The Cultural Politics of the German Democratic Republic
 G. Ann Stamp Miller, 2004 This book deals with the intricate connection between the political structure of the East German government and cultural politics Specifically it focuses on the relationship between the government agencies and three authors It explores the difficulties the writers encountered in the 1960s with the government of East Germany and how their works did or did not conform to the cultural policy established by the GDR regime in 1951 The government believed that it was imperative for authors and artists to adhere to the literary policy of social realism prescribed by the East German Ministry of Culture An author s works were expected to conform to the political ideology of Marxism The Ministry of Culture expected writers to depict the society through the glorification of Marxism The East German cultural functionaries evaluated a piece of literature more for the author s devotion to the political doctrine than the aesthetic quality of the work If works did not conform the government agencies such as the Ministry of Culture could apply pressure to the authors in many forms censorship silencing fines prosecution surveillance and for extreme cases expatriation This study assesses three prominent writers of the former East Germany Wolf Biermann a lyricist Christa Wolf a novelist and Heiner M ller a dramatist The analysis is based on the political content of the authors works and how the West German and East German critics evaluated them Government documents from German State Archives revealed the sensitive nature of the political and writer conferences of the GDR The study analyzes how the writers interpretation of socialism increasingly deviated from that of the

East German regime Over time the writers chose to express themselves in a different manner and thus encountered problems and conflicts with the Ministry of Culture

The Origins of Democratization in Poland Michael H. Bernhard, 1993 Home to the New York Yankees the Bronx Zoo and the Grand Concourse the Bronx was at one time a haven for upwardly mobile second generation immigrants eager to leave the crowded tenements of Manhattan in pursuit of the American dream Once hailed as a wonder borough of beautiful homes parks and universities the Bronx became during the 1960s and 1970s a national symbol of urban deterioration Thriving neighborhoods that had long been home to generations of families dissolved under waves of arson crime and housing abandonment turning blocks of apartment buildings into gutted graffiti covered shells and empty trash filled lots In this revealing history of the Bronx Evelyn Gonzalez describes how the once infamous New York City borough underwent one of the most successful and inspiring community revivals in American history From its earliest beginnings as a loose cluster of commuter villages to its current status as a densely populated home for New York's growing and increasingly more diverse African American and Hispanic populations this book shows how the Bronx interacted with and was affected by the rest of New York City as it grew from a small colony on the tip of Manhattan into a sprawling metropolis This is the story of the clattering of elevated subways and the cacophony of crowded neighborhoods the heady optimism of industrial progress and the despair of economic recession and the vibrancy of ethnic cultures and the resilience of local grassroots coalitions crucial to the borough's rejuvenation In recounting the varied and extreme transformations this remarkable community has undergone Evelyn Gonzalez argues that it was not racial discrimination rampant crime postwar liberalism or big government that was to blame for the urban crisis that assailed the Bronx during the late 1960s Rather the decline was inextricably connected to the same kinds of social initiatives economic transactions political decisions and simple human choices that had once been central to the development and vitality of the borough Although the history of the Bronx is unquestionably a success story crime poverty and substandard housing still afflict the community today Yet the process of building and rebuilding carries on and the revitalization of neighborhoods and a resurgence of economic growth continue to offer hope for the future
