GERMAN POETRY FROM THE BEGINNINGS TO 1750

EDITED BY INGRID WALSCHE-ENGEL
FOREWORD BY GEORGE C. SCHOLFIELD

German Poetry From The Beginnings To 175

K Payea

German Poetry From The Beginnings To 175:

The Origins of Free Verse Henry Tompkins Kirby-Smith, 1998 Argues that free verse has deep historical roots and traces them from Milton to contemporary poetry **Germanic Origins** Francis Barton Gummere, 1892 **Germanic origins** F.B. Gummere, **The Collected Writings of Franz Liszt** Janita R. Hall-Swadley, 2013-12-19 In Dramaturgical Leaves Essays about Musical Works for the Stage and Queries about the Stage Its Composers and Performers the third volume in Janita R Hall Swadley s The Collected Writings of Franz Liszt Liszt heralds his admiration for early nineteenth century opera and musical stage works He honors Gluck the musical prophet as the cultivator of dramatic truth in the Romantic opera Orpheus expounds on Beethoven s harmonic inventions and innovative treatment of form in Fidelio and argues for the latter s incidental music to Goethe s Egmont as the epitome of music organicism a complete unity of words and tone He also comments on Weber s Euryanthe as offering the most progressive musical characterizations and declamation even more so than his popular work Der Freisch tz and on how both works prefigure Wagner s music dramas awards Mendelssohn whose genius Liszt ranks only slightly less than Beethoven s top honors for creating in Midsummer s Night Dream the highest standards of music poetry suggests how Scribe and Meyerbeer s Robert the Devil paints a mental image of art s eternal flames where poet and musician share equal space in the development of music tragedy reveals how the poetic deficiencies in the libretto to Schubert s Alfonso and Estrella are too easily overlooked because of the music s melodic and lyrical supremacy and offers in contrast Auber s Mute from Portici a remarkable text by many historically picturesque musical motives that are universal and nationalistic at the same time Finally Liszt offers an early gender study in music in his essay about Bellini s Montague and Capulet as well as its impact on nineteenth century audiences a look at Boieldieu s White Lady as a sublime depiction of literary music and Donizetti s Favorite as colored with a special type of imagery a laterna magica in Liszt s hand The beloved soprano Pauline Viardot Garcia receives special attention in an essay devoted entirely to her and Liszt proffers a critique of entr acte music as a pointless tradition that dethrones music and insults the artist and composer by making music a palate cleanser This volume includes a detailed discussion about what it meant to be patronized by Liszt and how his support financial literary and musical helped shape many a music career It also offers commentary on how gender in opera was sometimes obscured not only for dramatic interest but also as part of the process of outlining a nation s identity as well as a thorough study of Liszt s concepts of Gestalt theory the Archetype and his musical Weltanschauung his musical world view all revealing his contribution to 19th century music philosophy as it relates to opera Finally a historical review of entr acte music is presented how it began and how it developed to clarify Liszt s stance against it making this volume a necessary read for music historians serious musicians and music connoisseurs alike Summer Session University of Wisconsin--Superior, 1961 A Most Dangerous Book Christopher B. Krebs, 2011-05-02 Traces the five hundred year history and wide ranging influence of the Roman historian s unflattering book about the ancient Germans that was eventually

extolled by the Nazis as a bible The Modern Origins of the Early Middle Ages Ian Wood,2013-09-26 Ian Wood explores how Western Europeans have looked back to the Middle Ages to discover their origins and the origins of their society

Works Thomas Carlyle,1872 **Critical and miscellaneous essays** Thomas Carlyle,1869 The Origins of Protestant Aesthetics in Early Modern Europe William A. Dyrness,2019-05-23 The aesthetics of everyday life as reflected in art museums and galleries throughout the western world is the result of a profound shift in aesthetic perception that occurred during the Renaissance and Reformation In this book William A Dyrness examines intellectual developments in late Medieval Europe which turned attention away from a narrow range liturgical art and practices and towards a celebration of God s presence in creation and in history Though threatened by the human tendency to self assertion he shows how a new focus on God s creative and recreative action in the world gave time and history a new seriousness and engendered a broad spectrum of aesthetic potential Focusing in particular on the writings of Luther and Calvin Dyrness demonstrates how the reformers conceptual and theological frameworks pertaining to the role of the arts influenced the rise of realistic theater lyric poetry landscape painting and architecture in the sixteenth and seventeenth centuries *Adult Catalog: Subjects* Los Angeles County Public Library,1970 **The Journal of Education for Upper Canada** ,1852 Wagner's Ring Cycle and the Greeks Daniel H. Foster,2010-02-04 Through his reading of primary and secondary classical sources as well as his theoretical writings Richard Wagner developed a Hegelian inspired theory linking the evolution of classical Greek politics and poetry This book demonstrates how by turning theory into practice Wagner used this evolutionary paradigm to shape the music and the libretto of the Ring cycle Foster describes how each of the Ring s operas represents a particular phase of Greek poetic and political development Das Rheingold and Die Walk re create epic national identity in its earlier and later stages respectively Siegfried expresses lyric personal identity and Gtterdämmerung destructively culminates with a tragic comedy about civic identity This study sees the Greeks through the lens of those scholars whose work influenced Wagner most focusing on epic lyric and comedy as well as Greek tragedy Most significantly the book interrogates the ways in which Wagner uses Greek aesthetics to further his own ideological goals *Haskalah and Beyond* Moshe Pelli,2012-07-10 *Haskalah and Beyond* deals with the Hebrew Haskalah Enlightenment the literary cultural and social movement in the 18th and 19th centuries in Europe It represents the emergence of modernism and perhaps the budding of some aspects of secularism in Jewish society following the efforts of the Hebrew and Jewish enlighteners to introduce changes into Jewish culture and Jewish life and to revitalize the Hebrew language and literature The author classifies these activities as a cultural revolution In effect the Haskalah was a counter culture intended to modify or replace some of the contemporary rabbinic cultural framework institutions and practices and adopt them for its own envisioned Judaism of the Haskalah The pioneering work of the founding fathers of the early Haskalah had greatly impacted the later developments of the Haskalah in the 19th century Its reception in that century is studied as is the reception of one of the major figures of the early Haskalah Isaac

Euchel and of one of the important German Enlightenment poets and philosophers Johann Gottfried Herder in the 19th century Haskalah The study of reception continues on the language of the sublime and the poetic imagery used in Haskalah melitzah as well as on the three major journals of Haskalah as instruments of change and of disseminating the Haskalah ideology Finally the aftermath of the Haskalah is addressed *The University of Tennessee Register for ... and Announcement for ...* University of Tennessee (Knoxville campus),1929 **Annual Register** Stanford University,1919

Romanticism and the Uses of Genre David Duff,2009-11-12 This wide ranging book explores the generic innovations that drive the Romantic revolution in literature but also the fascination with archaic forms such as the ballad sonnet epic and romance whose revival and transformation make Romanticism a retro as well as a revolutionary movement [Reference](#)
Studies in Medieval History James Westfall Thompson,1923 **History in Mighty Sounds** Barbara Eichner,2012 An indispensable study of nineteenth century German music history and nationalism Music played a central role in the self conception of middle class Germans between the March Revolution of 1848 and the First World War Although German music was widely held to be universal and thus apolitical it participated like the other arts in the historicist project of shaping the nation s future by calling on the national heritage Compositions based on often heavily mythologised historical events and heroes such as the Battle of the Teutoburg Forest or the medieval Emperor Barbarossa invited individual as well as collective identification and brought alive a past that compared favourably with contemporary conditions History in Mighty Sounds mapsout a varied picture of these invented traditions and the manifold ideas of Germanness to which they gave rise exemplified through works by familiar composers like Max Bruch or Carl Reinecke as well as their nowadays little known contemporaries The whole gamut of musical genres ranging from pre and post Wagnerian opera to popular choruses to symphonic poems contributes to a novel view of the many ways in which national identities were constructed shaped and celebrated in and through music How did artists adapt historical or literary sources to their purpose how did they negotiate the precarious balance of aesthetic autonomy and political relevance and how did notions of gender landscape and religion influence artistic choices All musical works are placed within their broader historical and biographical contexts with frequent nods to other arts and popular culture History in Mighty Sounds will be indispensable reading for anyone interested in nineteenth century German music history and nationalism Barbara Eichner is Senior Lecturer in Musicology at Oxford Brookes University **Paths in Heidegger's Later Thought** Günter Figal,Diego D'Angelo,Tobias Keiling,Guang Yang,2020-03-10 If one takes Heidegger at his word then his philosophy is about pursuing different paths of thought rather than defining a single set of truths This volume gathers the work of an international group of scholars to present a range of ways in which Heidegger can be read and a diversity of styles in which his thought can be continued Despite their many approaches to Heidegger their hermeneutic orientation brings these scholars together The essays span themes from the ontic to the ontological from the specific to the speculative While the volume does not aim to present a comprehensive

interpretation of Heidegger's later thought it covers much of the terrain of his later thinking and presents new directions for how Heidegger should and should not be read today. Scholars of Heidegger's later thought will find rich and original readings that expand considerations of Heidegger's entire oeuvre.

Unveiling the Magic of Words: A Report on "**German Poetry From The Beginnings To 175**"

In a world defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their ability to kindle emotions, provoke contemplation, and ignite transformative change is really awe-inspiring. Enter the realm of "**German Poetry From The Beginnings To 175**," a mesmerizing literary masterpiece penned by way of a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve in to the book is central themes, examine its distinctive writing style, and assess its profound affect the souls of its readers.
