Gerhard Herzberg An Illustrious Life In Science:

Gerhard Herzberg: An Illustrious Life in Science Boris P. Stoicheff, National Research Council Canada, 2002 A biography of one of the most influential scientists in the twentieth century **Sensational Scientists** Barry Shell, 2005 Learn about some great Canadian scientists **Northern Star** R. Peter Broughton, 2018-01-18 John Stanley Plaskett was Canada's pre eminent astronomer in the first half of the twentieth century His legacy lives on in the observatory he founded in Victoria British Columbia and the reputation he built for Canada as a nation making vital contributions to basic science Plaskett's pioneering work with the most massive stars and his definitive determination of the rotation of the Milky Way Galaxy earned him international recognition of the highest order Northern Star explores Plaskett's unorthodox and fascinating life from his rural roots near Woodstock Ontario through his days as a technician at the University of Toronto to his initiation in astronomy at the Dominion Observatory in Ottawa His greatest achievements followed after he persuaded the government of Canada in spite of the strictures of the First World War to finance what was then the world's largest operational telescope Peter Broughton's accessible and engaging prose illuminates Plaskett's numerous achievements and the social political economic and religious milieu surrounding them This richly illustrated volume invites readers to understand the pull that Plaskett's passions personality and motivations exerted on him during his lifetime Judging Edward Teller Istvan Hargittai, Professor and Head of the Structural Chemistry Research Group of the Hungarian Academy of Sciences Istvan Hargittai, 2010-12-31 A personal acquaintance of Teller's presents the definitive balanced portrait of the scientist against the backdrop of a turbulent period of history and reveals the contradictory nature of this complex man in all his strengths flaws and brilliance Fascinating Canada John Robert Colombo, 2011-05-27 Few people have read as widely in the field of Canadiana as has John Robert Colombo The curiosity of this Toronto writer editor and anthologist knows few if any bounds when it comes to the lore literature history culture and character of Canada He has an inquiring mind and he seems able to find national and even international twists to subjects of interest or importance Fascinating Canada his latest book is the product of over half a century of research reading writing and thinking Some years ago the author produced a trilogy of question and answer books 1 000 Questions about Canada 999 Questions about Canada 1 000 Questions about Canada The first two were published by Doubleday Canada the third one in 2001 by Dundurn Press The same format is adapted to the material in the present book but this time the majority of the questions are short whereas a good many of the answers are quite long discussions of the subjects at hand concise questions followed by considered answers Here is a book about the Canadian past present and future The information in Fascinating Canada is organized under four headings People Places Things Ideas and there is a detailed Index for ready reference This book may serve as a work of popular reference but it has been written to stimulate inquiry and spark the sense of surprise in the minds of readers who know something about this amazing country but perhaps not as much as the author Open this book and begin to read and match wits with author

and researcher John Robert Colombo **The Canadian Light Source** G. Michael Bancroft, Dennis Johnson, 2020-08-26 The creation of the Canadian Light Source CLS in Saskatoon which began operation in 2004 was the largest science project in Canada in the last fifty years The multi beam facility operates more than five thousand hours per year and has more than one thousand Canadian and international users from a wide range of science medical and engineering disciplines This book describes the decades of intense research from many scientists to justify this project and the resulting outstanding research covering many areas of the physical biological medical and agricultural sciences With personal accounts and frank narration this book describes the long history leading to the CLS beginning in Saskatoon in the 1930s The core of the book highlights the remarkable and unselfish collaboration and cooperation of a few hundred people from Canadian and international universities governments and industry showcasing how the Canadian Light Source represents pure and applied research at its finest *Research and Reform* Richard A. Rempel, 2013-07 The untold story of a Canadian pioneer in genetics undergraduate science education and the establishment of Medicare Perspectives of Saskatchewan Jene M. Porter, 2008-11-01 At the turn of the nineteenth century Saskatchewan was one of the fastest growing provinces in the country In the early 1900s it revolutionized the Canadian political landscape and gave rise to socialist governments that continue to influence Canadian politics today It was the birthplace of Canada s publicly funded health care system and home to a thriving arts and literary community that helped define western Canadian culture In Perspectives of Saskatchewan twenty one noted scholars present an in depth look at some of the major developments in the province s history including subjects such as art literature demographics politics northern development and religion It lays the foundations for a greater understanding of Saskatchewan s unique history identity and place in Canada **Nuclear Dawn** Kenneth D. McRae, 2014-03-20 This book provides a rounded biography of Franz later Sir Francis Simon his early life in Germany his move to Oxford in 1933 and his experimental contributions to low temperature physics approximating absolute zero After 1939 he switched his research to nuclear physics and is credited with solving the problem of uranium isotope separation by gaseous diffusion for the British nuclear programme Tube Alloys The volume is distinctive for its inclusion of source materials not available to previous researchers such as Simon s diary and his correspondence with his wife and for a fresh well informed insider voice on the five power nuclear rivalry of the war years The work also draws on a relatively mature nuclear literature to attempt a comparison and evaluation of the five nuclear rivals in wider political and military context and to identify the factors or groups of factors that can explain the results *Mathematicians on Creativity* Peter Borwein, Peter Liljedahl, Helen Zhai, 2018-09-06 This book aims to shine a light on some of the issues of mathematical creativity It is neither a philosophical treatise nor the presentation of experimental results but a compilation of reflections from top caliber working mathematicians In their own words they discuss the art and practice of their work This approach highlights creative components of the field illustrates the dramatic variation by individual and hopes to express the vibrancy of creative minds at

work *Mathematicians on Creativity* is meant for a general audience and is probably best read by browsing **Finding the Big Bang** P. James E. Peebles, Lyman A. Page, R. Bruce Partridge, 2009-03-26 A collection of essays on research on CMBR in the 1960s by eminent cosmologists who pioneered the work **The Dense Interstellar Medium in Galaxies** Susanne Pfalzner, Carsten Kramer, Christian Straubmeier, Andreas Heithausen, 2012-12-06 The Cologne Bonn Zermatt symposium is a well established series of conferences occurring on a 5 year cycle on the dense interstellar medium and related topics The main results constitute valuable proceedings that offer everyone working in this field an authoritative and comprehensive source of reference **Canadian Books in Print.
