THE KENNAN-LUKACS CORRESPONDENCE

George F. Kennan and John Lukacs
Introduction by John Lukacs

George F Kennan And The Origins Of Containment 1944 1946 The Kennan Lukacs Correspondence

George Frost Kennan, John Lukacs

George F Kennan And The Origins Of Containment 1944 1946 The Kennan Lukacs Correspondence:

George F. Kennan and the Origins of Containment, 1944-1946 George Frost Kennan, John Lukacs, 1997 In 1945 the United States saw the Soviet Union as its principal ally By 1947 it saw the Soviet Union as its principal opponent How did this happen Historian John Lukacs has provided an answer to this question through an exchange of letters with George F Kennan Their correspondence deals with the antecedents of containment between 1944 and 1946 during most of which time Kennan was at the American embassy in Moscow Kennan had strong opinions about America's appropriate role during and after World War II and is perhaps best known as the architect of America's containment policy Much has been written about Kennan and containment but relatively little is known about the events that made him compose and send the Long Telegram in 1946 that ultimately became the draft for foreign policy dealing with the Soviets in the following forty years These letters show Kennan's fear of the extent to which the United States misunderstood the Soviet regime Especially in 1944 at the time of the Russians betrayal of the Warsaw Uprising it became evident that the Soviets were interested in establishing their rigid domination of Eastern and Central Europe and dividing the continent Kennan's letters to Lukacs are thorough and detailed suggesting that the Truman administration was not in the least premature in opposing the Soviet Union Indeed both correspondents suggest that these decisions should have been made earlier This series of letters will add greatly to our understanding of what preceded containment and the Cold War in 1947

George F. Kennan and the Origins of Containment, 1944-1946 George Frost Kennan, John Lukacs, 1997 In 1945 the United States saw the Soviet Union as its principal ally By 1947 it saw the Soviet Union as its principal opponent How did this happen Historian John Lukacs has provided an answer to this question through an exchange of letters with George F Kennan Their correspondence deals with the antecedents of containment between 1944 and 1946 during most of which time Kennan was at the American embassy in Moscow Kennan had strong opinions about America's appropriate role during and after World War II and is perhaps best known as the architect of America's containment policy Much has been written about Kennan and containment but relatively little is known about the events that made him compose and send the Long Telegram in 1946 that ultimately became the draft for foreign policy dealing with the Soviets in the following forty years These letters show Kennan's fear of the extent to which the United States misunderstood the Soviet regime Especially in 1944 at the time of the Russians betrayal of the Warsaw Uprising it became evident that the Soviets were interested in establishing their rigid domination of Eastern and Central Europe and dividing the continent Kennan's letters to Lukacs are thorough and detailed suggesting that the Truman administration was not in the least premature in opposing the Soviet Union Indeed both correspondents suggest that these decisions should have been made earlier This series of letters will add greatly to our understanding of what preceded containment and the Cold War in 1947

George F. Kennan and the Origins of Containment, 1944-1946 George Frost Kennan, John Lukacs, 1997 These letters show Kennan's fear of the extent to which the United States misunderstood the

Soviet regime Especially in 1944 at the time of the Russians betrayal of the Warsaw Uprising it became evident that the Soviets were interested in establishing their rigid domination of Eastern and Central Europe and dividing the continent

America in the Cold War William T. Walker, 2014-01-22 Including extensive balanced information keen insights and helpful research tools this book provides a valuable resource for students or general readers interested in American policy diplomacy and conduct during the Cold War The Cold War not only comprised the dominant theme in American foreign policy during the second half of the 20th century its influence was also imbedded into American culture The half century duration of the Cold War was an extended learning period during which the United States found that it could no longer remain an isolationist nation in a complex quickly evolving and dangerous world This book covers the entire scope of the Cold War from its background and origins before and after World War II to the collapse of the Soviet Union on December 25 1991 providing coverage of key events and concepts such as the containment policy McCarthyism the Cuban Missile Crisis the Vietnam War détente and nuclear arms policies The single volume work also provides an annotated bibliography primary documents and biographies of key personalities during the Cold War such as John Foster Dulles J Edgar Hoover George F Kennan Henry Kissinger Edward R Murrow and Ronald Reagan

George F. Kennan John Lewis Gaddis, 2012-08-28 Winner of the Pulitzer Prize Winner of the National Book Critics Circle Award Selected by The New York Times Book Review as a Notable Book of the Year Drawing on extensive interviews with George Kennan and exclusive access to his archives an eminent scholar of the Cold War delivers a revelatory biography of its troubled mastermind Winner of the Pulitzer Prize and the National Book Critics Circle Award this extraordinary biography delves into the mind of the brilliant diplomat who shaped U S policy towards the Soviet Union for decades This is a landmark work of history and biography that reveals the vast influence and rich inner landscape of a life that both mirrored and shaped the century it spanned

The First Cold Warrior Elizabeth Spalding, 2006-05-26 From the first days of his unexpected presidency in April 1945 through the landmark NSC 68 of 1950 Harry Truman was central to the formation of America's grand strategy during the Cold War and the subsequent remaking of U S foreign policy Others are frequently associated with the terminology of and responses to the perceived global Communist threat after the Second World War Walter Lippmann popularized the term cold war and George F Kennan first used the word containment in a strategic sense Although Kennan Secretary of State Dean Acheson and Secretary of Defense George C Marshall have been seen as the most influential architects of American Cold War foreign policy The First Cold Warrior draws on archives and other primary sources to demonstrate that Harry Truman was the key decision maker in the critical period between 1945 and 1950 In a significant reassessment of the thirty third president and his political beliefs Elizabeth Edwards Spalding contends that it was Truman himself who defined and articulated the theoretical underpinnings of containment His practical leadership style was characterized by policies and institutions such as the Truman Doctrine the Marshall Plan NATO the Berlin airlift the Department of Defense and the National Security Council

Part of Truman's unique approach shaped by his religious faith and dedication to anti communism was to emphasize the importance of free peoples democratic institutions and sovereign nations With these values he fashioned a new liberal internationalism distinct from both Woodrow Wilson's progressive internationalism and Franklin D Roosevelt's liberal pragmatism which still shapes our politics Truman deserves greater credit for understanding the challenges of his time and for being America's first cold warrior This reconsideration of Truman's overlooked statesmanship provides a model for interpreting the international crises facing the United States in this new era of ideological conflict **George Kennan** John Lukacs, 2007-04-24 A man of impressive mental powers of extraordinary intellectual range and last but not least of exceptional integrity George Frost Kennan 1904 2005 was an adviser to presidents and secretaries of state with a decisive role in the history of this country and of the entire world for a few crucial years in the 1940s after which he was made to retire but then he became a scholar who wrote seventeen books scores of essays and articles and a Pulitzer Prize winning memoir He also wrote remarkable public lectures and many thousands of incisive letters laying down his pen only in the hundredth year of his life Having risen within the American Foreign Service and been posted to various European capitals and twice to Moscow Kennan was called back to Washington in 1946 where he helped to inspire the Truman Doctrine and draft the Marshall Plan Among other things he wrote the X or Containment article for which he became and still is world famous an article which he regarded as not very important and liable to misreading John Lukacs describes the development and the essence of Kennan's thinking the perhaps unavoidable misinterpretations of his advocacies his self imposed task as a leading realist critic during the Cold War and the importance of his work as a historian during the second half of his long life

Politics, Order and History Stephen McKnight, Glenn Hughes, Geoffrey Price, 2001-01-01 This volume brings together critical review papers many specially commissioned on key themes and questions in the work of the political scientist philosopher and religious thinker Eric Voegelin 1901 1985 Areas covered include 1 Political science Political Religions manifestations in Nazi Germany and in contemporary European and North American nationalism 2 International relations the Cold War in critical perspective 3 Philosophy Plato and Aristotle in the reading of Eric Voegelin contemporary assessments 4 Sociology Correspondence of Voegelin and Alfred Sch tz 5 New Testament studies and Christology questions and developments for Voegelin's interpretations 6 Old Testament studies questions and developments from Voegelin's Israel and Revelation 7 Historical sociology Revelation and order in axial age societies 8 Philosophy of history Voegelin and Toynbee in contrast 9 Literary studies Voegelin in contrast with contemporary literary theory critical readings of Milton Greek tragedy

The Oxford Encyclopedia of American Military and Diplomatic History Timothy J. Lynch, 2013 Entries written by renowned diplomatic and military historians as well as key scholars in international relations Provides assessments and analyses of key episodes issues and actors in the military and diplomatic history of the United States Based on the award winning Oxford Companion to United States History Comprehensive collection of entries that span the founding of the U S to

its present state Offers a wide range of perspectives to provide an encompassing context of the United States military and diplomatic legacies Expansive bibliographies and suggested readings for each article to aid in research The Oxford Encyclopedia of American Military and Diplomatic History a two volume set will offer both assessment and analysis of the key episodes issues and actors in the military and diplomatic history of the United States At a time of war in which ongoing efforts to recalibrate American diplomacy are as imperative as they are perilous the Oxford Encyclopedia will present itself as the first recourse for scholars wishing to deepen their understanding of the crucial features of the historical and contemporary foreign policy landscape and its perennially martial components Entries will be written by the top diplomatic and military historians and key scholars of international relations from within the American academy supplemented as is appropriate for an encyclopedia of diplomacy with entries from foreign based academics in the United Kingdom and elsewhere The crucial importance of the subject is reflected in the popularity of university courses dedicated to diplomatic and military history and the enduring appeal of international relations IR as a political science discipline drawing on both The Oxford Encyclopedia will be a basic reference tool across both disciplines a potentially very significant market Readership University level undergraduate and graduate students in History The World Since 1945 P. M. H. Bell, Mark Gilbert, 2016-11-03 A masterly synthesis of the history of the contemporary world The World Since 1945 offers the ideal introduction to the events of the period between the end of the Second World War and the present day P M H Bell and Mark Gilbert balance a clear narrative with in depth analysis to guide the reader through the aftermath of the Second World War the Cold War decolonization D tente and the Arab Israeli Conflict up to the on going ethnic strife and political instability of the 21st century The new edition has been thoroughly revised to fully reflect developments in the history and historiography of the post war world and features five new chapters on the post Cold War world covering topics including The rise and fall of American hegemony The decline of Europe The rise of Asia Political Islam as a global force The role of human rights The World Since 1945 challenges us to better understand what happened and why in the post war period and shows the ways in which the past continues to exercise a profound influence on the present It is essential reading for any student of contemporary history The Future of History John Lukacs, 2011-04-26 Reflects upon the discipline of history claiming that the writing and teaching of history in higher education is in decline and explores ways in which the future of the discipline can thrive Communism and the Emergence of Democracy Harald Wydra, 2007-02-08 Before democracy becomes an institutionalised form of political authority the rupture with authoritarian forms of power causes deep uncertainty about power and outcomes This book connects the study of democratisation in eastern Europe and Russia to the emergence and crisis of communism Wydra argues that the communist past is not simply a legacy but needs to be seen as a social organism in gestation where critical events produce new expectations memories and symbols that influence meanings of democracy By examining a series of pivotal historical events he shows that democratisation is not just a matter of institutional design but

rather a matter of consciousness and leadership under conditions of extreme and traumatic incivility Rather than adopting the opposition between non democratic and democratic Wydra argues that the communist experience must be central to the study of the emergence and nature of democracy in post communist countries *Gnostic Wars* Stefan Rossbach,2019-08-07 Stefan Rossbach reminds us of the philosophical and spiritual underpinnings of the Cold War era drawing on the traditions of apocalypticism millenarianism and Gnostic spirituality **The American Yawp** Joseph L. Locke,Ben Wright,2019-01-22 I too am not a bit tamed I too am untranslatable I sound my barbaric yawp over the roofs of the world Walt Whitman Song of Myself Leaves of Grass The American Yawp is a free online collaboratively built American history textbook Over 300 historians joined together to create the book they wanted for their own students an accessible synthetic narrative that reflects the best of recent historical scholarship and provides a jumping off point for discussions in the U S history classroom and beyond Long before Whitman and long after Americans have sung something collectively amid the deafening roar of their many individual voices The Yawp highlights the dynamism and conflict inherent in the history of the United States while also looking for the common threads that help us make sense of the past Without losing sight of politics and power The American Yawp incorporates transnational perspectives integrates diverse voices recovers narratives of resistance and explores the complex process of cultural creation It looks for America in crowded slave cabins bustling markets congested tenements and marbled halls It navigates between maternity wards prisons streets bars and boardrooms The fully peer reviewed edition of The American Yawp will be available in two print volumes designed for the U S history survey Volume II opens in the Gilded Age before moving through the twentieth century as the country reckoned with economic crises world wars and social cultural and political upheaval at home Bringing the narrative up to the present The American Yawp enables students to ask their own questions about how the past informs the problems and opportunities we confront today **Last Hope Island** Lynne Olson,2017 When the Nazi Blitzkrieg subjugated Europe in World War II London became the safe haven for the leaders of seven occupied countries France Belgium Holland Luxembourg Norway Czechoslovakia and Poland who fled there to avoid imprisonment and set up governments in exile to commandeer their resistance efforts The lone hold out against Hitler s offensive Britain became a beacon of hope to the rest of Europe as prominent European leaders like French general Charles De Gaulle Queen Wilhelmina of Holland and King Haakon of Norway competed for Winston Churchill s attention while trying to rule their embattled countries from the precarious safety of Last Hope Island Provided by publisher Army Diplomacy Walter M. Hudson,2015-05-19 In the immediate aftermath of World War II the United States Army became the principal agent of American foreign policy The army designed implemented and administered the occupations of the defeated Axis powers Germany and Japan as well as many other nations Generals such as Lucius Clay in Germany Douglas MacArthur in Japan Mark Clark in Austria and John Hodge in Korea presided over these territories as proconsuls At the beginning of the Cold War more than 300 million people lived under some form of U S military authority The army s

influence on nation building at the time was profound but most scholarship on foreign policy during this period concentrates on diplomacy at the highest levels of civilian government rather than the armed forces governance at the local level In *Army Diplomacy* Hudson explains how U S Army policies in the occupied nations represented the culmination of more than a century of military doctrine Focusing on Germany Austria and Korea Hudson s analysis reveals that while the post World War II American occupations are often remembered as overwhelming successes the actual results were mixed His study draws on military sociology and institutional analysis as well as international relations theory to demonstrate how bottom up decisions not only inform but also create higher level policy As the debate over post conflict occupations continues this fascinating work offers a valuable perspective on an important yet underexplored facet of Cold War history

Presidents, Diplomats, and Other Mortals Robert H. Ferrell, 2007 From Abraham Lincoln s stance on international slavery to George W Bush s incursions on the world stage American presidents and other leaders have taken decisive actions to shape our country s foreign policy This new collection of essays provides analytical narratives of how and why policies were devised and implemented that would determine the place of the United States in the international arena from the 1860s to the present Showing what individuals do or choose not to do is central to understanding diplomacy in peace and war These writings by such prominent historians as Terry H Anderson and Eugene P Trani examine presidents and other diplomats at their best and worst in the practice of statecraft They take on issues ranging from America s economic expansion abroad to the relations of democracies with authoritarian leaders and rogue nations to advocacy of such concepts as internationalism unilateralism nation building and regime change In so doing they take readers on a virtual tour of American diplomatic history tracing the ideas and actions of individuals in shaping our foreign policy whether George F Kennan as author of Soviet containment or Ronald Reagan as progenitor of Star Wars The essays range over a variety of scenarios to depict leaders coming to grips with real world situations They offer original views on such topics as American diplomacy toward Nicaragua origins of U S attitudes toward Russia and the Soviet Union FDR s idiosyncratic approach to statecraft and food diplomacy as practiced by LBJ and Richard Nixon And in considering post Cold War crises they address Bill Clinton s military interventions George W Bush s war against Iraq and the half century background to the current nuclear standoff with Iran Additional articles pay tribute to the outstanding career of Robert H Ferrell as a scholar and teacher Throughout the volume the authors seek to exemplify the scholarly standards of narrative diplomatic history espoused by Robert Ferrell especially the notion that historians should attempt to explain fully the circumstances opportunities and pressures that influence foreign policy decisions while remembering that historical actors cannot with certainty predict the outcomes of their actions *Presidents, Diplomats and Other Mortals* is both a collection of compelling historical studies and an overarching case study of the role of individuals in foreign policy making and an insightful review of some of history s most important moments Taken together these essays provide a fitting tribute to Ferrell the trailblazing scholar in whose honor the book was written

Mr. X and

the Pacific Paul J. Heer, 2018-05-15 George F Kennan is well known as the preeminent American expert on the Soviet Union during the Cold War and the author of the doctrine of containment In *Mr X and the Pacific* Paul J Heer chronicles and assesses Kennan's work in affecting US policy toward East Asia Heer traces the origins development and bearing of Kennan's strategic perspective on the Far East during his time as director of the State Department's Policy Planning Staff from 1947 to 1950 The author follows Kennan's career and evolution of his thinking as he subsequently became a prominent critic of American participation in the Vietnam War *Mr X and the Pacific* offers readers a new view of Kennan revealing his importance and the totality of his role in East Asia policy his struggle with American foreign policy in the region and the ways in which Kennan's legacy still has implications for how the United States approaches the region in the twenty first century

George C. Marshall C. Brower, 2011-06-06 Bringing together a who's who of Marshall scholars this volume examines the major roles assumed by Marshall over his five decade career soldier statesman and peacemaker and leader and manager to illuminate key issues and themes surrounding the man and his era **Allies at War** Tim Bouverie, 2025-06-10 A revelatory The Guardian political history of World War II that opens a window onto the difficulties of holding together the coalition that ultimately defeated Hitler by the critically acclaimed author of *Appeasement* A fine reassessment of Allied politics and diplomacy during the Second World War impeccably researched elegantly written and compellingly argued The Times UK After the fall of France in June 1940 all that stood between Adolf Hitler and total victory was a narrow stretch of water and the defiance of the British people Desperate for allies Winston Churchill did everything he could to bring the United States into the conflict drive the Soviet Union and Nazi Germany apart and persuade neutral countries to resist German domination By early 1942 after the German invasion of Russia and the Japanese attack on Pearl Harbor the British Soviet American alliance was in place Yet it was an improbable and incongruous coalition divided by ideology and politics and riven with mistrust and deceit Churchill Franklin D Roosevelt and Joseph Stalin were partners in the fight to defeat Hitler but they were also rivals who disagreed on strategy imperialism and the future of liberated Europe Only by looking at their areas of conflict as well as cooperation are we able to understand the course of the war and world that developed in its aftermath *Allies at War* is a fast paced narrative history based on material drawn from more than a hundred archives Using vivid firsthand accounts and unpublished diaries Bouverie invites readers into the rooms where the critical decisions were made and goes beyond the confines of the Grand Alliance to examine among other topics the doomed Anglo French partnership and fractious relations with General Charles de Gaulle and the Free French and interactions with Poland Greece Francoist Spain and neutral Ireland Yugoslavia and Nationalist China Ambitious and compelling revealing the political drama behind the military events *Allies at War* offers a fresh perspective on the Second World War and the origins of the Cold War
