Germania Usa Social Change In New Ulm Minnesota:

Germania, U.S.A. Noel Iverson, 1966 Germania, USA Noel Iverson, 1967-02-10 Germania USA was first published in 1967 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions An unusual community in southern Minnesota New Ulm a town of about 12 000 inhabitants is the subject of this sociological study New Ulm was founded in 1856 by a group of German immigrants who came to the United States as refugees from the revolution of 1848 in Germany They were members of the Turnverein a society of liberal thinkers who were a political minority in Germany In founding New Ulm they established a utopian ethnic community became the town's status elite and for a long time monopolized its economic political and cultural life Professor Iverson analyzes four aspects of sociological change in the community class status power and assimilation Each aspect is viewed according to the differences found between two generations of the upper status group the Turners and two corresponding generations of non Turners In addition to its substantive contribution to our knowledge of ethnic settlements the study demonstrates a gain in methodological precision over many earlier studies of ethnic communities Its chief methodological innovation is in the use of scales to verify and measure the changing structure of class status and power and to gauge the extent of assimilation The book is of interest not only to sociologists especially those concerned with the study of community change but also to political scientists interested in the study of community power structures Also the methodology will be instructive to those interested in the design of community studies **Germans in Minnesota** Kathleen Neils Conzen, 2009-08 Minnesota is often associated with its Scandinavian heritage but in fact Germans are the largest single immigrant group in Minnesota history and were the largest ancestry group in the 2000 census Author Kathleen Neils Conzen tells the story of German Americans and their profound influence on Minnesota history and culture Conzen recounts their triumphs and struggles over the last 150 years in a clear and concise narrative Landing in poverty Germans transformed acres of wilderness into productive farms and brought to America their love of art music and sociability Immigrants came to America intent on creating in the words of one agent an earthly paradise of this Minnesota and a new Germany soon rose in Stearns County Conzen explores not only the well known enclaves in Brown and Stearns Counties but also looks at the smaller communities of Winona on the Iron Range and along the North Shore as well as in the Twin Cities In recent times a renewed interest in German heritage can be seen in towns like New Ulm home to the thirty two foot statue of Hermann the German hero of the wars against the ancient Roman legions and Heritagefest the ethnic heritage festival that occurs every summer **The War in Words** Kathryn Zabelle Derounian-Stodola, 2009-05-01 The War in Words is the first book to study the captivity and confinement narratives generated by a single American war as it traces the development and variety of the captivity narrative genre Kathryn Zabelle Derounian-Stodola examines the complex 1862 Dakota Conflict also called the Dakota War by focusing on twenty four of the dozens of narratives that European Americans

and Native Americans wrote about it This six week war was the deadliest confrontation between whites and Dakotas in Minnesota s history Conducted at the same time as the Civil War it is sometimes called Minnesota s Civil War because it was and continues to be so divisive The Dakota Conflict aroused impassioned prose from participants and commentators as they disputed causes events identity ethnicity memory and the all important matter of the war s legacy Though the study targets one region its ramifications reach far beyond Minnesota in its attention to war and memory An ethnography of representative Dakota Conflict narratives and an analysis of the war s historiography *The War in Words* includes new archival information historical data and textual criticism *The Religious Factor in the 1960 Presidential Election* Albert J. Menendez,2014-01-10 The candidacy of John F Kennedy provoked widespread discussion of issues relating to church and state and to the role of Catholics in American politics This text is the inside story of that dramatic campaign and is the first scholarly examination based on actual voting returns It includes a detailed analysis of the vote in every state revealing that religion affected the outcome of the election far more than previously thought Kennedy lost more votes than he gained due to his religious affiliation but by crafting a strong coalition he prevailed in one of the closest races in presidential history FELIX DE LA BAUME AND HENRY WIRZ Michael Hirtzel ,2012-03-17 The name Felix De La Baume has always been synonymous with the controversial conviction and subsequent hanging of Henry Wirz Re examining both De La Baume and Wirz s roles in the most infamous prison camp of the Civil War this book attempts to revise both individual s historical perception and legacy
