicas con enfoque prospectivo y estratégico de gestión de proyectos y evaluación de intervenciones sociales. Uno de los propósitos centrales del libro lo constituye el habilitar a los profesionales de las Ciencias Sociales de herramientas para la intervención social dado que constantemente expresan su deseo de adquirirlas ya sea por ser ésta una de las falencias de la formación actual en las Ciencias Sociales o porque profesionales de otras disciplinas han incursionado en los temas sociales.
