Between Republic and Market Sarah Waters, 2012-07-12 The rise of neo liberal globalisation has posed major challenges for all European countries identifying itself as the key political tension of the coming era Yet it is in France that globalisation has produced the deepest tensions and it is here that it has generated its greatest political resistance The author pursues two separate lines of enquiry First she considers the influence of French political tradition and an enduring legacy of republicanism in shaping contemporary opposition If globalisation poses a greater ideological threat in France than elsewhere this is because it comes into conflict with the foundational values and symbols of the French Republic Secondly she examines contemporary French opposition as a site for political and ideological renewal Many critics now agree that it is within this emergent movement rather than within traditional parties that new forms of political practice and ideology are being invented Territorial Shock Gertjan Dijkink , 2019 We are in the embrace of territorial shock today Globalization with its migrants foot loose firms cyber war and surging income inequality induces political instability and longing for a saviour This book puts such events in a historical perspective New social trends collide with territorial principles closure identity governance that always have been taken for granted Should we invest the new monarchs with the same authority as the pope 16th century or accept other classes as co citizens 19th century The answers implied a moral shift and so do our problems with globalization *The Bungle Book* G. V. Loewen, 2015-11-23 The Bungle Book presents a demythology of six salient concepts central to our modern self understanding The suspects of the self the machine and God as well as the senses of home love and freedom are subjected to an intense analytical scrutiny that is back dropped by the work of Gadamer Heidegger Lingis Midgely and other critical voices Book ended by a detailed introduction that asks us to unexpect the expected and a conclusion that suggests that we need to stop compulsively making sense of living on in order to become more sensible about its human ambiguities The Bungle Book will be of interest to any who take seriously the contemporary challenge of a global and interconnected existence Managing Emerging Risk Kevin D. Burton, 2017-11-15 From Main Street to Mumbai Managing Emerging Risk The Capstone of Preparedness considers the new global drivers behind threats and hazards facing all those tasked with protecting the public and private sector The text delves into the global mindset of public and private sector emergency managers and presents a new risk landscape vastly different *The Contemporary, the Common* Chantal Pontbriand, 2013 Examines themes of being in common in today s world and their relation to the development of art practices The work of Claire Fontaine Douglas Gordon and Philippe Parreno Ion Grigorescu Carsten Hller Mike Kelley Sigalit Landau Rabih Mrou Yvonne Rainer Rirkrit Tiravanija and Jeff Wall among other artists is examined

Central and Southeastern Europe in Transition Hall Gardner, Elinore Schaffer, Oleg Kobtzeff, 2000-06-30 It is increasingly important to understand the complexity of central and southeastern Europe following the enlargement of NATO into Central Europe the ongoing problems of the Balkans and the subsequent focus of global attention on the entire region Gardner brings together exceptional French and Eastern European scholars who present first hand accounts of their experience and knowledge of the region Each provides differing political social cultural and economic perspectives on Central and Southeastern Europe The volume begins with a general discussion of the place of central and southeastern Europe in the greater scheme of European history This is followed by an examination of the western European and Russian attitudes toward the Balkans and the largely ignored affects of the Ottoman empire on the Balkans The importance of culture and the crucial role it played in undermining both the theory and practice of communism is explored The impact of the media is then examined in two chapters that look at the process of media liberalization in the context of each country's political situation and the particular problems the media faces in the region The focus shifts to the

role of finance capital and its impact in emerging privatized economies How the global drug wars affect the Balkan region are also explored The ecological damage to Central and eastern Europe and Russia caused by the communist system is detailed and the volume ends with a look at the complexity of factors that led NATO to enlarge into Central Europe and intervene in Bosnia and Kosovo This wide ranging collection will be of particular interest to scholars and researchers involved with all facets of contemporary central and eastern European life *Deleuze, Guattari, and the Problem of Transdisciplinarity* Guillaume Collett, 2019-11-14 Deleuze and Guattari's work has today become ubiquitous in the humanities and social sciences being regularly drawn on by a vast array of subjects Throughout their careers Deleuze and Guattari also engaged with a myriad of disciplines yet they declared themselves that Philosophy is not interdisciplinary This apparent contradiction has rarely been explicitly confronted by scholars Fortunately however Deleuze and Guattari left us a number of clues in their works signaling how to approach this apparent impasse These clues amount to a complex and penetrating if un unified theory of disciplinarity and cross disciplinary articulation Energized by recent developments in critical transdisciplinarity studies this volume analyzes and evaluates instances of disciplinarity and transdisciplinarity within Deleuze and Guattari's shared and respective bodies of work The first volume in English specifically devoted to examining Deleuze and Guattari's work using this framework this book both contributes to the field of critical transdisciplinarity studies and in doing so helps shed light on the heart of Deleuze and Guattari's intellectual project *The Publishers Weekly*, 1999 *The New Republic* Herbert David Croly, 1999 Strategies and Trends in Organizational and Project Management Pavel V.
