## **George Moore In Perspective:**

*George Moore in Perspective* Janet Egleson Dunleavy, 1983      **Text of a lecture by George Moore entitled 'On perspective', read at the Architectural Society on 13 Jan 1835** , On the application of perspective in architecture and the effect it has on design as connected with outline and the use of colour in interior decoration      George Moore in Perspective Janet Egleson Dunleavy, 1983      **The Collected Works of George Moore: Modern painting** George Moore, 1923      **The Pragmatics of Revision** Siobhan Chapman, 2020-04-29 This book presents the first full length study of the stylistically experimental and influential novelist George Moore's 1852-1933 repeated acts of rewriting Moore extensively and repeatedly revised and re-issued many of his major works sometimes years or even decades after they were initially published This monograph provides new insights into how this process shaped and determined his work and by extension into the creative significance of literary rewriting more generally It also offers the first sustained application of linguistic pragmatics the study of meaning in interaction to the work of a single author opening up questions about how analytical paradigms developed in pragmatics can explain how rewriting can affect the interactive relationship between a literary text and its readers The book will be of interest to students and researchers in the areas of pragmatics stylistics literary history English literature and Irish literature      **The Dead Sea Scrolls in Scholarly Perspective: A History of Research** Devorah Dimant, Ingo Kottsieper, 2012-01-20 This book contains an exhaustive survey of past and present Qumran research outlining its particular development in various circumstances and national contexts For the first time perspectives and information not recorded in any other publication are highlighted      **The New Nineteenth Century** Barbara Leah Harman, Susan Meyer, 2012-11-12 This book includes essays on writers from the 1840s to the 1890s well known writers such as Anne Brontë Wilkie Collins and Bram Stoker lesser known writers such as Geraldine Jewsbury Charles Reade Margaret Oliphant George Moore Sarah Grand and Mary Ward The contributors explore important thematic concerns the relation between private and public realms gender and social class sexuality and the marketplace and male and female cultural identity      **Mark of the Beast** Alfredo Bonadeo, 1989-01-23 The First World War is a watershed in the intellectual and spiritual history of the modern world On the one hand it brought an end to a sense of optimism and decency bred by the prosperity of nineteenth century Europe On the other it brought forth a sense of futility and alienation that has since pervaded European thought That cataclysmic experience is richly reflected in the work of writers and artists from both sides of the conflict and this study provides a detailed analysis of two basic themes death and degradation that mark the literature about the war From their accounts most men entered the war lightheartedly filled with ideals of patriotism and glory but these generous feelings were soon quelled as the war settled into a stalemate its operations reduced to simply grinding away the opposing forces In these operations Alfredo Bonadeo shows men became mere aggregations thrown against one another wasted with no appreciable effects or gains save carnage itself This cheapening and disregard for human life and being

Bonadeo finds rooted not only in the conditions of war but significantly in a contempt for the common man prevailing in European political and intellectual circles This attitude is revealed most plainly in his analysis of the Italian literature which hitherto has received little note Italian leaders saw the war as an opportunity to expiate a sense of national guilt and here the inconclusive campaigns made their futility all the greater Out of the torn fields of the First World War grew the seeds of a second greater conflict but Professor Bonadeo concludes the flowering of the seeds was aided by the degradation of man's spirit on those fields The grim focus of this book the dead voices it evokes leads to a new appreciation of the meaning of the Great War New Perspectives on the History of Life Sciences and Agriculture Denise Phillips, Sharon

Kingsland, 2015-02-12 This volume explores problems in the history of science at the intersection of life sciences and agriculture from the mid eighteenth to the mid twentieth century Taking a comparative national perspective the book examines agricultural practices in a broad sense including the practices and disciplines devoted to land management forestry soil science and the improvement and management of crops and livestock The life sciences considered include genetics microbiology ecology entomology forestry and deal with US European Russian Japanese Indonesian Chinese contexts The book shows that the investigation of the border zone of life sciences and agriculture raises many interesting questions about how science develops In particular it challenges one to re-examine and take seriously the intimate connection between scientific development and the practical goals of managing and improving perhaps even recreating the living world to serve human ends Without close attention to this zone it is not possible to understand the emergence of new disciplines and transformation of old disciplines to evaluate the role and impact of such major figures of science as Humboldt and Mendel or to appreciate how much of the history of modern biology has been driven by national ambitions and imperialist expansion in competition with rival nations **Faulkner: International Perspectives** Doreen Fowler, 1984 Essays on William Faulkner's work from foreign perspectives **A History of Verse Translation from the Irish, 1789-1897** Robert Welch, 1988 This study surveys the course of verse translation from the Irish starting with the notorious Macpherson controversy and ending with the publication of George Sigerson's *Bards of the Gael and Gall* in 1897 Professor Welch considers some of the problems and challenges relating to the translation of Irish verse into English in the context of translation theory and ideas about cultural differentiation Throughout the book we see again and again the dilemma of poets who must be faithful to the spirit or the form of Irish verse but who rarely have the ability to capture both The relationship between Irish and English in the nineteenth century was necessarily a critical one and the translators were often working at the centre of the crisis whether they were aware of it or not As Celticism evolved into nationalism and heroic idealism these influences can be clearly seen in the development of verse translation from the Irish Theater Figures Emily Allen, 2003 Why did nineteenth century novels return over again to the scene of theater Emily Allen argues that theater provided nineteenth century novelists and critics with a generic figure that allowed them to position particular novels and novelistic genres within a complex literary

field Novel genres high and low male and female public and private realistic and romantic all came to identify themselves within a set of coordinates that included if only for the purpose of exclusion the spectacular figure of theater This figure likewise provided a trope around and against which to construct images of readers and authors images that most frequently worked to mediate between the supposedly private acts of reading and writing and the very public facts of the print market In readings of novels by Burney Austen Scott Dickens Jewsbury Flaubert Braddon and Moore Allen shows how frequently theater appears as figure in novels of the nineteenth century and how theater figures actively and importantly in what we have come to look back on as the history of the nineteenth century novel Theater Figures thus offers a new model for thinking about how theater helped produce changes in the nineteenth century literary market While previous critics have considered theater as an enabling foil for the novel either a constitutive opposite or constructive ally Allen demonstrates how theater figures and tropes were used to negotiate competition among the novels and novelists eagerly seeking their share of the literary limelight
