How to HEAL YOU and Your HOME Nicky Crocker,2016 What if it was that easy is exactly that A question to yourself to ask your body what if my health or the health of my children and family is directly related to where we spend time stationary What if it was that easy What if the place you choose to put your bed in your home or are forced to put it because of the way the house was built or the place your parents put your bed was relevant to the state of your health when you were growing up What if it was that easy What if the desk you chose at work or was told to sit at or indeed stand at all day in the same location is in the wrong place according to these Earth Energies called Geopathic Stress could be affecting your health Just because something is simple or easy doesn t mean it can t be true Think about it the significant time we spend stationary is while we are in bed on the couch or at our desk and these are the times when our body is in direct alignment with the earth Therefore if there was a frequency or energy coming up from the Earth and there is it would be these times that you could be affected by it The electromagnetic fields around earth Schumann resonance 7.83hz that vibrates at a slightly higher frequency than is healthy for us as humans has a chance to irritate us Don t let it irritate you I m sure you have all sat in a chair or been still long enough in your bed or at work and felt tingles or a hot or cold sensation that may have given you a headache or even worse You have walked into a room and felt like someone was behind you This can also be explained as this energy Occasionally it may not be but when you consider how many magnetic fields there are around the earth no one has ever missed them at some time or another You walk through them every day somewhere in your daily routine If you spend a lot of time stationary sitting at work sleeping in a bed lying on the couch and Geopathic Stress noxious earth energies is present then it is likely to attack your immune system and affect your health You just DO NOT want to be stationary on them This book is to help you recognise and understand them I want to make you AWARE not SCARE WHAT IF IT WAS THAT EASY
