Bush, Former President of the United States (Leadership, Vision, Reforms) IBP USA,2013-08 A collaboration between an attorney and an animal protection advocate this work utilizes the extremely controversial and high profile crush video case US v Stevens to explore how American society attempts to balance the protection of free speech and the prevention of animal cruelty Starting from the detailed case study of a single prominent ruling the authors provide a masterful survey of important issues facing society in the area of animal welfare The Stevens case included various hot topic elements connected to the role of government as arbiter of public morality including judicial attitudes to sexual deviance and dogfighting Because it is one of only two animal rights cases that the US Supreme Court has handled and the only case discussing the competing interests of free speech and animal cruelty it will be an important topic for discussion in constitutional and animal law courses for decades to come The Stevens case arose from the first conviction under 18 USC 48 Section 48 a federal law enacted in 1999 which criminalized the creation sale and or possession of certain depictions of animal cruelty The US Congress intended Section 48 to end the creation and interstate trafficking of depictions of animal cruelty in which animals are abused or even killed for entertainment s sake Proponents of Section 48 predicted that countless benefits to both humans and animals would flow from its enforcement Opponents of the law argued that it was too far reaching and would stifle protected speech Critics of Section 48 appeared to have prevailed when the US Supreme Court struck the law down as unconstitutionally overbroad Although a law tailored to address the Supreme Court s concerns was quickly enacted the free speech animal cruelty controversy is far from over *George W.
