addictively readable this book by revealing the past helps guide present and future intelligence efforts **Nazism and War** Richard Bessel, 2009-03-04 An incendiary work of scholarship arguing that racism was the driving force behind Nazism rather than a by product of it essential reading in an age of renewed fears of bigotry tyranny and fascism World War II was the defining event of the twentieth century redrawing the political map in ways that continue to affect nearly the entire human race What was unprecedented however was not simply the war's scale but its causes Unlike previous territorial or political clashes the war launched by Nazi Germany was an ideological one waged to wipe entire peoples and cultures from the face of the earth In *Nazism and War* Richard Bessel one of the preeminent authorities on the social and political history of modern Germany demonstrates that Nazi war was racial struggle Nazi racial struggle was war War was the anvil on which Hitler's worldview was forged German National Socialism emerged triumphant over a country deeply scarred by defeat and eager to reclaim its greatness As a political philosophy Nazism glorified struggle and conflict viewing them as the purpose of a nation and a measure of its overall condition As a political movement and state system Nazism made its ideology real plunging the European continent into a war of annihilation and a sea of blood Nazism destroyed the old Europe and thus helped to create the world in which we live Praise for *Nazism and War* A stimulating and thoughtful volume Richard Overly Literary Review A rich well rounded portrait offers both the serious scholar and the lay reader a concise yet comprehensive perspective on the events and horrors of that period Publishers Weekly An impressive study highly recommended Library Journal Clear engaging and quietly profound Booklist **The Radical Right in Germany** Lee McGowan, 2014-09-25 The Radical Right has represented a major element in German politics and society throughout the history of the united country i.e. since the 1870s though the understandable concentration on the Third Reich 1933-45 has tended to distort the wider picture This book explores the history of the radical right through the full span of Germany's life as a nation thus putting the Third Reich in its natural context and also emphasising that the attitudes and policies of the radical right did not begin with Hitler's pursuit of power in the 1920s or end with his death in the ruins of Berlin **Western Political Theory in the Face of the Future** John Dunn, 1979-05-17 Demonstrates that the major traditions of thought from which the political values of the modern West have emerged are all in crucial respects incoherent or flawed Copyright Libri GmbH All rights reserved
