Geriatrics At Your Fingertips:

Geriatrics at Your Fingertips David B. Reuben, Keela A. Herr, James T. Pacala, Jane F. Potter, Todd P. Semla, 2016
Geriatrics At Your Fingertips GAYF is an annually updated reference that provides quick easy access to the specific information clinicians need to make decisions about the care of older adults Included in this updated 18th edition among other updates are a new section on the diagnosis and treatment of hypercalcemia a section on the systemic inflammatory response syndrome SIRS newly created tables of commonly used medications that should be avoided or dosage reduced with kidney disease and common clinically important drug drug interactions and a reorganized and expanded section on medical marijuana

Geriatrics at Your Fingertips 2013 David B. Reuben, 2013 Geriatrics At Your Fingertips is an essential tool in evaluating and managing the diseases and disorders that most commonly affect older persons It is an excellent tool for all practicing clinicians including physicians nurse practitioners nurses physician assistants and pharmacists as well as professionals in training in all of these disciplines

Geriatrics At Your Fingertips 2003 5e David B Reuben, Keela Herr, James T Pacala, Bruce Pollock, Jane Potter, Todd P Semla, 2003-02-21 The fifth edition of Geriatrics at Your Fingertips is a portable practical and economical tool for professionals who provide primary care to older persons Content focuses on the evaluation and management of the diseases and disorders that most commonly affect older persons in various healthcare settings GAYF minimizes the time clinicians spend searching for the information that they need to make patient care decisions Many of the care strategies are derived from guidelines published by organizations such as the Agency for Health Care Policy and Research the American Heart Association and the American Diabetes Association among others GAYF describes assessment instruments recommended diagnostic tests and management strategies that include non pharmacologic and pharmacologic therapy The design of the tables and lists of drugs facilitates appropriate prescribing Generic and trade names are provided as well as information on dosages how the drugs are metabolized or excreted and how each drug is supplied with special emphasis on impact in older patients Body system disorders such as respiratory diseases symptoms like pain and life style issues such as alcohol and tobacco abuse are covered in separate chapters At the end of the book are lists of telephone numbers and Web sites that serve as additional resources for specific information on general aging end of life legal issues and elder abuse and specific health problems

GERIATRICS AT YOUR FINGERTIPS. DAVID B. REUBEN, 2018

Geriatrics at Your Fingertips , **Geriatrics At Your Fingertips 2002 Edition** David B. Reuben, Keela Herr, James T. Pacala, Bruce Pollock, Jane Potter, Todd P. Semla, 2002-03-22 The fourth

edition of Geriatrics at Your Fingertips is a portable practical and economical tool for professionals who provide primary care to older persons. Content focuses on the evaluation and management of the diseases and disorders that most commonly affect older persons in various healthcare settings. GAYF minimizes the time clinicians spend searching for the information that they need to make patient care decisions. Many of the care strategies are derived from guidelines published by organizations such as the Agency for Health Care Policy and Research, the American Heart Association, and the American Diabetes Association, among others. GAYF describes assessment instruments, recommended diagnostic tests, and management strategies that include non-pharmacologic and pharmacologic therapy. The design of the tables and lists of drugs facilitates appropriate prescribing. Generic and trade names are provided, as well as information on dosages, how the drugs are metabolized or excreted, and how each drug is supplied, with special emphasis on impact in older patients. Body system disorders such as respiratory diseases, symptoms like pain, and life style issues such as alcohol and tobacco abuse are covered in separate chapters. At the end of the book are lists of telephone numbers and Web sites that serve as additional resources for specific information on general aging, end of life, legal issues, and elder abuse, and specific health problems.

Geriatric Anesthesiology J. G. Reves, Sheila Ryan Barnett, Julie R. McSwain, G. Alec Rooke, 2017-10-27. Surgical and anesthetic techniques have evolved to allow a growing number of older adults to undergo surgery, and current estimates are that 50% of Americans over the age of 65 years old will have an operation. However, as the knowledge regarding perioperative care of the elderly surgical patient grows, so do the questions. In this edition, each chapter includes a section entitled Gaps in Our Knowledge, meant to highlight areas in which research is needed, as well as hopefully inspire readers to begin solving some of these questions themselves. Building upon the strong foundation of the first two editions, Geriatric Anesthesiology 3rd edition also assembles the most up-to-date information in geriatric anesthesia and provides anesthesiologists with important new developments. Topics covered include several new chapters that reflect the evolution of multidisciplinary geriatric care throughout the perioperative continuum, as well as the growing body of literature related to prehabilitation. In addition, discussion of the surgeon's perspective and geriatrician's perspective on surgery in the geriatric population is covered, as well as the systematic physiologic changes associated with aging and the pharmacologic considerations for the geriatric patient undergoing procedures. Finally, the last section discusses postoperative care specific to the geriatric population, including acute pain management, ICU management, recent evidence, and up-to-date practice regarding delirium and postoperative cognitive dysfunction and palliative care.

Geriatric Anesthesiology Jeffrey Silverstein, Alec Rooke, J. G. Reves, Charles H. McLeskey, 2008-04-16. Geriatric anesthesia is a rapidly growing and evolving field, and this is the major revision of a classic anesthesia reference. The last few years have seen significant advancements and important new modalities for addressing the needs of an aging population. The editors of this second edition are uniquely situated to put together a text highlighting both essential knowledge and recent breakthroughs of importance to all who work with the

elderly This edition easily maintains the high standard for quality scholarship and useful material set by the first

Geriatrics Patrick M. Kortebein, Kevin W. Means, 2012-07-20 Designed for the busy practitioner Geriatrics presents 97 alphabetically arranged topics covering all major concerns in geriatric rehabilitation ranging from age related changes to end of life care The first section reviews topics related to normal aging and assessment methods to measure systemic changes The second section addresses common aging associated diseases and disorders affecting relevant organ systems including neurologic musculoskeletal rheumatologic and cardiovascular problems and other key concerns such as functional decline incontinence and visual impairments The last section highlights special considerations such as aging with a developmental disability exercise pain management polypharmacy and rehabilitation in various healthcare settings Taken together the book catalogs the broad range of functional issues endemic in the elderly population and offers a quick reference guide for rehabilitation professionals providing high quality clinical care to older patients Every entry is standardized for quick look up in the office or clinic and features description etiology risk factors clinical features natural history diagnosis red flags treatment prognosis helpful hints and suggested readings All Rehabilitation Medicine Quick Reference Titles Offer Consistent Approach and Organization at a glance outline format allows readers to find the facts quickly Concise Coverage of must know information broken down into easy to locate topics Fast Answers to Clinical Questions diagnostic and management criteria for problems commonly encountered in daily practice Hands on Practical Guidance for all types of interventions and therapies Multi Specialty Perspective ensures that issues of relevance to all rehabilitation team members are addressed Advances in Geriatric Dermatology Anne Lynn S. Chang, 2015-07-24 This concise easy to read book summarizes the current clinical evidence and basic science relating to aging and the skin assisting the clinician in addressing skin problems in older dermatologic patients Each chapter focuses on a particular area in which new knowledge has rapidly emerged over the past 5 years ensuring that the book is completely up to date Recent insights into aging skin from basic and translational science are first discussed covering the underlying genetics and the potential role of topical agents and procedures in reversing the aging process Evidence based prescribing in older patients is then explained and the evidence relating to treatments for psoriasis reviewed Further chapters in Geriatric Dermatology address non surgical treatment options for basal cell carcinoma the increase in and management of sexually transmitted diseases in older dermatology patients and cutaneous signs of elder mistreatment Case vignettes and informative illustrations assist the reader in quickly grasping the connection between an age related process and its clinical impact Geriatric Dermatology is written for dermatologists research scientists with translational interest geriatricians and gerontologists Nutrition for the Older Adult Melissa Bernstein, Ann Luggen, 2010 Nutrition for the Older Adult is a clear comprehensive text that introduces students to nutrition and health promotion for older adults Covering such important topics as the physiological changes of aging weight and nutrition problems in older adults nutritional assessment and support for the elderly and diet and cultural

diversity as well as exercise prescriptions for older adults this text is an essential resource for students in the fields of nutrition nursing and gerontology Primer of Geriatric Urology Thomas J. Guzzo, George W. Drach, Alan J. Wein, 2012-11-05

Primer of Geriatric Urology provides a review of the demographics of our aging urologic population and their unique needs Chapters review alterations that must be considered in the initial evaluation of the aging patient and follow with practical suggestions for development of the management plan whether by counseling medication invasive procedure or foregoing procedures Complications especially likely in the elderly are also discussed The volume also provides a review of the use of necessary adjunctive services such as home care or hospice in the context of Medicare in the USA An important chapter provides hints on urology practice in a nursing home The volume concludes with analysis of specific geriatric entities seen in urology practice Primer of Geriatric Urology will be of great value to urologists residents fellows and allied health professionals including physician s assistants and nurse practitioners who treat urologic patients Additionally this book will also be of interest to primary care providers who treat elderly patients with urologic problems The Encyclopedia of Aging George L. Maddox, 2013-12-11 Comprehensive multidisciplinary encyclopedia dealing with aging processes and older adults Intended for the educated inquirer who needs a brief authoritative introduction to key topics and issues in aging Signed entries contain cross references Contains lengthy bibliography General index **Fundamentals of Geriatric Pharmacotherapy: An Evidence-Based Approach** Lisa C. Hutchison, Rebecca B. Sleeper, 2025-08-14 The Fundamentals of Geriatric Pharmacotherapy 3rd Edition is a comprehensive guide to the safe and effective management of medications in older adults Updated with the latest evidence and treatment recommendations including a new chapter on oncology in older adults it s an essential resource for students pharmacists and clinicians Patient cases clinical pearls and self assessment questions help reinforce learning and support real world application
