*Germany Must Perish!* Theodore N. Kaufman, 1941      *Germany Must Perish!* Theodore Kaufman, J. Palliser, 2018-04

GERMANY MUST PERISH is a book written by Theodore Newman Kaufman which he self published in 1941 in the United States. The book advocated sterilization of all Germans and the territorial dismemberment of Germany, believing that this would achieve world peace. *Germany Must Perish* discussed the forced mass sterilization of all German men under 65 and the sterilization of most German women under 45. This would eliminate inbred Germanism; he proposed thus solving a great deal of humanity's problems. The Nazi Party used the book, written by a Jewish author, to support their argument that Jews were plotting against their country. Includes Kaufman's other writings: *A Will and Way to Peace* (1939), *Passive Purchase* (1939). *Passive Purchase* advocated the establishment of a two-week period during which Americans would curtail their spending in order to demonstrate public opposition to American intervention in European conflicts. *No More German Wars: Being An Outline For Their Permanent Cessation* (1942). Being an outline for their permanent cessation. It contained no more writing on the sterilization of Germans or discussion of German land distribution but made very moderate proposals for democratic re-education of the German population.      *Germany Must Perish!* Theodore Kaufman, Wolfgang Diewerge, 2013-11-14

The March 1941 publication of *Germany Must Perish* provoked one of the most intense propaganda exchanges of World War II. The book, written by an American Jew, Theodore Kaufman, advocated the physical destruction of the German people through mass sterilization and the total dismemberment of the German state. Because of Kaufman's claimed links to the policy advisors of the American president, Germany's reaction to the plan was swift. Nazi Propaganda Minister Joseph Goebbels ordered a rebuttal and analysis written of Kaufman's book, and this featured in much Home Front propaganda for the rest of the war. Ironically, significant sections of Kaufman's book, despite being dismissed as the work of a loner, came true at the end of the war. At least 12 million Germans were expelled from their land following the end of the war, and their deportation became the single largest transfer of any population in modern European history. The majority were expelled from the German territories in the eastern territories of Germany, which were handed over to Poland and the Soviet Union, about 7 million, and from Czechoslovakia about 3 million. It is estimated that up to two million Germans died during these expulsions. In one sense, at least, Kaufman's predictions came true. This version contains for the first time published together the full text of Kaufman's original work and Nazi Germany's official reaction to it. A fascinating historical document which provides an insight into the mindsets on both sides of that great and awful conflict.

Contents: Part I: *Germany Must Perish*. A leading American Jewish leader calls for the physical extermination of Germans and Germany. Part II: *The War Goal of World Plutocracy*. A leading Nazi author analyzes and answers Kaufman's book.      *Germany Must Perish!* Theodore N. Kaufman, 1999      ***Germany Must Perish!*** Nathan Kaufman, 1970      ***The Jewish Enemy*** Jeffrey Herf, 2008-04-30

The sheer magnitude of the Holocaust has commanded our attention for the past sixty years. The extent of atrocities, however, has

overshadowed the calculus Nazis used to justify their deeds According to German wartime media it was German citizens who were targeted for extinction by a vast international conspiracy Leading the assault was an insidious belligerent Jewish clique so crafty and powerful that it managed to manipulate the actions of Roosevelt Churchill and Stalin Hitler portrayed the Holocaust as a defensive act a necessary move to destroy the Jews before they destroyed Germany Joseph Goebbels Minister of Propaganda and Otto Dietrich s Press Office translated this fanatical vision into a coherent cautionary narrative which the Nazi propaganda machine disseminated into the recesses of everyday life Calling on impressive archival research Jeffrey Herf recreates the wall posters that Germans saw while waiting for the streetcar the radio speeches they heard at home or on the street the headlines that blared from newsstands *The Jewish Enemy* is the first extensive study of how anti-Semitism pervaded and shaped Nazi propaganda during World War II and the Holocaust and how it pulled together the diverse elements of a delusory Nazi worldview Here we find an original and haunting exposition of the ways in which Hitler legitimized war and genocide to his own people as necessary to destroy an allegedly omnipotent Jewish foe In an era when both anti-Semitism and conspiracy theories continue to influence world politics Herf offers a timely reminder of their dangers along with a fresh interpretation of the paranoia underlying the ideology of the Third Reich **Democracy Imposed**

Professor Bruce A Williams, Richard L. Merritt, 1995-01-01 How successful was the United States in attempting to impose a democratic system on Germany after the Second World War Did U S occupation policy actually change German society and attitudes In this book Richard L Merritt addresses these questions from a novel perspective Instead of studying what German political leaders and intellectuals thought about the U S occupation Merritt explores for the first time the response of the ordinary German people analyzing data from public opinion surveys conducted largely by the American Military Government beginning in 1945 **Lectures on S. *American Journalists in Hitler's Germany* Norman Domeier, 2025 The first book to critically examine American journalists and media companies roles in Hitler s Germany reigniting the debate on the relationship between political power and the media Despite Hitler s international use of propaganda and despite the power of the US press historians have neglected American journalists activity in Nazi Germany American media companies expanded their presence in Germany after 1933 and the Associated Press AP conducted business with Hitler s regime throughout the war Norman Domeier s study now in English is the first to examine critically and in detail the roles of American journalists and media companies in Hitler s Germany showing that they knew about but kept secret the plans for rearmament the occupation of the Rhineland the annexation of Austria the invasions of Denmark Norway and the Soviet Union The book documents the companionship between Adolf Hitler and Karl Henry von Wiegand chief German correspondent of the Hearst press who was the first and last American to interview him Most important it details the secret exchange of news photographs discovered by Domeier in 2017 between the AP and the Nazis from 1942-45 Thousands of AP

photos were used in the Nazi press usually with anti American or anti Semitic spin while the AP distributed ca 40 000 Nazi photographs to US newspapers Domeier s book reignites the debate on the relationship between political power and the media opening up new perspectives on the political and cultural history of journalism beyond one sided idealizations

**Genocides by the Oppressed** Nicholas A. Robins,Adam Jones,2009-05-12 In the last two decades the field of comparative genocide studies has produced an increasingly rich literature on the targeting of various groups for extermination and other atrocities throughout history and around the contemporary world However the phenomenon of genocides by the oppressed that is retributive genocidal actions carried out by subaltern actors has received almost no attention The prominence in such genocides of non state actors combined with the perceived moral ambiguities of retributive genocide that arise in analyzing genocidal acts from below have so far eluded serious investigation Genocides by the Oppressed addresses this oversight opening the subject of subaltern genocide for exploration by scholars of genocide ethnic conflict and human rights Focusing on case studies of such genocide the contributors explore its sociological anthropological psychological symbolic and normative dimensions Jutland Michael Epkenhans,Jörg Hillmann,Frank Nägler,2015-10-23

The essential reappraisal of this seminal event in twentieth century naval history a must have book for the Great War enthusiasts Lone Star Review After months of skirmishes between Britain s Royal Navy Grand Fleet and the German Navy s outnumbered High Seas Fleet conflict erupted on May 31 1916 in the North Sea near Jutland Denmark in what would become the most formidable battle in the history of the Royal Navy In Jutland international scholars reassess the strategies and tactics employed by the combatants as well as the political and military consequences of their actions Most previous English language military analysis has focused on British admiral Sir John Jellicoe who was widely criticized for excessive caution and for allowing German vice admiral Reinhard Scheer to escape but the contributors to this volume engage the German perspective evaluating Scheer s decisions and his skill in preserving his fleet and escaping Britain s superior force Together the contributors lucidly demonstrate how both sides suffered from leadership that failed to move beyond outdated strategies of limited war between navies and to embrace the total war approach that came to dominate the twentieth century The role of memory comparing the way the battle has been portrayed in England and Germany is also examined Jutland is suited not only for scholars but also for a wider audience interested in knowing more about both the war at sea in World War I and its greatest contest Eric Osborne author of The Battle of Heligoland Bight The documentation and scholarship reflected in these articles is outstanding Paul Halpern author of A Naval History of World War I *Representing the "good German" in Literature and Culture After 1945* Pól Ó Dochartaigh,Christiane Schönfeld,2013 Essays analyzing postwar literary cultural and historical representations of good Germans during the Second World War and the Nazi period In the aftermath of the Second World War both the allied occupying powers and the nascent German authorities sought Germans whose record during the war and the Nazi period could serve as a counterpoint to the notion of Germans a sevil That search has never

really stopped In the past few years we have witnessed a burgeoning of cultural representations of this other kind of Third Reich citizen the good German as opposed to the committed Nazi or genocidal maniac Such representations have highlighted individuals choices in favor of dissenting behavior moral truth or at the very least civil disobedience The good German s counterhegemonic practice cannot negate or contradict the barbaric reality of Hitler s Germany but reflects a value system based on humanity and an other ideal community This volume of new essays explores postwar and recent representations of good Germans during the Third Reich analyzing the logic of moral behavior cultural and moral relativism and social conformity found in them It thus draws together discussions of the function and reception of Good Germans in Germany and abroad Contributors Eoin Bourke Manuel Bragan a Maeve Cooke Kevin De Ornellas Sabine Egger Joachim Fischer Coman Hamilton Jon Hughes Karina von Lindeiner Str sky Alexandra Ludewig P l O Dochartaigh Christiane Sch nfeld Matthias Uecker P l O Dochartaigh is Professor of German and Dean of the Faculty of Arts at the University of Ulster Northern Ireland Christiane Sch nfeld is Senior Lecturer in German and Head of the Department of German Studies at Mary Immaculate College University of Limerick

Book Review Digest ,1919 *Among the Dead Cities* A. C. Grayling,2014-04-24 Is it ever right to target civilians in a time of war Or do the ends sometimes justify the means The twentieth century the age of total war marked the first time that civilian populations came to be seen as legitimate military targets At this policy s most terrible extreme came the dropping of the atomic bomb on Hiroshima and Nagasaki but it is an issue that remains relevant today with the needs of the War on Terror used to justify the use of drone strikes In *Among the Dead Cities* A C Grayling explores these moral issues in all their complexity with a detailed examination of the Allied bombing of German cities during World War 2 Considering the cases for and against the area bombing and the experiences of the bombed and the bombers Grayling asks was the targeting of civilians in Germany a crime Now available in the Bloomsbury Revelations series the book includes a new afterword by the author considering the issues in light of later conflicts up to the present day

**1870-2020 History Debunked** Rowald Holt,2020-07-10 This book is dedicated to all the victims of wars that a small minority of evil and soulless monsters have started and supported for power and profit Their hubris and contempt for human lives and their perfidious and nefarious use of propaganda against those who refuse to submit to their agenda are the biggest threat to our freedom and liberty My support also goes to all those Jews and Gentiles alike who have the courage to expose the evil of Word Zionism May their efforts and perseverance enlighten the peoples of the world and prevent the cataclysm that looms over all of us This book is not meant to spread hatred against anybody It is lies that promote hatred because they can be manipulated to suit the liars Truth cannot be altered and also serves to promote reconciliation and peace

Holocaust Peter Longerich,2010-04-14 A comprehensive history of the Nazi persecution and murder of European Jews paying detailed attention to an unrivalled range sources Focusing clearly on the perpetrators and exploring closely the process of decision making Longerich argues that anti Semitism was not a mere by product of the Nazis political mobilization or an attempt to

deflect the attention of the masses but that anti Jewish policy was a central tenet of the Nazi movement s attempts to implement disseminate and secure National Socialist rule and one which crucially shaped Nazi policy decisions from their earliest days in power through to the invasion of the Soviet Union and the Final Solution As Longerich shows the disappearance of Jews was designed as a first step towards a racially homogeneous society first within the Reich later in the whole of a German dominated Europe     The Importance of Race in Civilization Wayne MacLeod,     **FDR and the Jews** Richard Breitman, Allan J. Lichtman, 2013-03-19 A contentious debate lingers over whether Franklin Delano Roosevelt turned his back on the Jews of Hitler s Europe FDR and the Jews reveals a concerned leader whose efforts on behalf of Jews were far greater than those of any other world figure but whose moral leadership was tempered by the political realities of depression and war     **Ostkrieg** Stephen G. Fritz, 2011-10-14 On June 22 1941 Germany launched the greatest land assault in history on the Soviet Union an attack that Adolf Hitler deemed crucial to ensure German economic and political survival As the key theater of the war for the Germans the eastern front consumed enormous levels of resources and accounted for 75 percent of all German casualties Despite the significance of this campaign to Germany and to the war as a whole few English language publications of the last thirty five years have addressed these pivotal events In Ostkrieg Hitler s War of Extermination in the East Stephen G Fritz bridges the gap in scholarship by incorporating historical research from the last several decades into an accessible comprehensive and coherent narrative His analysis of the Russo German War from a German perspective covers all aspects of the eastern front demonstrating the interrelation of military events economic policy resource exploitation and racial policy that first motivated the invasion This in depth account challenges accepted notions about World War II and promotes greater understanding of a topic that has been neglected by historians     *Anti-Semitism and the Holocaust* Beth A. Griech-Polelle, 2023-01-26 Appreciating the power of language and how discriminatory words can have deadly consequences is pivotal to our understanding of the Holocaust Engaging with a wealth of primary sources and significant Holocaust scholarship Anti-Semitism and the Holocaust traces the historical tradition of anti-Semitism to explore this in detail From religious anti-Semitism in ancient Rome to racially led anti-Semites focused on building superior nation states in 19th century Europe to Hitler s vitriolic attacks Griech-Polelle analyzes how tropes and stereotypes incited suspicion dislike and hatred of the Jews and ultimately how this was used to drive anti-Semitic feeling toward genocide Crucially this 2nd edition sheds further light on the everyday experience of ordinary Germans and Jews under the Nazi regime with new chapters examining the role of the Christian Churches in Hitler s persecution of the Jews and those who participated in rescue work and resistance more broadly With new illustrations a detailed glossary and up to date further reading suggestions and questions this 2nd edition provides a concise and lucid survey of European Jewry the Holocaust and the language of anti-Semitism
