Jamison, 1975 George Monck 1st Duke of Albemarle KG 6 December 1608 3 January 1670 was an English soldier and politician and a key figure in the restoration of Charles II Wikipedia **The Final Curtain** Harry Garlick, 2023-11-20 Death is the one subject about which our culture is still reticent Consequently many ceremonies about death are not examined in an open enquiring and direct way The state funeral that large public ritualized statement about death is accepted in our society while its deeper significances remain unexamined because it is seen as something of an historical curiosity a survival from an earlier age associated with the traditions of that society This well illustrated study of a number of state funerals of the Medicis and the Habsburgs in the Renaissance of the Duke of Albemarle in the seventeenth century of the Duke of Wellington and Abraham Lincoln in the nineteenth century and of President Kennedy and Diana Princess of Wales in the twentieth century and the mythical structures and traditions they represent examines two aspects in particular the strongly political undertones of the public statements and the theatrical elements of the public ritual **A Global Chronology of Conflict** Spencer C. Tucker, 2009-12-23 This monumental six volume resource offers engaging entries of major diplomatic military and political events driving world conflicts from ancient times to the present Now from ABC CLIO long regarded as a premier publisher of military history comes a monumental resource that encapsulates the entire scope of conflict among human societies Spanning nearly five millennia from the earliest documented fighting to the present A Global Chronology of Conflict From the Ancient World to the Modern Middle East provides a comprehensive survey of major military events With coverage that reaches beyond the battles this work examines the political and diplomatic forces driving world conflicts revolutions forced changes of governments international treaties and acts of aggression and terrorism Written by acclaimed military historian Spencer C Tucker these six chronologically organized volumes offer an accessible richly detailed timeline of military conflict across human history The concise entries cover all important events on the battlefield and in the corridors of power with special features highlighting hundreds of key leaders and weapon systems From specific data on casualties to coverage of evolving weapons technology to insightful analyses of the social impact of war A Global Chronology of Conflict is an essential resource for students researchers history buffs and general readers alike [The 17th and 18th Centuries](#) Frank N. Magill, 2013-09-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts

on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography Routledge Companion to Women, Sex, and Gender in the Early British Colonial World Kimberly Anne Coles, Eve Keller, 2018-10-03 All of the essays in this volume capture the body in a particular attitude in distress vulnerability pain pleasure labor health reproduction or preparation for death They attend to how the body's transformations affect the social and political arrangements that surround it And they show how apprehension of the body in social and political terms gives it shape The Long Process of Development Jerry F. Hough, Robin Grier, 2014-11-20 Douglass North once emphasized that development takes centuries but he did not have a theory of how and why change occurs This groundbreaking book advances such a theory by examining in detail why England and Spain developed so slowly from 1000 to 1800 A colonial legacy must go back centuries before settlement and this book points to key events in England and Spain in the 1260s to explain why Mexico lagged behind the United States economically in the twentieth century Based on the integration of North's institutional approach with Mancur Olson's collective action theory Max Weber's theory of value change and North's focus on dominant coalitions based on rent and military in *In the Shadow of Violence* this theory of change leads to exciting new historical interpretations including the crucial role of the merchant navy alliance in England and the key role of George Washington's control of the military in 1787 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1976 *Hobbes and the Artifice of Eternity* Christopher Scott McClure, 2016-10-27 Thomas Hobbes argues that the fear of violent death is the most reliable passion on which to found political society His role in shaping the contemporary view of religion and honor in the West is pivotal yet his ideas are famously riddled with contradictions In this breakthrough study McClure finds evidence that Hobbes' apparent inconsistencies are intentional part of a sophisticated rhetorical strategy meant to make man more afraid of death than he naturally is Hobbes subtly undermined two of the most powerful manifestations of man's desire for immortality the religious belief in an afterlife and the secular desire for eternal fame through honor McClure argues that Hobbes purposefully stirred up controversy provoking his adversaries into attacking him and unwittingly spreading his message This study will appeal to scholars of Hobbes' political theorists historians of early modern political thought and anyone interested in the genesis of modern Western attitudes toward mortality Print Letters in Seventeenth-Century England Gary Schneider, 2018-02-06 *Print Letters in Seventeenth-Century England* investigates how and why letters were printed in the interrelated spheres of political contestation religious controversy and news culture those published as pamphlets as broadsides and in newsbooks in the interests of ideological disputes and as political and religious propaganda The epistolary texts examined in this book be they fictional satirical collected or authentic were written for or framed to have a specific persuasive purpose typically an ideological or propagandistic one This volume offers a unique exploration into the crucial interface of manuscript culture and print culture

where tremendous transformations occur when for instance at its most basic level a handwritten letter composed by a single individual and meant for another individual alone comes either intentionally or not into the purview of hundreds or even thousands of people This essential context a solitary exchange transmuted via print into an interaction consumed by many serves to highlight the manner in which letters were exploited as propaganda and operated as vehicles of cultural narrative
