German Fallschirmjäger In World War II:

The German Fallschirmjäger in World War II Hauptmann Piehl, 1997 This rare volume was originally published in Germany during World War II and now makes its first appearance in an English language edition It is a short study of Germany's paratroops to the end of 1943 This volume contains over 95 rare images of the Fallschirmjäger during training and in action 95 b/w photographs drawings

German Paratroopers Chris McNab, 2000 The idea of using the newly available transport aircraft of the 1930s to deliver surprise assaults by small bodies of shock troops was vigorously developed by the German armed forces in the late 1930s as a part of the blitzkrieg concept

Jump Into Hell Franz Kurowski, 2009-12-15 Action adventure narrative about elite German airborne troops

German Paratroops Robert Kurtz, 2000 The uniforms and equipment of the elite German Fallschirmjäger is the subject of this detailed illustrated study Authentic items smocks dress tunics boots insignia helmets visor caps gloves knee pads and more are shown in superb color photos in both multiple full view and detail shots Unpublished World War II era photos show uniforms and equipment being worn on a variety of war fronts Also included is a short chapter covering other Axis airborne including Italian and Japanese gear

Falling From Grace: The German Airborne In World War II Chris Mason, 2014-08-15 In the late 1930s an aggressive and innovative rearmament program in Nazi Germany gave rise to the tactics of vertical envelopment Pioneering the use of gliders as troop carriers parachutists and the air landing of reinforcements to exploit tactical success the German Wehrmacht used the new technique of airborne warfare with startling success as part of the Blitzkrieg campaign against the Low Countries and France in 1940 When the tactical doctrine used to seize bridges strong points and road junctions in Fall Gelb was transferred to the seizure of an entire island that was heavily defended in 1941 however the German airborne effectively committed suicide In ten days in May 1941 half the airborne forces in the entire German army were killed or wounded on Crete Hitler wrongly ascribed the disaster to a playing out of the surprise factor and banned further parachute operations until 1943 The right conclusions were arrived at by the commander of the German airborne himself General Kurt Student in post battle analysis His own insistence on faulty tactics was devastating The German innovation of vertical envelopment in the 1930s was as revolutionary to modern military tactics as the simultaneous development of the integrated combined arms offensive known today as the Blitzkrieg In putting Billy Mitchell's ideas into practice Luftwaffe General Student demonstrated vision innovative thinking and practical military skill Poor intelligence and reliance on his spreading oil drops tactics for the deployment of his paratroopers the Fallschirmtruppe on Crete however led directly to their removal as a significant weapon from the German arsenal in World War II

Elite German Paratroops In World War II Jeanett Aschoff, 2021-04-21 WWII was the pinnacle of paratrooper action The tactics and technology needed for paratrooper landings had been refined to a point where they could play a decisive role The technology that would replace them especially helicopters was not yet a factor Early in the war the Germans executed the largest paratrooper landing in history on the

Greek Island of Crete Although not flawless it was a success In December 1944 they launched their last paratroop drop with very different results Beginning with an examination of the origins of airborne forces in Germany and Europe during and after World war I this book goes on to look at how the concept of airborne assault was developed by the Nazis during the 1930s leading to the creation of the 7th Flieger Division From the scorching sands of North Africa to the frozen steppe of western Russia paratrooper units fought with courage and skill but it was in Italy where their exploits passed into military legend as the Green Devils of Monte Cassino This book covers that battle and the long fighting withdrawal that followed in scrupulous detail Fallschirmjager Jon Sutherland,Diane Canwell,2010-08-19 A rare collection of personal photographs following Nazi Germany s airborne soldiers on their missions through the Balkans Crete and Russia The photos in this book are taken from an unpublished album that belonged to a member of the elite German Paratroopers First Sgt Wilhelm Plieschen served with Fallschirmjager Machine Gun Battalion 7 which suffered very heavy losses in the invasion of Crete then saw bloody conflict as Hitler s Fire fighters on the Russian Front and later put up fierce resistance in places such as Monte Casino The revealing images that Jon Sutherland has compiled for us depict these struggles in dramatic detail ranging from photographs taken en route to Crete of the paratroopers in a JU52 to 20 May 1941 when Plieschen was dropped over Crete Some show other paratroopers drifting down and others feature formations of German aircraft amidst flak Additionally Sutherland has included amazing images depicting Germans on the deck of the badly damaged and abandoned HMS York in Souda Bay There are photographs showing Major Erich Schulz decorating paratroopers on Crete and the then Commander of the Fallschirmjager General Kurt Student inspecting the troops We later pay witness to Plieschen in Russia where outstanding rare photos of paratroopers in heavy winter camouflage clothing portray the men enduring the heavy fighting that occurred in the region This intriguing book for the military historian consists of 125 contemporary photographs of the German Elite paratrooper regiment the Fallschirmjager during World War II HistoryOfWar org *Fallschirmjäger: German Paratroopers, 1942-1945* François Cochet,2019-01-30 The second volume following the World War II exploits of the famed German parachute unit from the battle of Crete to the surrender of the Third Reich As elite troops the German Fallschirmjager paratroopers were regularly engaged in front line combat during the Second World War Their famed actions such as the fighting in Scandinavia the taking of the Belgian fortress Eden Emal in May 1940 and the Battle for Crete just a year later have given them the reputation of being determined courageous and loyal soldiers This book continues the pictorial history of the Fallschirmjager focusing on the period following the bloody Battle for Crete Used as elite infantry first in the USSR and then in Africa the Fallschirmjager were able to reconnect with their glorious past whether in Italy or on the Greek Islands as they jumped from their Ju 52s to engage the enemy Their hard fighting in Italy helped to cement the legend of the Green Devils with the British General Harold Alexander describing them as tenacious highly trained men hardened by their many actions and combats However during the fighting in Normandy the Ardennes and on the Eastern Front the number of

veterans decreased meaning it was the young German paratroopers who finally surrendered the Third Reich on 8 May 1945

François Cochet's two volumes in the Images of War series are not only an excellent introduction to this force and its combat history in the war but also much much more

An excellent volume The training and uniforms of this elite fighting force are well covered as are descriptions of the battles fought

Army Rumour Service As elite troops the German Fallschirmjäger paratroopers were regularly engaged in front line combat during the Second World War Their famed actions such as the fighting in Scandinavia the taking of the Belgian fortress Eben Emael in May 1940 and the Battle for Crete just a year later have given them the reputation of being determined courageous and loyal soldiers This book covers the early years of the Fallschirmstruppen paratroop units before the beginning of the war until the height of their successes in 1941 after which the Fallschirmjäger were more often deployed in a more traditional way even though high risk actions such as at Monte Cassino the Gran Sasso Raid allowed them to reconnect once more with their glorious past

The very popular Images of War series has established a format with a large number of rare photographs in each book and clear concise text supporting the photographic selection This new addition follows the proven format to provide a graphic history and analysis of German paratroopers in WWII

A valuable study a must read for everybody interested in the topic of German Fallschirmjäger in the Second World War

Volker Griesser author of *The Lions of Carentan* Rudolf Witzig entered the history books as the heroic captor of Belgium's supposedly impregnable fortress Eben Emael in May 1940 the first time that glider borne troops were used in the war To many people he is also known as the commander of the battle group that fired the first shots of the Tunisian campaign

Remarkably next to nothing has been written about him as an individual This biography completed with the full support of Witzig's widow and son is a comprehensive history of the man and also provides important new detail on the German parachute arm that he served

In the course of his service Witzig was awarded the coveted Knight's Cross of the Iron Cross even though he had not yet earned the Iron Crosses 2nd and 1st class To resolve the problem he was awarded all three on the spot

Witzig was involved in Operation Mercury the invasion of Crete but was injured during the fighting After his recovery he was sent to Tunisia where he was credited with several successful defensive actions He ended the war in captivity surrendering to the Allies on May 8 1945 the day after his name was placed on the Honour Roll of the Luftwaffe

A gripping biography providing a tough gritty and compelling study of a German soldier

Firetrench A unique well written and impeccably researched account of the Third Reich's evolving fortunes as witnessed on numerous battlefronts by a highly decorated Fallschirmjäger officer
