

NOTES THE GERMAN OPPOSITION TO HITLER

German Opposition To Hitler Foundation For Foreign Affairs Series Number 6

Julius Fein

German Opposition To Hitler Foundation For Foreign Affairs Series Number 6:

Books in Series ,1985 Vols for 1980 issued in three parts Series Authors and Titles **German Resistance Against Hitler** Klemens Von Klemperer,1994 Klemens von Klemperer s scholarly and detailed study uncovers the beliefs and activities of numerous individuals who fought against Nazism within Germany and traces their many efforts to forge alliances with Hitler s opponents outside the Third Reich Klemens von Klemperer s scholarly and detailed study uncovers the beliefs and activities of numerous individuals who fought against Nazism within Germany and traces their many efforts to forge alliances with Hitler s opponents outside the Third Reich Measured by conventional standards of diplomacy the foreign ventures of the German Resistance ended in failure The Allied agencies notably the British Foreign Office and the US State Department were ill prepared to deal with the unorthodox approaches of the Widerstand Ultimately the Allies policy of absolute silence the Grand Alliance with the Soviet Union and the demand for unconditional surrender pushed the war to its final denouement disregarding the German Resistance a massive work by a distinguished historian New Statesman and Society a detailed sympathetic and meticulously documented chronicle of German resistance diplomacy Journal of Military History a superbly researched study Financial Times **Documents on German Foreign Policy, 1918-1945, from the Archives of the German Foreign Ministry** Germany. Auswärtiges Amt,1959 **A Study in Diplomacy; the Story of Arthur Bliss Lane** Vladimir Petrov,1971 Why War? Ideology, Theory, and History Keith L. Nelson, Spencer C. Olin,1979 Instead of proposing another theory of war their goal is a more modest one of raising the theoretical consciousness of historians Specifically they argue that 1 ideology does influence theory 2 historians do have ideologies as well as theories about which they are not always conscious or consistent and 3 we can better understand compare and evaluate what historians are saying when we comprehend their ideological and theoretical perspectives They attempt then to classify historical interpretations of war according to their ideological theoretical orientations however covert Perspective Nelson and Olin are concerned with enhancing history s social utility by advancing its capacity to produce generalizations that can explain or predict events and are subject to empirical testing Their exploration of historical generalization focuses on an issue itself of the highest importance the causes of war but their aim is also to create a model for historical generalization applicable to other issues They argue that to understand generalizations in history one must recognize their roots in theory and that historians theories in turn proceed from their own ideologies To demonstrate they survey theories about the causes of war that have come out of conservative liberal and radical ideologies any historian will profit from this rigorous approach to the problem Choice Learned and suggestive this book clarifies much of what is already known and points toward new ways of understanding Library Journal *Collision of Empires* G. Bruce Strang,2016-05-23 Italy s invasion of Ethiopia in 1935 marked a turning point in interwar Europe The last great European colonial conquest in Africa the conflict represented an enormous gamble for the Fascist dictator Benito Mussolini He faced a challenge not only from a stout Ethiopian defence but

also from difficult logistics made worse by the League of Nations half hearted sanctions Mussolini faced down this opposition and Italian troops aided by air superiority and liberal use of yprite gas conquered Addis Ababa within eight months a victory that shocked many military observers of the time with its speed and suddenness The invasion had enormous repercussions on European international relations In the midst of a national election campaign the British National Government had felt constrained to support the League despite fears that sanctions through the League could lead to war with Italy The concentration of the Royal Navy in the Mediterranean Sea alienated Mussolini and placed the French government on the horns of dilemma should France support its military partner Italy or its more important potential ally Great Britain French attempts to mark out a middle ground did little to placate the Duce and the crisis seemed to develop a deep rift between Fascist Italy and the Anglo French democracies while at the same time creating a crisis in Anglo French relations Mussolini turned towards Nazi Germany in an attempt to end his diplomatic isolation during the sanctions episode although Hitler considered the Duce s friendship a mixed blessing The question of American adherence to sanctions increased ill will between British politicians and the Roosevelt administration in Washington as each tended to blame the other for the failure of oil sanctions and the collapse of collective security The international crisis posed similarly thorny problems for the smaller powers of Europe and for Japan and the Soviet Union The crisis impeded common defence against Fascist expansionism while giving impetus to claims of the revisionist powers Despite the tremendous importance of the international crisis however little new work on the subject has appeared in recent decades In this volume an international cast of contributors take a fresh look at the crisis through the lens of new evidence and new approaches to international relations history to provide the most comprehensive coverage of the crisis currently possible and their work provides new frames of reference for exploring imperialism collective security and genocide

The Third Reich Klaus Hildebrand,2003-09-02 Professor Hildebrand gives a masterly and succinct account of Nazi Germany between 1933 and 1945 and then analyses the major problems of interpretation and the extent to which common ground has been achieved by scholars in the field This title available in eBook format Click here for more information Visit our eBookstore at www.ebookstore.tandf.co.uk **History**

After Hitler Philipp Stelzel,2019 A comprehensive account of how German and American historians after World War II tackled the question of the roots of National Socialism History After Hitler traces the development of a transatlantic scholarly community as a key part of the intellectual history of the Federal Republic and of Cold War German American relations

Nazi Germany and the Arab World Francis R. Nicosia,2015 This book investigates the intent and policy of Nazi Germany in the Arab world from 1933 to 1944 It analyzes Germany s support for continued European domination of the Arab states of North Africa and the Middle East and Germany s rejection of truly sovereign Arab states in those regions *Stalin* Stephen Kotkin,2018-11-20 Monumental The New York Times Book Review Pulitzer Prize finalist Stephen Kotkin has written the definitive biography of Joseph Stalin from collectivization and the Great Terror to the conflict with Hitler s Germany that

is the signal event of modern world history In 1929 Joseph Stalin having already achieved dictatorial power over the vast Soviet Empire formally ordered the systematic conversion of the world's largest peasant economy into socialist modernity otherwise known as collectivization regardless of the cost What it cost and what Stalin ruthlessly enacted transformed the country and its ruler in profound and enduring ways Building and running a dictatorship with life and death power over hundreds of millions made Stalin into the uncanny figure he became Stephen Kotkin's *Stalin Waiting for Hitler* 1929 1941 is the story of how a political system forged an unparalleled personality and vice versa The wholesale collectivization of some 120 million peasants necessitated levels of coercion that were extreme even for Russia and the resulting mass starvation elicited criticism inside the party even from those Communists committed to the eradication of capitalism But Stalin did not flinch By 1934 when the Soviet Union had stabilized and socialism had been implanted in the countryside praise for his stunning anti capitalist success came from all quarters Stalin however never forgave and never forgot with shocking consequences as he strove to consolidate the state with a brand new elite of young strivers like himself Stalin's obsessions drove him to execute nearly a million people including the military leadership diplomatic and intelligence officials and innumerable leading lights in culture While Stalin revived a great power building a formidable industrialized military the Soviet Union was effectively alone and surrounded by perceived enemies The quest for security would bring Soviet Communism to a shocking and improbable pact with Nazi Germany But that bargain would not unfold as envisioned The lives of Stalin and Hitler and the fates of their respective dictatorships drew ever closer to collision as the world hung in the balance *Stalin Waiting for Hitler* 1929 1941 is a history of the world during the build up to its most fateful hour from the vantage point of Stalin's seat of power It is a landmark achievement in the annals of historical scholarship and in the art of biography

German Foreign Policy from Bismarck to Adenauer Klaus Hilderbrand, 2013-09-13 First Published in 1989 Tackling the problem of Germany's role in the history of world politics in the nineteenth and twentieth centuries is one of the most interesting tasks of historiography Furthermore the relationship between Britain and Germany is of central significance in understanding this role

Hitler and the Nazi State Martin Collier, Philip Pedley, 2005 A comprehensive resource that helps candidates tackle the intricacies of the relationship between Hitler and his lieutenants and the power structure of the Nazi state This book has been written for Edexcel and with the right level of depth for A2 contains thorough and up to date exam preparation including practice questions advice on what makes a good answer and help for students on how to interpret the questions and plan essays is written by an expert author team who have a wide experience of teaching and examining A level History and focus on exactly what students need to know and how to prepare for the exam

Time Briton Hadden, Henry Robinson Luce, 1942

The Conditions for Peace in Europe David S. Collier, Kurt Glaser, 1969

Hitler and Nazi Germany Stephen J. Lee, 2013-04-15 *Hitler and Nazi Germany* provides a concise introduction to Hitler's rise to power and Nazi domestic and foreign policies through to the end of the Second World War Combining narrative the views of

different historians interpretation and a selection of sources this book provides a concise introduction and study aid for students This second edition has been extensively revised and expanded and includes new chapters on the Nazi regime the SS and Gestapo and the Second World War Expanded background narratives provide a solid understanding of the period and the analyses and sources have been updated throughout to help students engage with recent historiography and form their own interpretation of events

The German Question and the International Order, 1943-48 N. Lewkowicz, 2010-09-30 An analysis of the German Question s influence on the origins of the Cold War arguing that the legal and diplomatic intercourse between the Allies regarding the treatment of the German Question brought forward the elements of intervention and coexistence which formed the basis for a relatively peaceful postwar international order

Hitler's Foreign Policy 1933-1939 Gerhard L. Weinberg, 2010-03-01 Hitler s path to war consisted of two different stages that paralleled the internal development of Germany From 1933 to the end of 1936 he created a diplomatic revolution in Europe From a barely accepted equal Germany became the dominant power on the continent With the remilitarization of the Rhineland the stalemate in the Spanish Civil War the forming of the Axis and the signing of the Anti Comintern Pact the first phase was completed In the second phase the diplomatic initiative in the world belonged to Germany and its partners Germany s march toward war therefore became the central issue in world diplomacy

Germany, Hitler, and World War II Gerhard L. Weinberg, 1995 Reflecting on the greatest war in human history one cannot help but think about the terrible conflict as a whole its leaders its peoples and the puzzles still open about its conduct Leaders on both sides realised that at stake from the very beginning was a complete restructuring of the world order More than a conflict of imperial aggression World War II was about who would live and command the globe s resources and which peoples would disappear entirely because they were believed to be inferior or undesirable by the victor This collection of special studies in twentieth century German and world history illuminates the nature of the Nazi system and its impact on Germany and the world Bringing together essays now widely scattered and several never previously published in English this volume examines the Holocaust the connections between the European and Pacific theatres of war as well as the effects leaders and research problems of World War II By examining the effects of World War II its leaders its problems and the Holocaust this volume provides an illuminating study of the nature of the Nazi system and its impact on Germany and the world

Hitler's Refugees and the French Response, 1933-1938 Julius Fein, 2021-03-01 Julius Fein examines the French response to the large number of German refugees between 1933 and 1938 Fein demonstrates how the Quai d Orsay sought a compromise between the Republican canon which said France must help the persecuted and the factors that limited its willingness to accept refugees including economic depression mass unemployment anti Semitism and anti German sentiment
