German Romanticism And Its Institutions:

German Romanticism and Its Institutions Theodore Ziolkowski, 2021-03-09 Using an illuminating method that challenges the popular notion of Romanticism as aesthetic escapism Theodore Ziolkowski explores five institutions mining law madhouses universities and museums that provide the socio historical context for German Romantic culture He shows how German writers and thinkers helped to shape these five institutions all of which assumed their modern form during the Romantic period and how these social structures in turn contributed to major literary works through image plot character and theme Ziolkowski cannot fail to impress the reader with a breadth of erudition that reveals fascinating intersections in the life and works of an artist He conveys the sense of energy and idealism that fueled Schiller and Goethe Fichte and Hegel Hoffmann and Novalis Emily Grosholz The Hudson Review This book should be put in the hands of every student who is seriously interested in the subject and I cannot imagine a scholar in the field who will not learn from it and be delighted with it Hans Eichner Journal of English and Germanic Philology Ziolkowski is among those who go beyond lip service to the historical and are able to show concretely the ways in which generic and thematic intentions are inextricably enmeshed with local and specific institutional circumstances Virgil Nemoianu MLN German romanticism and its institutions Theodore The Art of Recollection in Jena Romanticism Laurie Ruth Johnson, 2015-02-06 This exploration of Ziolkowski,1990 Romantic depictions of memory as a faculty of body as well as of mind analyzes representations of remembrance in Jena Romantic texts When these texts pose questions about memory s employment and depiction in art about the aestheticization of recollection they reveal serious doubt about the explanatory ability of the philosophical psychological and aesthetic discourses against which Romantic and modern thought is constructed Encyclopedia of the Romantic Era 1760-1850 Christopher John Murray, 2013-05-13 In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century The Encyclopedia provides readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism The Romantic Idea of the Golden Age in Friedrich Schlegel's Philosophy of History Asko Nivala, 2017-02-03 The nineteenth century Romantic understanding of history is often confused with the longing for the past Golden Age In this book the Golden Age is seen from a new angle by discussing it in the context of the works of Friedrich Schlegel who saw it not as bygone but to be produced in the future Winter Adam Gopnik, 2011-08-24 The 2011 CBC Massey Lectures celebrates fifty years with bestselling author essayist cultural observer and famed New Yorker contributor Adam Gopnik whose subject is winter the season the space the cycle Gopnik takes us on an intimate tour of the artists poets composers writers explorers scientists and thinkers who helped shape a new and modern idea of winter Here we learn how a poem by William Cowper heralds the arrival of the middle class

Stages of European Romanticism Theodore Ziolkowski, 2018 Employs an innovative approach by stages to offer a unified vision of European Romanticism over the half century of its growth and decline Romanticism was a truly European phenomenon extending roughly from the French Revolution to the 1848 revolutions and embracing not only literature and drama but also music and visual arts Because of Romanticism's vast scope most treatments have restricted themselves to single countries or to specific forms notably literature art or music This book takes a wider view by considering in each of six chapters representative examples of works from across Europe and across a range of the arts that were created in a single year For instance in the first chapter focusing on the year 1798 Beethoven's Path tique sonata Wordsworth and Coleridge's Lyrical Ballads Tieck's novel Franz Sternbalds Wanderungen and Goya's painting El sue o de la raz n' The following chapters treat works from the years 1808 1818 1828 1838 and 1848 This approach by stages makes it possible to determine characteristics of six stages of Romanticism in its historical and intellectual context and to note the conspicuous differences between these stages as European Romanticism developed for example the waxing and waning of religious themes the shifting visions of landscape the gradual ironic detachment from early Romanticism In sum the volume offers a unified vision of European Romanticism in all its aesthetic forms over the half centuryof its growth and decline Theodore Ziolkowski is Professor Emeritus of German and Comparative Literature Princeton University Travelling Notions of Culture in Early Nineteenth-Century Europe Hannu Salmi, Asko Nivala, Jukka Sarjala, 2015-10-23 The notions of culture and civilization are at the heart of European self image This book focuses on how space and spatiality contributed to defining the concepts of culture and civilization and conversely what kind of spatial ramifications culture and civilization entailed These questions have vital importance to the understanding of this formative period of modern Europe The chapters of this volume concentrate on the following themes What were the sites of culture civilization and Bildung and how were these sites employed in defining these concepts What kind of borders did this process of definition and its inherent spatial imagination produce What were the connecting routes between the supposed centers and peripheries What were the strategies of envisioning negotiating and transforming cultural territories in early nineteenth century Europe This book adds new perspectives on ways of approaching spatiality in history by investigating for example the decisive role of the French revolution the persistent interest in classical civilization and its sites emerging urbanism and the culture of the cities the changing constellations between centers and peripheries and the colonial extensions or transfigurations of culture It also

pays attention to the spatiality of culture as a metaphor but simultaneously emphasizes the production of space in an era of technological innovation and change Rereading Romanticism, 2021-11-15 **Historical Dictionary of Romantic Art** and Architecture Allison Lee Palmer, 2019-07-26 Romanticism is multifaceted and a wide range of nostalgic emotional and exotic concerns were expressed in such styles and movements as the Gothic Revival Classical Revival Orientalism and the Pre Raphaelite Brotherhood Some movements were regional and subject specific such as the Hudson River School of landscape painting in the United States and the German Nazarene movement which focused primarily on religious art in Rome The movements range across Western Europe and include the United States This dictionary will provide a fuller historical context for Romanticism and enable the reader to identify major trends and explore artists of the period This second edition of Historical Dictionary of Romantic Art and Architecture contains a chronology an introduction and an extensive bibliography The dictionary section has over 300 cross referenced entries on major artists of the romantic era as well as entries on related art movements styles aesthetic philosophies and philosophers This book is an excellent resource for students researchers and anyone wanting to know more about Romantic art The Naked Heart: The Bourgeois Experience Victoria to Freud Peter Gay, 1996-10-17 In The Naked Heart Peter Gay explores the bourgeoisie's turn inward At the very time that industrialists inventors statesmen and natural scientists were conquering new objective worlds Gay writes the secret life of the self had grown into a favorite and wholly serious indoor sport Following the middle class s preoccupation with inwardness through its varied cultural expressions such as fiction art history and autobiography Gay turns also to the letters and confessional diaries of both obscure and prominent men and women These revealing documents help to round out a sparkling portrait of an age
