**Selections from Early German Literature** Klara Hechtenberg Collitz, 1914 *The Romantic Tradition* Gerald Chapple, Frederick Hall, Hans Schulte, 1992-10-28 Literature and Music in the Romantic Movement the twenty four literary historians musicologists and philosophers who have contributed to this book have taken the conjunction and seriously The eminently Romantic goal of unifying these two arts is scrutinized from several different angles in the attempt to break new critical ground both on aesthetic principles and in re approaching some well known works in mixed genres typical of the movement Hans Schulte reminds us in his retrospect that what was a longed for goal for the Romantics had once been a given a fait accompli to the ancient Greeks But the book is not backward looking on the contrary it reveals both the aesthetic revolution at the beginning of the nineteenth century and its far reaching impact as the title indicates through the nineteenth and into the twentieth century The editors from the Preface Co published with McMaster University
