This volume features all the frontline users of the mighty P 61 and includes many first hand accounts from pilots and gunners who saw action in the Pacific, Mediterranean and Western Europe. The Great War Display Team Ernie Hoblyn, 2019-05-15. A rare insight into one of Britain's best display teams written by longtime member and early aviation expert Ernie Hoblyn. *Air Trails Pictorial*, 1968. **Il-2 Shturmovik** Jason Nicholas Moore, 2017-05-17. *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1978. **British Escort Destroyers of the Second World War** Les Brown, 2022-05-12. An extensive guide to crafting models of Royal Navy escort destroyers used during World War II. The ShipCraft series provides in depth information about building and modifying model kits of famous warship types. Lavishly illustrated, each book takes the modeller through a brief history of the subject, highlighting differences between ships and changes in their appearance over their careers. This includes paint schemes and camouflage featuring colour profiles and highly detailed line drawings and scale plans. The modelling section reviews the strengths and weaknesses of available kits, lists commercial accessory sets for super detailing of the subjects and provides hints on modifying and improving the basic kit. This is followed by an extensive photographic gallery of selected high quality models in a variety of scales and the book concludes with a section on research references, books, monographs, large scale plans and relevant websites. This volume covers the many variations of Royal Navy wartime escort destroyers, both the purpose built Hunt class and the conversions from older fleet destroyers. The Hunts were built in four groups, Types I to IV, while the old V W classes were modified to Long Range Escort, Short Range Escort and Wair anti aircraft variants. Also included are the fifty ex US flush deckers that became the Town class. With its unparalleled level of visual information, paint schemes, models, line drawings and photographs, this book is simply the best reference for any modelmaker setting out to build any of these numerous escort types. Praise for *British Escort Destroyers of the Second World War*. Another excellent addition to the ShipCraft series. I enjoy building the occasional model warship and have a few destroyers. Not only did I find plenty of inspiration in here, but a number of model producers that I wasn't aware of before. There is also a bibliography at the back which provides plenty of good reference books along with a list of useful websites. Another very nice addition to the series. *Military Model Scene*. **The British National Bibliography** Arthur James Wells, 2007.
