**Geriatric Neurology** ,2019-11-19 Geriatric Neurology Volume 167 serves as an update on the basic biological and behavioral mechanisms underlying the aging process with an emphasis on neurological aging and state of the art reviews on our understanding of vascular cognitive neurodegenerative and neuropsychiatric diseases in the elderly Developed with an eye to providing both the basic underpinnings of age related changes and the clinical information necessary to aid in diagnostics and treatment the book serves as a useful volume for students basic and translational scientists and practicing clinicians on how to understand and treat common neurological disorders in the elderly Reviews the foundations of geriatric neurology including the fundamentals of age associated changes in molecular biology altered pharmacokinetics and psychopharmacology that make drug therapy in the elderly different from younger patients Contains major advances in our understanding of neurodegenerative diseases Features contributions from world leaders in geriatric neurology the broadest most expert coverage available      **Anxiolytics** Mike Briley,David Nutt,2000-09-01 For over thirty years the benzodiazepines monopolised not only the anxiolytic market but also clinical and animal research in anxiety Indeed many animal tests developed since the 1960s have been optimised for the benzodiazepines and some programmes have even screened candidates as potential anxiolytics on their benzodiazepine like side effects rather than their anxiolytic activity With the realisation of the drawbacks of the benzodiazepines namely their potential for tolerance and dependency there has been a renewed interest in alternative anxiolytics both from existing drugs such as the tricyclic and monoamine oxidase antidepressants and from newer agents such as buspirone In addition anxiety is no longer considered to be a unique entity but rather an umbrella term for a series of specific anxiety disorders such as panic disorder without or with agoraphobia generalised anxiety disorder GAD specific phobias social phobias and post traumatic stress disorder PTSD These new clinical categories have opened another dimension in the therapy of anxiety requiring the optimisation of treatments for different syndromes This book is a critical review of today s anxiolytics and those that may become the anxiolytics of tomorrow What is clear is that currently there are few clinically satisfactory alternatives to the benzodiazepines for the treatment of acute anxiety For chronic anxiety it is generally agreed that benzodiazepines are not the treatment of first choice The tricyclic and

monoamine oxidase antidepressants the serotonin reuptake inhibitors and buspirone offer better solutions for chronic anxiety but they are still far from being ideal      Office Care Geriatrics Thomas C. Rosenthal, Mark E. Williams, Bruce J.

Naughton, 2006 This practical ready access reference provides clinicians and students with evidence based strategies for the care of older patients The book is organized to yield quick answers to questions arising during the patient encounter The contributors offer pragmatic management guidelines appropriate for the complexities of multiple problems and advanced age and emphasize a disease management approach      Bathing Without a Battle Ann Louise Barrick PhD, Joanne Rader RN, MN, PMHNP, Beverly Hoeffler DNSc, RN, FAAN, Philip D. Sloane MD, MPH, Stacey Biddle COTA/L, 2008-03-10 2008 AJN Book of

the Year Winner Like its popular predecessor the new edition of Bathing Without a Battle presents an individualized problem solving approach to bathing and personal care of individuals with dementia On the basis of extensive original research and clinical experience the editors have developed strategies and techniques that work in both institution and home settings Their approach is also appropriate for caregiving activities other than bathing such as morning and evening care and for frail elders not suffering from dementia For this second edition the authors have included historical material on bathing and substantially updated the section on special concerns including Pain Skin care Determining the appropriate level of assistance Transfers The environment An enhanced final section addresses ways to support caregivers by increasing their understanding of the care recipient's needs and their knowledge of interventions to improve care and comfort It also emphasizes self care and system level changes to promote person directed care Several chapters include specific insights and wisdom from direct caregivers      Geriatric Rehabilitation Jennifer Bottomley, 2024-06-01 As the aging population

continues to increase so does the need for a text specific to the specialized care of the elderly patient as it applies to the physical therapist assistant student faculty and clinician Geriatric Rehabilitation A Textbook for the Physical Therapist Assistant recognizes the growing role of the PTA in a variety of health care settings from acute to home to long term care settings to name a few Inside Geriatric Rehabilitation Dr Jennifer Bottomley along with her contributors focuses on the clinically relevant assessment treatment and management of the geriatric population Pathological manifestations commonly seen in the elderly patient are addressed from a systems perspective as well as a focus on what is seen clinically and how it affects function Each pathological area covered includes Screening assessment and evaluation Treatment prescription Goal setting Modification of treatment Anticipated outcomes Psychosocial pharmacological and nutritional elements The organization and presentation of the practical hands on components of interventions assessments and decision making skills make this a go to text for the PTA to administer comprehensive geriatric care at each point along the continuum of care Some of the features inside include Emphasis on treatment interventions techniques tips and options Focus on how assessment tools and treatments are applied and modified to benefit the geriatric population and what the expected outcomes are Clear and outlined chapter objectives User friendly summary tables in the nutritional and pharmacology
