George Grant And The Theology Of The Cross The Christian Foundations Of His Thought:

George Grant and the Theology of the Cross Harris Athanasiadis, 2001-01-01 Beneath the philosophical social political ethical national and moral issues that Grant tackled throughout his career was a fundamental concern with theodicy the problem of faith in God in a world of conflict suffering and tragedy Waiting at the Foot of the Cross Pamela R. McCarroll, 2013-12-24 How do we hope in the face of modernity's failure and postmodernity's absence of foundations How do we hope when the future seems fearful and no clear way forward appears How do we hope when despair indifference and cynicism dominate the psychic landscape of English speaking North America In dialogue with theologians of the cross George Grant and Douglas John Hall this book unmask the failure of hope in our time and the vacuum of meaning that remains As an exercise in the theology of the cross *Waiting at the Foot of the Cross* explores the North American context as one in which true hope is discovered only when life's negations are engaged from a posture of waiting trust Such hope is not passive or blind Rather it is attentive active open and spiritually grounded in the One who meets us when all hope is spent The final chapter proposes a way toward hope for today that inspires subversive resilience in the face of the ambiguities and vicissitudes of life Readers interested in the theology of the cross in thinking theologically in our time and place and those interested in the character of Christian hope will find this book compelling **Christian Moral Theology in the Emerging Technoculture** Brent Waters, 2016-05-23 We are living in an emerging technoculture Machines and gadgets not only weave the fabric of daily life but more importantly embody philosophical and religious values which shape the contemporary moral vision a vision that is often at odds with Christian convictions This book critically examines those values and offers a framework for how Christian moral theology should be formed and lived out within the emerging technoculture Brent Waters argues that technology represents the principal cultural background against which contemporary Christian moral life is formed Addressing contemporary ethical and religious issues this book will be of particular interest to students and scholars exploring the ideas of Heidegger Nietzsche Grant Arendt and Borgmann Bound and Free Douglas John Hall, In our largely secular postmodern environment theology perhaps appears quaint and archaic Yet Never has a thinking faith been more vital than today says Douglas John Hall when religious pluralism and fundamentalisms abound Precisely because we live in a post Christendom era he asserts serious religious reflection on the meaning and import of Christian faith is indispensable to renewing a sidelined church a disoriented society and ourselves as people of faith Hall shows how in his fifty years of theological journeying he himself has come to see in theology a personal quest or even compulsion to dive deeply into life's deepest ambiguities to take on the perplexity and disorientation of one's age and to struggle to find meaning in the hiddenness of God Christians around North America have come to depend on Douglas John Hall's writings to keep their faith honest and relevant Now in *Bound and Free* they will find a brief but earnest apology for the theological vocation as well as a personal testimony to a life of grappling with God as glimpsed in doubt question and quest *Collected Works of George*

Grant: 1933-1950 George Parkin Grant, Henry Roper, 2000-01-01 Included are Grant's early reviews a brief journal written as he recovered from tuberculosis in 1942 his earliest social and political writings and his DPhil thesis on the Scottish philosopher John Oman

Northern Spirits Robert C. Sibley, 2008-02-08 Canadians have devoted considerable thought to Hegel a proposition born out by the work of John Watson George Grant and Charles Taylor three major Canadian political philosophers of the last century In *Northern Spirits* Robert Sibley examines how Watson Grant and Taylor found in Hegel the theoretical tools needed to respond to Canada's uncertain existence

Christian Theology After Christendom Patricia G. Kirkpatrick, Pamela R. McCarroll, 2020-11-24 *Christian Theology after Christendom* Engaging the Thought of Douglas John Hall brings together contemporary thinkers to engage and build upon Douglas John Hall's work and to take up his challenge to reclaim a contextual and decolonizing theology of the cross as a means to speak to the realities of life and faith today With a focus on contemporary issues this edited collection critically analyzes and deconstructs the centuries old colonial triumphalism of Christian theology and the church in the West This book seeks to frame present day crises in ways that honor a deeply rooted theologia crucis that does not colonize the other It explores constructive decolonizing possibilities for Christian theology at the end of Christendom

Robertson, 2018-01-01 *Hegel and Canada* is a collection of essays that analyses the real but under recognized role Hegel has played in the intellectual and political development of Canada The volume focuses on the generation of Canadian scholars who emerged after World War Two James Doull Emil Fackenheim George Grant Henry S Harris and Charles Taylor

The End of Hope--The Beginning Pamela R. McCarroll, 2014-04-01 Our experiences of hope in the face of difficulties are as varied as our lives and yet there has been very little examination of the ways we hope A skilled and compassionate storyteller McCarroll introduces readers to five expressions of hope through detailed and poignant case studies On that foundation she then builds a discussion of the possibilities limitations and value of each approach The result is an engaging and optimistic exploration of hope in difficult times

the School of Social Sciences Atkinson Faculty of Liberal and Professional Studies York University During the 1950 s he studied undergraduate philosophy with George Grant Moving Images of Eternity William F. Pinar, 2019-03-26 William F. Pinar presents a comprehensive and original study that demonstrates the significance and pertinence of the scholarship of George Grant for teaching today While there are studies of Grant s political philosophy there has been no sustained study of his teaching Pinar not only draws upon the collected works he has also consulted Grant s PhD thesis at Oxford as well as the philosopher s biography collected letters and the vast secondary literature What emerges is a treatise that reveals Grant s timeliness and his prescience in identifying and critiquing key educational issues nearly half a century ago from academic vocationalism and educational technology to privatization and the ascendancy of research issues that are eminently relevant today Beyond the classroom Grant s concerns extended to the impact of economic globalization which he feared would erase distinctive national histories and cultures As such Grant foresaw the current issues of right wing populism notably in the UK and the US as reactions against these historical tendencies This volume is destined to become an indispensable reference work for students of Grant in particular and for students of education in general This book is published in English S il existe des tudes portant sur la philosophie politique et la th ologie de George Grant il n y avait jusqu maintenant aucune tude soutenue sur son enseignement et plus pr cis ment sur la relation de son approche p dagogique celles ci Aucune tude ne pouvait de fa on aussi pouss e l uvre compl te y compris ses pr sentations aux enseignants et sa th se doctorale d Oxford en philosophie ou sa biographie sa correspondance et la vaste litt rature secondaire Con u comme livre de r f rence pour les adeptes de Grant de m me que comme un manuel pour les tudians en ducation cet ouvrage arrive point nomm Pinar souligne la prescience de Grant qui identifiait et critiquait il y a d j cinquante ans des questions d ordre ducationnel vocation acad mique technologie p dagogique privatisation de l enseignement ascendance de la recherche sur l enseignement qui sont d actualit Grant tait aussi pr occup par le destin de ce qu il appelait la particularit au Canada et l tranger et s inqui tait que la mondialisation conomique effacerait les histoires et cultures nationales distinctives Un tat mondial universel et homog ne les remplacerait ce qui repr senterait la pire tyrannie inflig e l humanit Grant avait vu venir le populisme de droite que l on voit actuellement prendre prise notamment au Royaume Uni et aux tats Unis comme r action ces tendances historiques Ce livre est publi en anglais Collected Works of George Grant George P. Grant, 2000-12-15 More than a decade after his death George Grant continues to stimulate challenge and inspire During his lifetime he influenced a broad cross section of Canadians urging them to think more deeply about matters of social justice and individual responsibility He wrote on subjects as diverse as technology abortion Canadian politics and nationalism and the war in Vietnam and was claimed equally by rightist and leftist causes Grant s legacy includes six books and more than two hundred articles as well as numerous broadcast transcripts extensive correspondence and a wealth of unpublished lectures essays and notes In this projected eight volume series Grant s published and unpublished writings including his complete correspondence will be brought together

for the first time The texts are annotated and each volume includes an introduction to the period that it covers The series will not only make it possible to see the whole pattern of Grant s thought but will also invite a reconsideration of the nature and importance of his work Volume I covers Grant s intellectual development through his student years Included are his early reviews a brief journal written as he recovered from tuberculosis in 1942 and his earliest social and political writings about Canadian and international affairs The most important of Grant s formative years were those spent at Oxford after the war culminating in the writing of his DPhil thesis on the Scottish philosopher John Oman In this dissertation published here in full we see the main themes of Grant s thought worked out for the first time **Canadian Books in Print. Index ,1975 **This Mortal Flesh** Brent Waters,2009-09-01 Although a proper concern for health is compatible with Christian faith recent and anticipated advances in extending human longevity are often based on philosophical presuppositions and religious values that are adverse to core Christian beliefs and convictions In this solid text theologian and ethicist Brent Waters reflects on the formation practice and meaning of the Christian moral life in light of selected bioethical issues Theologically grounding his reflections on the doctrine of the incarnation Waters considers issues such as biotechnology and physical cognitive enhancement reproductive technology human genetics embryonic stem cell research and regenerative medicine He also examines the posthuman project exploring what it means to be human in light of the denial of mortality **Human Flourishing in a Technological World** Jens Zimmermann,2023-08-23 Human Flourishing in a Technological World addresses the question of human identity and flourishing in the light of recent technological advances The chapters in Part I provide a philosophical theological evaluation of changing major anthropological assumptions that have guided human self understanding from antiquity to modernity How did we move from a religious and mostly embodied anthropology of the person to the idea that we can upload human consciousness to computing platforms How did we come to imagine that machines can actually be intelligent or even learn in human fashion Moreover what metaphysical changes explain our mostly uncritical embrace of a technological determination of being and thus of how reality works In Part II the focus turns to the practical implications of our changing understanding of what it means to be human Covering some of the most pressing current concerns about human flourishing these chapters deal with the impact of technology on education healthcare disability leisure and the nature of work communication aging death and the nature of wisdom for human flourishing in light of evolutionary biology The volume includes the text of a lecture by virtual reality engineer and computer scientist Jaron Lanier and a discussion between Lanier and other contributors Beyond Cutting Edge? Paul C. Heidebrecht,2014-03-10 A quick scan of any newsstand is enough to confirm the widespread preoccupation with technological change As a myriad of articles and advertisements demonstrate not only are we preoccupied with technology but we are bombarded with numerous reminders that the cutting edge is in constant motion Most often the underlying assumption of Christians is that we have no choice but to find ways to cope with the latest and greatest Indeed it is often

assumed that the church has no choice but to find ways to cope with its new technological context This book does not make the same assumptions Building on the work of Mennonite theologian John Howard Yoder it argues that the practices of the church make it possible for Christians to conscientiously engage technology This happens when we recognize that marks of the church such as patience vulnerability and servanthood can put technological ideals such as speed control and efficiency in their proper place In the course of grappling with three examples of morally formative technologies automobiles genetically modified food and the Internet this book goes beyond Yoder s thought by emphasizing that the church also plays a crucial role in our moral formation

Hopeful Realism in Urban Ministry Barry K. Morris, 2016-05-20 What pray tell does a faithful urban ministry require if not a triadic relationship of prayer justice and hope Could such a theologically conjunctive relationship of prayer justice and hope fortify urban ministry and challenge students and practitioners to ponder and practice beyond the box Frequently justice is collapsed to charity hope into wishful thinking or temporarily arrested despair and prayer a grasp at quick fix interventions An urban ministry s steadfast public and prophetic witness longs for the depth and width of this triad Via three countries decades of endeavors one chapter brainstorms urban ministry practices while another s literature survey signals crucial convictions Amid many seminal theologians are summoned to ground urban ministry intimations and implications Niebuhr on justice Moltmann on hope and Merton on contemplative prayer Evident is passion that fuels compassion in the service of justice hope that engages despair and prayer that draws from the contemplative center of it all thankful resources for long haul ministry The triad presses to illumine a concrete ministry s engagement of relentless forced option issues yet with significant networks resourcing Contrast awareness animates endurance The summary exegetes the original grace based serenity prayer Hence hope vitally balances realism s temptation to cynicism Realism saves hope from irrelevancy

Beloved Dust Robert Hughes, 2008-08-15 Beloved Dust takes a realistic and contemporary view of human being as entirely physical dust and then shows it immersed in three great tides of the Holy Spirit the traditional threefold rhythm of conversion transfiguration and glory

From Human to Posthuman Brent Waters, 2016-04-22 Technology is one of the dominant forces shaping the emerging postmodern world Indeed the very fabric of daily life is dependent upon various information communication and transportation technologies With anticipated advances in biotechnology artificial intelligence and robotics that dependence will increase Yet this growing dependence is accompanied with a deep ambivalence For many technology symbolises the faith of the postmodern world but it is an ambivalent faith encapsulating both our hopes and fears for the future This book examines the religious foundations underlying this troubled faith in technology as well as critically and constructively engaging particular technological developments from a theological perspective
