The Theater of Heiner Müller Jonathan Kalb, 2001 The revised and enlarged edition of the first comprehensive English language study of the work of Heiner Müller widely regarded as Bertolt Brecht's spiritual heir and as one of the most important German playwrights of the twentieth century Kalb's quest to try and penetrate some of the surfaces of what he calls this glacially infuriating writer is engrossing and he negotiates his own ambivalences and reservations about Müller as theatre maker and man with both honesty and adroitness As a piece of scholarship this is a breathtaking tour de force

Nietzsche's Nihilism in Walter Benjamin Mauro Ponzi, 2016-11-21 This book reconstructs the lines of nihilism that Walter Benjamin took from Friedrich Nietzsche that define both his theory of art and the avant garde and his approach to political action It retraces the eccentric route of Benjamin's philosophical discourse in the representation of the modern as a place of permanent catastrophe where he attempts to overcome the Nietzschean nihilism through messianic hope Using conventions from literary criticism this book explores the many sources of Benjamin's thought demonstrating that behind the materialism which Benjamin incorporates into his Theses on the Concept of History is hidden Nietzsche's nihilism Mauro Ponzi analyses how Benjamin's Arcades Project uses figures such as Baudelaire Marx Aragon Proust and Blanqui as

allegories to explain many aspects of modernity The author argues that Benjamin uses Baudelaire as a paradigm to emphasize the dark side of the modern era offering us a key to the interpretation of communicative and cultural trends of today

Phantom Images Catherine Smale, 2013 Ghosts have made an unexpected reappearance in German literature since 1989 Catherine Smale reads this as symptomatic of writers attempts to renegotiate their personal and collective identity in the wake of German reunification Focusing on two major authors from the former GDR Christa Wolf and Irina Liebmann Smale examines the ways in which their work adopts notions of haunting in its creative engagement with the double legacy of Socialism and National Socialism The ghost has long been regarded as a vehicle for making manifest taboo or unauthorized memories However Smale goes further demonstrating how the human subject is destabilized by the return of the phantom and is itself rendered insecure and spectral Drawing on a wide range of theoretical reference from the psychoanalytic concept of intergenerational phantoms to Derridean hauntology Smale's study highlights the particular challenge which Wolf and Liebmann pose to the familiar understanding of how German writers have confronted their country's troublesome past Catherine Smale is Lecturer in German at King's College London *Déjà Vu* Peter Krapp, 2004 Referring to a past that never was déjà vu shares a structure not only with fiction but also with the ever more sophisticated effects of

media technology Tracing the term from the end of the nineteenth century when it was first popularized in the pages of the *Revue philosophique* Peter Krapp examines the genealogy and history of the singular and unrepeatable experience of *d j vu* This provocative book offers a refreshing counterpoint to the clichéd celebrations of cultural memory and forces us to take a double take on the sanctimonious warnings against forgetting so common in our time Disturbances of cultural memory screen memories false recognitions premonitions disrupt the comfort zone of memorial culture strictly speaking *d j vu* is neither a failure of memory nor a form of forgetting Krapp's analysis of such disturbances in literature art and mass media introduces historicizes and theorizes what it means to speak of an economy of attention or distraction Reaching from the early psychoanalytic texts of Sigmund Freud to the plays of Heiner Müller this exploration of the effects of *d j vu* pivots around the work of Walter Benjamin and includes readings of kitsch and aura in Andy Warhol's work of cinematic violence and certain exaggerated claims about shooting and cutting of the memorial character of architecture and of the high expectations raised by the Internet Peter Krapp lecturer in the Department of Cultural Studies and Comparative Literature at the University of Minnesota coedited *Medium Cool* a special issue of the *South Atlantic Quarterly* on contemporary media theory He has published in the fields of German studies media studies and literary theory and since 1995 has acted as editor of the Hydra Web site for theories of literature and media

Twenty Years on Renate Reichtien, Dennis Tate, 2011 Twenty years on from the dramatic events that led to the opening of the Berlin Wall and the collapse of the GDR the subjective dimension of German unification is still far from complete The nature of the East German state remains a matter of cultural as well as political debate This volume of new research focuses on competing memories of the GDR and the ways they have evolved in the mass media literature and film since 1989/90 Taking as its point of departure the impact of iconic visual images of the fall of the Wall on our understanding of the historical GDR the volume first considers the decade of cultural conflict that followed unification and then the emergence of a more complex and diverse textual memory of the GDR since the Berlin Republic was established in 1999 It highlights competing generational perspectives on the GDR era and the unexpected afterlife of the GDR in recent publications The volume as a whole shows the vitality of eastern German culture two decades after the demise of the GDR and the centrality of these memory debates to the success of Germany's unification process
